

**TARBOROUGH:**

WEDNESDAY, NOVEMBER 4, 1846.

**Correction.**

The General Muster advertised in our last paper to take place on the 24th inst. is to come off the 14th, as will be seen by the corrected advertisement in this paper.

**Congressional Globe and Appendix.**

The reader will find on our first page, Messrs. Blair & Rives's Prospectus for a continuation of this famous register of Congressional speeches and proceedings. The Baltimore Republican says: "Congress has authorized a large subscription for the work, and, by resolution, given it the character of an official report of its proceedings. For the last nine years, the proceedings of Congress have been published in these issues, and they are the only source from which its authentic history can be procured. In the new series, improvements are to be made of importance, so as to secure the most perfect accuracy, and additional expenses incurred, and yet the price is not to be raised, but will remain at the low terms of \$1 per annum for each, as heretofore. No citizen should be without the work—to the politician it is indispensable, and no American Library can be perfect without it. The work can be had from the beginning, or from any date since, and subscriptions should be forwarded by the 7th of December, at farthest, to procure all the numbers of the new series."

**From the Raleigh Standard.**

**Mammoth Potato.**—Ford Taylor, Esq. of Nash county, has sent us a sweet Potato, which measures 20 inches in circumference, 13 inches in length, and weighs 8 pounds, after having been a month out of the ground. Nash county against the world for big Potatoes, pretty girls, and genuine Democracy. Who can beat this Potato? It can be seen at our office.

**Remark.**—We do not intend to disparage the potatoes, the pretty girls, or the democracy of Nash, for we know they are hard to "beat"—but we only mean to say, that last week a sweet potato was presented to us, weighing eleven pounds and two ounces, (it was said to weigh twelve pounds when first taken out of the ground,) which was raised on the plantation of Dr. Gorham, in this county, and which can be seen at this office.—*Ed. Tarboro' Press.*

**Later from the Army.**

The New Orleans Picayune of the 21st ult. contains intelligence eleven days later from the army under Gen. Taylor. The advices from Monterey come down to the 6th of October. The city is in the quiet occupation of our troops. The Matamoras "Flag" of the 29th of Sept. says that Ampudia, in his interview antecedent to the capitulation of Monterey, stated to Gen. Taylor that Commissioners had proceeded to Washington on a mission of peace. This is supposed to be the reason why Gen. Taylor granted such liberal terms to the Mexicans.

The following order of Gen. Taylor announcing his victory is copied from the Flag of the 10th ultimo:

**Orders—No. 123.**

**Head Quarters Army of Occupation,**  
Camp near Montgrey, Sept. 27, 1846.

The Commanding General has the satisfaction to congratulate the Army under his command upon another signal triumph over the Mexican forces. Superior to us in numbers, strongly fortified and with an immense preponderance of artillery, they have yet been driven from point to point until forced to sue for terms of capitulation. Such terms have been granted as were considered due to the gallant defence of the town, and to the liberal policy of our own Government.

The General begs to return his thanks to his commanders and to all his officers and men, both of the regular and volunteer forces, for the skill, the courage and the perseverance with which they have overcome manifold difficulties, and finally achieved a victory shedding lustre upon the American arms.

A great result has been obtained, but not without the loss of many gallant and accomplished officers and brave men. The Army and the country will deeply sympathize with the families and friends of those who have thus sealed their devotion with their lives.

By order of Maj. Gen. TAYLOR:

(Signed) *W. W. S. Bliss*, As't. Adj. Gen.

Official:  
*Geo. A. McCall*, Ass't. Adj. Gen.

**From the Wilmington Journal.**

**Gen. Taylor's Route.**—Gen. Taylor entered Matamoras on or about the 12th of last May. Since then he has advanced into the interior as far as Monterey, now become immortalized in the annals of our country, a distance (from Matamoras) of two hundred and seventy-nine miles. Saltillo, where it is said Santa Anna now is, at the head of 20,000 men, is distant from Monterey about seventy-five miles. From this point to San Luis Potosi, is about three hundred and seven miles. From thence to the city of Mexico itself, is, according to the best data we can find, three hundred and ten miles, making the whole route from Matamoras to the "Halls of the Montezumas," nine hundred and seventy-one miles, and from Monterey six hundred and ninety-two miles. If it be true that Santa Anna, and we have no reason to doubt it, is at Saltillo, at the head of an army of 20,000 men, and has fortified that place, we may expect to hear of another bloody battle, as soon as the armistice is terminated.

**From the Fayetteville Carolinian.**

**The War News.**—The Washington Union of the 14th ult. announced that Major Graham had been despatched to Gen. Taylor with instructions from the President to terminate the armistice, and commence hostilities by marching against Saltillo, the next town after passing Monterey, on the road to Mexico.

The Union of the 14th, contains a plate shewing the town of Monterey, and the situation of all the prominent points of attack. The troops had to march to the attack through extensive fields of corn, being the second crop of the year. The river or creek of San Juan, which runs by the town, was only knee deep. The houses were nearly all one story, with roofs nearly flat, and a wall some two or three feet above the roof, called a parapet wall, which served for soldiers to fire from behind. Most of the citizens and women retired from the town before the American army arrived.

**From the Union.**

**Treasury Notes—Interesting.**—In our paper of this day, will be found the notice of the Secretary of the Treasury, for deposits of specie with the Treasurer and Assistant Treasurer, for Treasury notes bearing an interest of five and two-fifths per cent. per annum, to an amount not exceeding three million of dollars. The fact being known at New York a short time since, that the Secretary desired a loan on Treasury notes, several of the banks of that city proposed to take the loan for Treasury notes bearing six per cent. interest, which was declined by the Secretary. Several other propositions for loans on terms less than six, and approaching nearly to five and two-fifths per cent., were also made by individuals, and declined by the Secretary. The notes now issued will be receivable for all public dues, both in the Land office and Custom House, as well before as after maturity, and must be regarded in the light, for many uses, of specie bearing an interest; and at the rate now proposed, we cannot doubt, that there will be a large demand for these notes.

**Shocking Affair.**—We are pained to state, that a shocking act of violence was committed on Monday morning last, about two miles west of this place, by William Smith upon his wife Elizabeth; he having, as we understand, shot her with a musket, during a fit of intoxication. The load was lodged in one arm, her thigh and abdomen. The arm was so shockingly lacerated, as to render amputation necessary. She died on Tuesday night. As the affair will necessarily undergo a judicial investigation, we refrain giving any thing more of the particulars.—*Hillsboro' Rec.*

**Fatal Accident.**—A friend has furnished us with an account of a most melancholy accident which happened in Stokes county on the 15th instant. Abram and Hampton Vanhoy, two brothers, started out early one morning to hunt turkeys. They went but a short distance before they separated; and after hunting for game for some time, approached within shooting distance of each other, in a very dense forest closely filled with undergrowth, when the latter, hearing something stirring in the leaves, and faintly discovering a moving object, which he took to be a

turkey, immediately levelled his gun, and fired at it—when, to his horror, he heard the dying shriek of his brother; and on running to the place, he found him a lifeless corpse! The rifle ball entered his head just above one ear and came out at the other. The deceased was about 30 years of age, and has left a young wife and two or three children to mourn his loss.  
*Greensboro' Patriot.*

**Lieut. Hoskins.**—The National Intelligencer contains a notice of some of the Officers who fell at Monterey, among which we find the following:—

"Lieutenant Charles Hoskins, of the 4th infantry, who was killed in that gallant charge in the streets of Monterey on the 21st September, was a native of North Carolina. He graduated at West Point in 1836, and was Adjutant of his regiment at the time of his death. As an officer he was ever active and distinguished. He rendered very important services in his capacity as adjutant in the battles of the 8th and 9th of May last. As Quartermaster in the old Cherokee nation in 1835, under Generals Scott and Wool, his services were pre-eminent in all the operations preliminary to the removal of the Cherokees. To attempt to bear any sufficient tribute to his rare virtues as a man, a gentleman, and a friend, might cause this notice to transcend its character as a record interesting to the public. But that public, which cherishes the glory of the Republic, and instantly accords its admiration for such heroic deeds, will feel an interest in hearing of the exalted private worth of such men, and will sympathize with those who lament their departure and extol their virtues. Lieut. Hoskins possessed a quick and sagacious intellect; he cherished a high and nice sense of honor, and was remarkable for the generosity and chivalry of his character, and for those winning traits which ever secured the regard and respect of those with whom he moved. The old "North State" never furnished for the services of the country a more choice and noble spirit. North Carolina will ever be proud of sons whose high character and gallant bearing shall rival his."

**Trial Concluded.**—A few minutes before 12 o'clock, last night, says the Richmond Republican of the 27th ult. after a tedious though searching examination of five days, and after one of the most powerful efforts on behalf of the Commonwealth, to send on, we have ever witnessed, William S. Myers, Samuel S. Myers, and William S. Burr, were discharged from further prosecution, on charge of the murder of Dudley Marvin Hoyt, by a majority of the Examining Court.

**Wilmington Market, Oct. 29.**

**Naval Stores.**—The news from Europe by the last steamer, has caused a decided improvement in the naval store market, both for the raw and manufactured article. Since last Friday, the day on which the European news was received here, Turpentine has been advancing; and the arrivals to market have been both small and slow. We hear of a sale this morning at \$3 17½ c. for export. Although the price is by no means settled, we think we may safely quote for best qualities from \$3 12½ to \$3 25. Sales have been made at these rates for a day or two past. The latter price was paid for a very superior lot of virgin dip. Spirits has also gone up, and we quote for sales made this week as high as 45 cents.

**Bacon.**—The market is well supplied, and prices are a shade lower than this day week. We quote for prime hams 8½ a 9c.; sides 7½; shoulders 7c.  
**Corn.**—no arrival to report. Store prices 65 to 70 c.—*Jour.*

**Washington Market, Oct. 28.**

**Bacon,** 6 to 7 cents; **Lard,** 6 to 7½; **Corn,** \$2 15 to \$2 25; **Turpentine,** new dip, \$2 50 to \$2 75; **Old dip,** \$2 50 to \$2 75; **Scrape,** \$1 10 to \$1 20.—*Whig.*

**Chronic Diseases.**

These diseases would never be known if the principles of Brandrethianism were adopted in the commencement of disease. Let purging, vegetable purging be universally adopted, and bleeding and all mineral medicines discarded, and there will soon be no chronic diseases in our land. All diseases are chronic whose duration has exceeded forty days. No cure can be expected unless the Brandreth Pills are used four or five times during every week—the suspension for a few days or a week, or more, must depend upon circumstances. To obtain a perfect cure, not a particle of the humors, which were depraved while

sick, must remain in the system. New sound humors must be supplied when the old vitiated ones are removed,—common sense tells us this.

For sale by

*Geo. Howard.*

Mr. Editor: The Chrono-thermal system is the only rational one; it treats the parts usually affected. As a family medicine for inflammations, coughs, colds, &c. I know of none that can equal Dr. Taylor's genuine Balsam of Liverwort. I use it in my family with my children with the most happy results—and called on the Doctor yesterday to recommend it, in addition to its celebrity, for its wonderful cures of consumption and liver complaints. The Doctor says it is extensively counterfeited, and purchasers should see Dr. Leeds's signature to the beautiful steel engraving on each bottle—or, what is better, buy of the Doctor, 375 Bowery.

Sold by *G. Howard, Tarboro'*—*J. Waldo, Hamilton*—*T. E. Smith, Williamston.*—Large bottles \$1.50, or six bottles for \$7.50; small bottles \$1.00, or six bottles for \$5.

**COMMUNICATED.**

**Elder Mark Bennett** is expected to preach the 1 day of November at Charles Ellis's, near Pitt's Cross Roads; 7th, of Nov. at Rowland Wiggins's; 8th, at Jordan Etheredge's; 28th, at John Carter's, near Pitt's Cross Roads; 29th, at Ellis's Meeting House. 7 Oct. 1846.

**DIED.**

In this place on Friday, the 23d ult., aged 13 years and 18 days, *Joseph J.*, son of Mr. John Parker of this place.

In Martin county, on Saturday last, *Laurence Cherry*, Esq., for many years Chairman of the County Court. Also, on Sunday last, Mr. *James Bowers*, aged about 30 years.

**Tarboro' MALE ACADEMY.**

**THE SEMI-ANNUAL Examination,** in this Institution, will commence on Wednesday, the 18th November, and continue two days. Parents, guardians, and friends generally are earnestly and respectfully requested to attend.

Owing to the inconveniences attending declamation at night, in the Academy, in the Fall season, together with other circumstances, there will be no public Exhibition at the close of this session.

The Spring Session of 1847 will commence on the 1st Monday in January.

Mr. **JOSEPH B. SOLOMON**, of Franklin county, a young gentleman of undoubted competency and qualifications to teach, has been associated as Assistant Teacher, in this Academy.

*J. H. BROOKS*, Prin.

Nov. 2nd, 1846. 44-3

*G. J. THOMAS & CO.*  
Wholesale and Retail Druggists,  
No. 5 South Charles street, Baltimore.  
Sept. 17, 1846. 39-5

**Fall Stock, DRUGS, MEDICINES, & DYE STUFFS.**

**THE Subscriber** takes pleasure in announcing to Merchants, Physicians, Builders, and the Public generally, that he is now conducting the Apothecary and Drug business, as agent for Mr. Francis Major, and has, by the last arrivals, received a large and well assorted stock of

**DRUGS, MEDICINES, Paints, Dye Stuffs, &c. &c.**

Together with a choice selection of *Brushes and Fancy Articles*, as well as *Surgical and Dental Instruments*—in a word, all articles usually kept in an establishment of the kind. I invite my old customers, as well as others who purchase in this market, to give my Stock an examination before purchasing; as all of those articles have been purchased in person from the Importers and Manufacturers by the package with special reference to quality and on the very best terms.

I would say to Merchants who go farther North, that they may find it to their interest to examine my Stock, as I am confident, after taking Exchanges, Freight and Commission, into consideration, that I can supply them on equally as good or better terms.

All orders thankfully received, and attended to with despatch. Articles warranted and carefully packed.

*WM. R. HILL*, Agent  
For Francis Major,  
Sycamore St., Petersburg, Virginia.  
September 9. 37-4

**Notice.**

**APPLICATION** will be made to the next Legislature to amend or renew the charter organizing the Trustees of the Tarboro' Academy.  
October 20th, 1846.

**Notice.**

**A PETITION** will be presented to the next General Assembly, praying for the passage of a law to prohibit the hedging of the waters of Town Creek from the mouth of said Creek up to Pender's Bridge.  
September 15, 1846.

**Notice.**

**APPLICATION** will be made to the next General Assembly, for the purpose of modifying the laws respecting the town of Tarboro', so that a Magistrate of Police can be again appointed for the same.  
Sept. 17, 1846.

**Lin's Temperance Bitters,**

On the principle of substituting the tonic in place of the stimulant principle, which has reformed so many drunkards. To be used with **LIN'S BLOOD PILLS**, superior to all others for cleansing the system and the humors affecting the blood, and for all irregularities of the bowels, and the general health.

**East India Hair Dye,**

Colors the hair any shade you wish, but will not color the skin.

**CORNS**—the French plaster is a certain cure.

Dr. Connel's invaluable cure for gonorrhoea, and all diseases of the urinary organs.

*GEO. HOWARD*, Agent.  
June 3rd, 1846.
