" " " Falkland	1 00
" " " Greenville	2 00

For seats, &c. apply to H. Wiswall, Washington—Goold Hoyt, Greenville—or to **GEORGE HOWARD, Tarboro'.** February 1, 1848.

### Dr. Jayne's Family Medicines.

An Important Cure by Dr. Jayne's Alternative.

We have been informed by Mrs. Mahan, (a grand-daughter of old Gen. Wayne) that she suffered for a number of years from the growth of a large Goitrous Tumor, which besides great deformity, produced both a difficulty of deglutition, and of breathing. Indeed, she says, the pressure upon the wind-pipe was so great, as to prevent her from sleeping in a recumbent position, and often suffocation appeared inevitable. She also laboured under severe indisposition from Liver Complaint and Jaundice, with a horrible train of nervous affections, for which she used Dr. Jayne's Alternative, which she took regularly for six or seven weeks, with occasional doses of his Sanative Pills, her health was completely re-established, and now perceiving some diminution in the size of the Goitrous Tumor, she was encouraged to persevere in the use of the Alternative, until every vestige of the painful Tumor was entirely removed.

We cannot speak too highly of this important preparation of Dr. Jayne, and for the sake of suffering humanity, hope that it may become more generally known.

Public Ledger.

### Worms! Worms! Worms!

To remove those troublesome and dangerous inhabitants of the stomach and bowels, which so often impair the health and destroy the lives of children, use Jayne's Tonic Vermifuge, a certain and safe preparation for the removal of the various kinds of worms, dyspepsia, sour stomach, want of appetite, infantile fever and ague, and debility of the stomach and bowels and organs of digestion. It is without exception one of the best preparations in the world.

Prepared only by Dr. D. JAYNE, Philadelphia, and sold on agency by

GEORGE HOWARD.

Tarboro', Nov. 9, 1847.

### State of North Carolina.

Ichabod Moore,

vs.

Benjamin C. D. Eason,  
Original Attachment—In Edgecombe County Court.

Joshua Speight,

vs.

Benjamin C. D. Eason,  
Original Attachment—In Edgecombe County Court.

Both cases returned to May Term, 1848, of said Court, with the following return of Sheriff:—

"Executed by summoning Wyatt Moye and R. S. Adams as Garnishees—May 1st, 1848."

**T**HE defendant, Benjamin C. D. Eason, is hereby notified, that both the above cases were returned at May Term, A. D. of Edgecombe Court of Pleas and Quarter Sessions, and that unless he appear at the next term of said Court, to be held at the Court House in Tarboro', on the fourth Monday of August next, and then and there replevy and plead to issue, judgment by default final will be entered against him, and the debts due from the Garnishees as confessed by them, condemned to satisfy the plaintiff's recovery.

By Order of said Court—at May Term, A. D. 1848.

JNO. NORFLEET, Clerk.

### State of North Carolina.

R. & H. Belcher,

vs.

Benjamin C. D. Eason,  
Original Attachment—In Edgecombe County Court

Returned to May Term, 1848, with the following return of Sheriff:—The within attachment was this day executed by levying on a certain tract of land, formerly John Thigpen's, adjoining the lands of William V. Moore, Burrell or Allen Gay, and Levi Harrell—240 acres, be the same more or less—May 1st, 1848."

**T**HE defendant, Benjamin C. D. Eason, is hereby notified, that the above Attachment was duly returned at May term, 1848, of Edgecombe Court of Pleas and Quarter Sessions, and that unless he be and appear before the Justices of said Court at the next term thereof, to be held at the Court House in Tarborough on the fourth Monday of August next, and then and there replevy and plead to issue, judgment by default final will be entered against him, and the property levied on condemned to be sold to satisfy the plaintiff's recovery.

By Order of said Court, at May term, A. D. 1848.

JNO. NORFLEET, Clerk.

### Dr. Kuhl's

### Abyssinian Mixture.

FOR GONORRHOEA, GLEET, FLUOR ALBUS, GRAVEL, &c.

Letter from Dr. James R. Callum, dated Milton, N. C. August 14, 1847.

Dr. J. Kuhl—Dear Sir: Your medicines have given entire satisfaction in this section of country, the Abyssinian Mixture especially, is highly approved of, it has never failed to cure in every case. It sells like hot cakes. I have never had enough to supply the demand. You will please send me a large supply of it as soon as you arrive at home. Yours, respectfully, J. P. CALLUM, Milton Drug Store.

—:—

### From the Milton Chronicle.

Laurel Grove, (near Milton) Jan. 15, 1848.

Dr. Kuhl—Dear Sir: We have now been about seven years, Agents for the sale of your Restorer of the Blood, and other Medicines, and are happy to state they have given in all cases general satisfaction, particularly the Abyssinian Mixture has given universal satisfaction, so that every one, who has used it, has received that relief that you guaranteed in your directions. Mr. James M. Vernon, to whom you recommended your *Aromatic Extract*, for Rheumatism, bought a bottle of it at 50 Cents, and two embrocations cured him entirely, and the disease has never returned. Yours, respectfully, KIRBY & ANDERSON.

AGENTS—**GEORGE HOWARD, Tarboro';** F. S. Marshall, Halifax; James Simmons, Weldon; C. Pugh, Gaston; E. Cook, Warrenton; Henry Goodloe, Warrenton; P. C. Brown, Louisburg; John H. Brodie, Franklin; Louis H. Kittle, Henderson; R. H. Mitchell, Oxford. May 16.

## POLITICAL.

### Lewis Cass.

A correspondent of the Union gives the following brief summary of his reasons for supporting Gen. Cass for the Presidency:

*Firstly.* I will vote for Cass, because he draughted the law under which Aaron Burr was tried for treason to his country.

*Secondly.* Because *Thomas Jefferson, that great democratic apostle*, upwards of forty years ago, had confidence sufficient in Lewis Cass to make him marshal of the then territory of Ohio.

*Thirdly.* Because Lewis Cass, in the last war with our implacable enemy, Great Britain, was the first man to enter Canada; and had his wise counsels been adopted, the British provinces might now form an integral part of our glorious confederation.

*Fourthly.* Because Lewis Cass has proved himself an able national negotiator, inasmuch as he completed twenty-one treaties with the Indians, none of which has ever been disputed by that wild, wandering and indomitable race.

*Fifthly.* Because that great and good patriot Andrew Jackson, imitating his illustrious prototype, called Lewis Cass to his councils, by making him Secretary of War.

*Sixthly.* Because Lewis Cass, when our minister to France, circumvented and annihilated the wiles and schemes of our inveterate foe when the quintuple alliance was formed under the influence of Great Britain, which would have left our shipping at the mercy of English cruisers, and would have deprived us of our rights to the highway of nations.

*Seventhly.* Because Lewis Cass, in the celebrated discussion on the Oregon question, boldly, fearlessly, and honestly advocated our right of territory up to 54° 40', notwithstanding the intimidation of the emissaries of England.

*Eighthly.* Because Lewis Cass is the candidate of that party which has always been the consistent advocate of human rights, of freedom of opinion, and of liberty of conscience.

*Ninthly.* Because that party has guaranteed to adopted citizens the same rights, protection, and privileges which it has and does to citizens of native birth; and because it scattered to the four winds of Heaven the odious alien, gagging and sedition laws.

### From the Fayetteville Carolinian.

*Arrest of a Murderer.—His rescue by his friends.*—From the St. Louis Republican of May 26th, we learn the following facts:

An Irishman named Richard White fled from Ireland in October last, under a charge of murder in Tipperary. He arrived in this country, and made his way to the lead mines near Galena, Illinois. The British government found out where he was, and under the provisions of the "Ashburton treaty," or treaty of Washington, made the necessary arrangements, through the British Consul at New York, to have him arrested and carried back. Accordingly, a British policeman and a New York policeman proceeded to the lead mines, and after finding out White, ascertained that he had so many Irish friends there that he could not be arrested without they could decoy him off, which they did, and took him to the town of Galena. But that night, the laborers from the mines rushed in, in large bodies, and they rescued White from the officers and carried him back to the mines.

The result of this will be, in all probability, that the British government will call upon the American government to have the prisoner delivered up to justice,

and the miners will have to submit or fight. The British government pursues its fugitives with a steady eye and determined purpose; and in this case has sought the murderer at a distance of 4000 miles, and pounced upon him even in the "bowels of the earth."

*Suicide.*—Intelligence was received here yesterday, that Mr. Edward Bloomfield Philips, a graduate of Harvard University in 1845, and a young man of twenty-two or three years of age, shot himself in his room at the water cure establishment, Brattleboro', Vermont, on Tuesday. He was a son of the late Edward Philips of this city, and had recently come into possession of a property estimated at upwards of half a million of dollars. An affair of the heart is said to have been the cause of the rash act. The mother and sister of the deceased reside at Cambridgeport.—*Boston Trans.*

Edward B. Philips, whose sudden and melancholy decease occurred at Brattleboro', Vt., a day or two since, bequeathed to Harvard University, for the purposes of the Cambridge Observatory, the magnificent sum of \$100,000.

With a fortune which could have commanded worldly comforts without stint, Mr. Philips, at the early age of 23, was weary even of the limited enjoyment in which he indulged, and was driven by *ennui* to a state of insanity in which he became a self-murderer. He has left property to the value of \$900,000.

N. Y. Journal of Com.

*A case of Poisoning.*—We learn that the family of Mr. Francis Wentzel, of Harper's Ferry, Va., were poisoned during the last week, which has already caused the death of two of his children and two others are still considered as being in a critical situation. A negro woman is suspected of having administered the poison.—*Free Press.*

*Reduction of Fare between Charleston and Baltimore.*—The different Rail Road Companies on the route from this city to Baltimore, have established a through ticket, which goes into operation to-day and will be issued here. Persons travelling on this route pass through Wilmington, Weldon, Petersburg, Richmond, Fredericksburg and Washington City—and all for fifteen dollars.

Charleston News.

*Remedy for the decay of the Pine Tree.*—We regret to learn, the loss of the pitch pine, which has attracted so much notice in Brunswick and the neighboring counties, has extended also to this region. We learn from those who have recently travelled the road from Newbern to Kingston, Waynesborough, &c., the turpentine pine is seen in great numbers either in a dying state, or already dead. As naval stores is an important staple in Eastern Carolina, and as its sudden loss or any considerable diminution in quantity would be a serious misfortune, particularly at this time, and before the enterprise of our farmers could be directed more exclusively to agricultural pursuits, it is very obvious that if there be any remedy by which this decay in the trees can be checked, that it is worth a serious effort to discover and apply that remedy.—*Newbernian.*

### From the Fayetteville Carolinian.

*The Siamese Twins.*—These attached brothers, who have been residing on a farm in North Carolina for about nine years, intend to leave home on a professional tour through the Southern and Western States. They have a thriving plantation and exhibit among other fruits of their husbandry three children each. Mrs. Chang and Mrs. Eng are sisters. They were both married at the same time, and their children pair off admirably as regards age. Between the first and second children in the two families, the difference of age is only eight or nine days.

When asked how they like working on the farm, the twins generally reply, "we like him much; him very good business for us." They do not express any desire to revisit Siam, being, as they say, "Americans now, and wives and children, they Americans too."

Their cash capital, about \$40,000, is in-

vested in a wine importing company at six per cent., and secured by mortgage upon real estate in this city. They draw regularly for the interest, but never touch the principal.

A correspondent of the Philadelphia Ledger, who has recently paid the twins a visit, gives quite an interesting account of them, from which we take the following:

"The twins can chop wood remarkably fast, four hands being on the axe at the same time. They also shoot at a mark or game, with four hands resting on the gun. They drive their wagon 40 miles to Wilkes themselves; and do any kind of work about the farm. Mrs. Eng says that her husband is very kind to the negroes, and that Chang is very severe with them. Mrs. Eng is also much better disposed than Mrs. Chang, although Mrs. C. is much the prettiest. Mrs. Eng is very close and saving; and Mrs. C. is disposed to indulge in dress and various other expenses. The twins rarely differ about dress; but often differ in their ideas of purchasing negroes or land. The opinion of Eng is always the law; and Chang readily acquiesces. Eng does all the writing, including the signing of notes and other important papers. Eng is one inch taller than Chang, and Chang's wife is taller than Eng's.

The twins dress very poorly; when I saw them, they had on pants made of country homespun, and cotton osenburg shirts. They always complain of being very poor, say they must be very saving, big family coming, &c. The one being sick, the other is similarly affected. The one desiring any thing—say a pipe, or any other luxury—the other also desires the same thing. When Eng first proposed courting the Misses Yates, Chang readily consented; but they differed a little as to which should have Sarah, and which should have Adelaide.

I might give a great many other particulars connected with them, but I have given already matter enough for two letters, and will now conclude by giving a little incident that occurred just previous to their engagements with the Misses Yates. Miss Smoots, of Wilkes county, who has since changed her name, fell in love with them, and wanted to marry them both; but they said it would not be "a fair shake" for her to marry them both, when there was so many gals about; but if she would get a partner and furnish another, it might answer. She then rode fifteen or twenty miles to see a young lady of her acquaintance, and proposed the matter to her. The young lady replied that she would not have such an unwieldy bulk of mortality if they had a house full of gold."

*A new Inlet into Pamlico Sound,* North Carolina, (broken out by the gale of March 1846, and since grown larger and deeper,) was entered on the 13th ult. by the steamer Oregon. The Oregon found 6 feet water on the enter bar at low tide, and when over the bar which was short, more. This is the first vessel that ever passed through this Inlet into Pamlico Sound. There is a good revolving light about 1½ miles south of the Inlet, on the north end of Boddy Island.

Raleigh Star.

*Yucatan.*—A letter from Vera Cruz, dated 9th ult. says: The town of Yzamal, about fifteen leagues from Merida, has lately been taken, and it is supposed that many hundred lives were lost. In one day, about a fortnight before the taking of Yzamal, 11,000 persons, mostly women and children, entered, fugitives from their dwellings, into the city of Merida, saving but their lives for a short time. Ticul, another large place near Merida, is likewise in the hands of the Indians, and these will soon surround Merida, a place with neither natural nor artificial defences. The prophecy of Chilam Balaam, an Indian sorcerer at the time of the conquest, that at the regeneration of the Indian race, they would wade ankle deep in the blood of their conquerors at the plaza of Merida, may become frightfully true, if no early and immediate aid is given to Merida. The town of Campeachy is going to be surrounded by Indians, who had appeared already in the neighborhood thereof. Merida is the point most exposed, containing, with fugitives, now about 60,000 persons, most of them unable to carry arms.
