TARBOROUGH:

SATURDAY, OCTOBER 21, 1848.

The Elections.

The elections for State officers have just terminated in Pennsylvania and Ohio. Partial returns have been received, which indicate that the whig candidates for Governor in both these States have been elected by small majorities, owing to local causes—the Democrats, however, appear to be sanguine of success in the Presidential election. We copy the following from the Petersburg Republican:

Michigan.—The Detroit Free Press says: "Whiggery mustered up courage a day or two ago, and one man shouted 'hurra' out right in the street. It was the only one we have heard for some days, and took our peaceful citizens so by surprise, that a police officer came near arresting the man, supposing him not in his right mind."

Michigan will give Lewis Cass a larger majority than she has ever given since she became a State.

Pennsylvania.—If the State has gone against us, says the Washington Union, by a majority of two thousand, in consequence of the local causes which have been made to operate in the gubernatorial election; this victory of the whig party, with the aid of nativeism, abolitionism, and all the isms which are known to the modern political vocabulary, is not so great but that it will be gloriously overcome by the indomitable spirit of the lion-hearted democracy of old democratic Pennsylvania, when fairly roused to put forth their giant strength on the 7th of next month. In the Keystone Commonwealth, the democratic party never faltered in a presidential contest, but in one solitary instance; and for that, substantial reasons can be assigned. She will, we hope and believe, fail not to redeem her high reputation, when called upon to vote for Lewis Cass and Wm. O. Butler.

Florida Election.—In regard to the recent election in this State, we find in the Union the following cheering news:

We are assured that the entire southern portion of Florida is decidedly democratic, and has always been so. The counties of Monroe, Dade, San Lucie, Hillsborough, Benton, and Orange, cannot be all fully heard for some days—perhaps not for eight days hence; and the democratic majorities in those counties will outbalance those claimed by the whigs in the other sections of the State. We are assured, further, that we have not lost a county in the west or middle or eastern sections from last year in the State legislature; and, on the contrary, have gained a small majority in the legislature. Mr. Cabell is probably elected over that true democrat, Gov. Duval; and this, if so, we concede, a whig victory to be regretted, but it is not certain.

—With a democratic governor and a democratic majority in the legislature, the virgin vote of the State of Florida will be bestowed on the democratic nominees, "Cass and Butler."—Local causes occasioned her in 1846 and 1847 to aberrate a little from the true path; but in 1848, her chariot wheels will be found with those of her sisters, Alabama and Georgia, running in the democratic track. Florida is not for the tariff of 1842; she is not for a federal national bank; she is not for an abolition of the veto power, and her citizens are not prepared as yet to be doomed by an abolition whiggery to ex-

clusion from the territories of the United States; to obtain which they have expended their blood and treasure in common with their fellow citizens of other sections of the Union.

From the Raleigh Standard.

☞ We learn from an editorial of the Greensboro' Patriot of the 30th ult. that a "Free Soil meeting was held at Cane Creek Cotton Factory, in Orange county, the 16th ult., at which the leading principles set forth in the Platform of the Buffalo Free Soil Convention, were avowed and adopted—a State Convention of the friends of said Platform, and of the election of Martin Van Buren and Charles F. Adams, called at Jamestown, (in Guilford county,) on the 14th of October, to form an Electoral Ticket, &c. and fifty delegates appointed by the chairman to said Convention."

From the Fayetteville Carolinian.

☞ The New York Sun tries to upset the news from California about the abundance of gold. It says a man has arrived in New York with fifteen pounds of the reputed gold, which turns out to be only a shining substance known as mica.

The Sun will find it difficult to make many persons believe that statement. Indeed, a communication in the Washington Union, stamps it with falsehood beyond doubt.

Southern Enterprise.—The Cheraw (S. C.) Gazette has the following: "That's right, speak out, though the truth cuts."

"The Southern States of this Union have as many natural resources of independence within their borders as any other section of the world of equal extent; and yet, if a shirt is wanted, the spindles and looms of other sections of the country are put in requisition. If a nail or hammer is wanted, the mechanics of other sections of the country are patronized. In fact we are dependant for almost everything on the enterprise and industry of others. This state of things must continue until capitalists cease feeling and acting like Box cooters."

From the Halifax Republican.

Mad Stone.—We are happy to learn, that Mr. Elijah Pope, Sr., of this County, whose residence is near Dawson's X Roads, has succeeded in procuring a Mad Stone, or Stone, that will cure any poisonous bite—either Mad Dog, Snake, or Spider. Mr. Pope, has been called upon several times to apply the Stone, since it has been in his possession, and has been successful in every case. Such as may be so unfortunate, as to be poisoned by the bite, or sting of any thing would do well to call on Mr. Pope, who takes great pleasure in applying the Stone.

As simple and strange as it may appear, it is nevertheless true, that the Stone will extract all poison, if it be applied in time. This Stone belonged to a Revolutionary Soldier—and afterwards fell into the hands of his only daughter, and then, into the hands of her daughter; from whom Mr. Pope procured it.

Effects of Passion.—A very distressing accident happened at Alexandria, Va., on Thursday. A lady named Patterson undertook to chastise her little son, but unfortunately struck him the first blow upon the temple, when he instantly fell dead. The mother has become entirely deranged.

☞ We understand, says the Augusta Constitutionalalist from passengers who arrived on Friday evening that Judge Cone had undergone his trial at Decatur. He plead guilty to the charges, and was sentenced to pay a fine of \$500.

☞ The Cincinnati Chronicle calculates that upwards of 500,000 hogs will be slaughtered in that city and vicinity during the coming "Pork Harvest."

A Melancholy Case.—Some time in July last a little daughter of Mrs. Williams, of Laporte, Sullivan Co. disappeared, and was lost in the wilderness in that county. On the 16th ult., some of the remains were accidentally found about a mile and a half north of Laporte. The clothes were identified by the mother.

Speed.—Recently, in England, on the Great Western Rail Road, seventy-seven miles were passed over by an express train in seventy-eight minutes twenty-nine seconds, including a stoppage of five minutes thirty-five seconds. Fifty-three miles of the journey were performed in forty-nine minutes thirteen seconds. The speed

in some cases was kept up at seventy-two, and seventy-seven miles an hour.

Wilmington market, Oct. 18.

Turpentine.—Since Tuesday morning several parcels of Turpentine have been brought to market and were disposed of at the following rates, viz: 113 bbls. Dipping at \$2 72 $\frac{1}{2}$ and 69 bbls. Dipping at \$2,72 per bbl., and 458 bbls. at \$2,70 per bbl. for Dipping and \$1,50 per bbl. for Hard. Market closing at this price.

Corn.—A fair supply—no late arrivals, price without change.

Bacon.—Market well supplied, except hams, of which there is only a moderate supply.

Lard.—A moderate supply of this article on hand.

Brandreth's Pills.

Let me assure all those who have not yet tried this Blessing of the Human Race, in no case can they do injury, because they are made of those herbs and roots which experience has fully proved always harmonize with the human body. The omission of purging with them in case of sickness, is often the cause of a long attack, often ending only by a cessation of life.

How important it is that this course should be pursued: it will not only be the surest way of restoring, but it will, in a great measure, prevent the recurrence of constitutional maladies—but will surely weaken the malignity of the attacks, and in time secure robust health.

Be exceedingly afraid of COUNTERFEIT PILLS. The Agent is the only person from whom Brandreth's Pills should be purchased.

For sale by **GEO. HOWARD.**

Dr. Wistar's Balsam of Wild Cherry.

We have not unfrequently called attention to this article in the columns of our paper, and we have done so with the full confidence that it was a good one, and deserving the patronage of the public. We have had a chance to witness its effects upon some of our friends, which, in addition to the high encomiums passed upon by our brethren of the press, not in paid puff, but in honest, candid statements, from having derived a benefit themselves, makes us desirous of advising all those who have occasion to resort to a remedy for pulmonary affections, to avail themselves of it. We have too much confidence in Mr. Fowie, the general agent, to believe he would thrust this, or any other medicine upon the community, unless he had full faith in its efficacy—in confirmation of which the proprietor offers a mass of testimony from the most unquestionable sources. Neither would we be understood as saying that this will always cure consumption after it is seated, although it seldom fails to relieve the worst cases—but at this season of the year almost every body is liable to a cold, which, if neglected, will lead to fatal results—by taking this medicine, we doubt not many lives may be saved. New England Washingtonian, Boston, Jan 2, 1847.

None genuine, unless signed I. BURTS on the wrapper.
For sale by Dr. A. H. Macnair, Agent for Tarboro', and by dealers in medicine generally.

Scrofula.—Jayne's Alternative has been prescribed in almost every variety of disease and with unparalleled success, especially in Cutaneous affections, Cancerous, Cancerous, Scrofulous and Scorbutic Diseases, Liver Complaint, Dyspepsia, and diseases originating from obstruction or enlargement of the Glands, or impurity of the Blood.

Mr. J. H. Anderson, Lambertville, N. J., says, I have used three bottles of your Alternative with most decided good effect.

Mr. J. F. Frazer, Sidney, Ohio, says, I have sold the last bottle of your Alternative, and the indications are, that it will sell very rapidly. It is highly spoken of by all who have used it.

Gowdy, Hazlewood, & Davis, Campbellville, Ky., say,—We wish you to send us two doz. of your Alternative, as we have run short of the article. We are curing a Cancer, and we want you to pack the Medicine immediately, and forward it on. Your medicines are taking well in this section.

Messrs. Thralls & Pottinger, Warsaw, Ia., say, April 3d, 1846—We are nearly out of your Alternative. It is a good medicine—Please send us more of it.

Fever and Ague—A Cure Warranted.
—From every part where Jayne's Ague

Pills have been used, we hear of their universal and entire success in subduing Fever and Ague.

Mr. George Stephens, a merchant at Marengo, Illinois, says, Your Ague Pills are making great cures here, and your Tonic Vermifuge and Carminative give good satisfaction. Messrs. Emmert & Strohn, Freeport, Illinois, say—We have sold all your Ague Pills, and most of the Vermifuge. Please send us on more immediately.

Thomas Cully, Esq., Hebron, Ohio, says, Your Medicines give universal satisfaction. Your Ague Pills have never failed to succeed.

Prepared only by Dr. D. JAYNE, Philadelphia, and sold on agency by **GEO. HOWARD.**
