## POETRY.

### WHAT I LOVES.

I loves the talk of laughing girls;  
I loves the smiles of widows;  
I loves the croaking of green frogs  
Among the marshy meadows.  
But, Oh! I loves them critters best  
Divided in the middle—  
When their hind parts are nicely cooked  
In butter on a griddle.

Well I does

I loves the lily and the rose,  
The laurel and the myrtle;  
But Oh! I loves by far  
A whopping big mud-turtle.  
I loves 'em when I notions take  
To live on fancy wittles;  
O how I'd love one big enough  
To fill a dozen kettles.

Well I would.

## MISCELLANY.

From the N. Y. Jour. of Commerce.

**A Strange Carriage.**—A new carriage has recently appeared on the State Road, in Ohio, between Canal Drovers and New Philadelphia, which is a novelty undoubtedly. The vehicle consists of a large wooden wheel, 14 feet in diameter and six feet wide. The horses are placed inside, and propel it along in the same manner that a caged squirrel makes its wheel to revolve. Slats are nailed on the inside floor of the wheel, by which the horses obtain foot hold. In the centre there is a small iron shaft, from which depend hangers which support four comfortable sofas for passengers; the wheel thus revolves freely, the seats remaining in equilibrium.

**An "Infernal Machine"**—Attempt to Destroy a Family.—During the absence of Mr. Warner, a lawyer of New York, on Thursday, a negro man left at his house for him a package addressed confidentially, which was fortunately laid aside until his return the next day, when his son, while the family were at dinner brought it to his father, who discovered it to be a small mahogany box with a slide lid. The Tribune says:

Mr. Warner proceeded to draw off the lid with great caution and very slowly, and discovered a faint blue light, and immediately warned his family to fly for their lives. All instantly left the room and closed the door; and they had but just passed into the hall leading into the rear yard, when a tremendous explosion took place; after which, they passed around the house and discovered the front basement to be on fire, and the windows shattered to pieces and blown out of place. Mr. Warner, with some persons who had stopped at the house, then entered the room and extinguished the flames; and as soon as the smoke had subsided, it was discovered that the basement door was completely shattered, the partition wall broken and very much displaced, the dining-table at which they were a few minutes before sitting very much broken, and a picture of General Washington and the door perforated with slug shots.—The box in question was about the size of a small cigar box, and contained a canister filled with powder and slugs, and several bundles of friction matches, which were so placed that on withdrawing the lid—on the inside of which a piece of sand paper was glued—they would instantly take fire, and cause an immediate explosion. Mr. Warner's caution in withdrawing the lid is the cause of the wonderful escape he and his family experienced.

**Bowel complaint, Colic, &c.**  
POSITIVELY CURED BY  
**Jayne's Carmine Balsam.**

Chicago, Ill., March 27, 1845.

Dr. D. JAYNE—Dear sir, You ask me what proofs I meet with of the efficacy of your Carmine. I can safely say that I never prescribed a medicine for Bowel complaints that has given me so much satisfaction, and my patients so speedy and perfect relief as this. Whenever introduced into a family, it becomes a standing remedy for those ailments, and is called for again and again, which I think a pretty good proof of its efficacy and usefulness. In the summer complaint of children, it has frequently appeared to snatch the little victims, as it were, from the grave. "It saved the life of my child, and of such and such a child," I have repeatedly heard said. In dysenteric affections of adults, I have time and again seen it act like a charm, and give permanent relief in a few hours, I may say in a few minutes. In fine it is a valuable medicine, and no family should be without it.

Respectfully,  
M. L. KNAPP, M. D.  
Professor of Materia Medica in the  
Laporte University, Indiana.

### A scientific Medicine.

GREAT experience and judgment are required to make a valuable, and at the same time, pleasant purgative. This is possessed only by few.

The great majority of the remedies advertised of this class are manufactured by persons who have no idea of the relative or individual powers of the drugs they use. It is this cause, more than any other, which occasions the inertness and often injurious effects, produced by advertised remedies. And hence the general prejudice which prevails against them. Now there is a great difference in this respect, with regard to the pills made by Dr. B. Brandreth, and consequently, their superior claims upon the public. Each of the articles composing the

### Brandreth Pills

Are prepared in that way which will secure their beneficial effects to the system in the safest and easiest manner. For instance, some ingredients have to be prepared in the vacuum; that is, the air is exhausted in the utensil, and remains so until a combination is effected with other ingredients, which afterwards prevents the air from acting injuriously upon the medicine. Again, the proportion of each ingredient depends upon its multiplying power upon other ingredients.—For the power of different vegetable purgatives upon each other is governed by similar laws that govern the power of figures by multiplication. Nine added to nine make eighteen; but nine times nine are eighty-one. So it is with some vegetable purgatives. By adding nine parts of one ingredient, and nine parts of another ingredient together, the power is increased, not to eighteen, but to eighty-one. For example, either of the articles to produce any purgative effect, would have to be used to the extent of eighty-one grains; by combining them, only eighteen grains have to be used. Again, another ingredient is found to multiply this power again, which in a proportion of two grains, would have no effect upon the animal economy, but which, added to eighteen grains of a compound of two parts of nine grains, each of two ingredients, will again multiply the power which they have gained of eighty-one, to one hundred and sixty-two. So again, the mixture of twenty grains can be again multiplied by an addition of two grains, to the power of three hundred and twenty-four grains of the original power of the two first ingredients. Here we have twenty-two grains, which as a purgative, contain the power equal to three hundred and twenty-four grains of either of the articles alone; nevertheless, also so powerful after being thus combined, are safe in any quantity—always having a beneficial effect, and in no case capable of doing injury, of which thousands bear ample witness.

Let those in any way out of health use these Pills, They will find it much to their advantage.

Beware of Counterfeits! the safest course is to buy of the regular agents only.

FOR the cure of Headache, Giddiness, Salt Rheum, Rheumatism, Piles, Heartburn, Worms, Dyspepsia, Cholera Morbus, Pains in the Back and Limbs, Liver complaint, Rising in the throat, Fevers of all kinds, colds, Gout, Gravel, Female Complaints, Nervous complaints, and all other diseases arising from impurities of the blood, and morbid secretions of the liver and Stomach.

Every disease to which the human frame is subject, originates from impurities of the blood or derangement of digestive organs.

Dr. Gordon's Family Pills, being compounded exclusively of such ingredients as nature intended should operate on the impurities of the Human System. Strike at the root of the disease, removing all impurities from the body, opening the pores externally and internally, separating all foreign and obnoxious particles from the chyle, so that the blood, of which it is the origin, must be thoroughly pure and necessarily securing a free and vigorous action to the Heart, Lungs, Liver and Stomach, thereby restoring health, by opening the pores, cleansing the veins and arteries, unimpeding all the natural veins and purifying the blood; they render the system not only thoroughly sound, but also impervious to disease, even when all other means have failed.

Within the last twelve months, more than one hundred cases of the most aggravated forms of Dyspepsia have been cured by the medicine, where rigid dieting, the Blue Pill, and almost every other means had been resorted to without any benefit, and when death stared its miserable victim fully in the face. If Dr. Gordon's Pills were not adapted to the cure of any but this horrid malady, their uniform success in this disease alone would be sufficient to 'waft on to fame' the name of their inventor, as a benefactor of his species. This medicine never fails to cure the worst cases of piles in one week!

### Dr. Kuhl's Abyssinian Mixture.

From the Milton Chronicle.

Laurel Grove, (near Milton) Jan. 15, 1848.

Dr. Kuhl—Dear Sir: We have now been about seven years. Agents for the sale of your Restorer of the Blood, and other Medicines, and are happy to state they have given in all cases general satisfaction, particularly the Abyssinian Mixture has given universal satisfaction, so that every one, who has used it has received that relief that you guaranteed in your directions. Mr. James M. Vernon, to whom you recommended your Aromatic Extract, for Rheumatism, bought a bottle of it at 50 Cents, and two embrocations cured him entirely, and the disease has never returned. Yours respectfully,

### Townsend's Sarsaparilla.

From the Wilmington Journal.

The following statistics which has been handed to us by Mr. Crandall, Messrs. Clapp & Townsend's travelling agent, will furnish the reading public some idea of the magnitude of their Sarsaparilla business at their manufactory which is erected at Albany, at an expense of seventy thousand dollars.

They prepare and put up 5,000 bottles every day; to perform this labor it requires from 70 to 100 hands. In order to supply the large quantity of bottles used, two of the largest glass establishments in the United States are kept in constant operation. This single item alone amounts to \$100,000 per annum. Three Napier steam printing presses, with a double set of hands each, are constantly running on Circulars and Almanacs. They published last year 4,000,000 for gratuitous circulation, containing a great variety of useful information, besides their own advertisements. It took 50 females six months to fold and stitch them. Their Almanacs cost \$30,000. Independent of all this, they publish a full column of their medicine matter in over 400 papers in the United States, British Colonies, West India Islands, and South America, where they have extensive sales: this costs them over \$80,000 per annum. They have a large number of men and boys engaged in collecting root and other ingredients. Indeed all the hands they employ directly and otherwise, in making glass, paper, corks, sealing wax, packing boxes, together with their agents in selling the medicine, cannot be less than 2,000 persons. The amount of capital employed to keep all the Agents supplied, and their whole business in successful operation, is not less than 500,000 dollars.

It would seem that a medicine which has gained such a high reputation, and such unprecedented sales, swelling to the enormous sum of \$800,000 a year, must possess, in and of itself, intrinsic medicinal virtues for the cure of many diseases to which the human flesh is heir to.

### Dr. Wistar's Balsam of Wild Cherry.

From the Maine Democrat, (Saco) June 22, 1847.

Wistar's Balsam.—A few days ago, Mr. Elijah Witham, of Sanford, in our county, being in our office, requested us to publish, for the benefit of the public, his testimony in favor of

### Wistar's Balsam of wild Cherry

In the fall of 1846, Mr. W. was attacked with a very bad cold, which continued to grow worse till March, when he was confined to the house, with little hope of recovery. Hearing of

### Wistar's Balsam of wild Cherry

he resolved to try it. He soon found relief—and after taking four bottles, was able to go out and attend to business. He ascribes his cure entirely to the Balsam, and recommends those who use it to persevere, even if they do not at once perceive any beneficial result. We are not in the habit of writing puffs for medicines, and only give this at the request of Mr. W.

## The Popular Encyclopedia,

OF MODERN DOMESTIC MEDICINE.

BY KEITH IMRAY, M. D.

Fellow of the Royal College of Physicians and Licentiate of the Royal College of Surgeons, Edinburgh.

THIS work gives a clear and concise idea of the nature of the distinctive symptoms, of the premonitory signs of diseases, of their predisposing causes, and the methods of their treatment recommended by the most distinguished physicians.

The best modes of employing the medicines in general use are faithfully described; as are also the diet and regimen necessary under various diseases, and during convalescence.

Diet, Atmosphere, Temperature, Bathing, Climate, Clothing and Exercises are specially treated upon.

The publishers of the American Edition prefix to Dr. Imray's work, short illustrated, and very valuable Treatises upon Anatomy, Physiology and Surgery; also Directions for the Treatment of the Sick, Management of the Sick Room, Preparation of Food for the Sick, &c. &c.

Many valuable articles have been furnished by the courtesy of medical gentlemen of the United States.

The entire volume, with its full Index, Tables of Doses, &c., will prove, it is confidently believed, a most valuable book for Family use.

The work will be completed in twelve weekly numbers, forming one large 8vo, volume of about 1000 pages.

### The Press, Types and Fixtures

OF THE

Warrenton (N. C.) Reporter

OFFICE FOR SALE.

HAVING determined on quitting the Printing Business, we now propose selling our Printing Press, Types and Fixtures, at a very low price for cash, or on a short credit for a part of the purchase money, with bond and approved security.

The Press and a part of the Type are considerably worn, but will do pretty fair work for two or three years to come. The Job and Advertising Type are in better condition and will last many years. The Cases, Stands and other fixtures are very good. There is a sufficiency of type of all kinds for a village establishment. Warrenton is a desirable place to reside in, being remarkably healthy, and has a good society as any village in the State. We have been engaged in the publication of the Reporter for 21 years, and have been tolerably well sustained. We will sell at a price so low, that any one wishing to engage in the business would do well to call and see us, or address the Editor, post paid, Warrenton, N. C.
