Court Orders and Judicial advertisements 25 per cent. higher.

To the Ladies of the U. States

IT BEING NOW CONCEDED THAT

Godey's Lady's Book

STANDS at the head of American Magazines, it becomes the duty of the publisher to show every Lady what amount of reading, and how many useful embellishments she will receive for three dollars.

Be not deceived by new beginners, who promise every thing and perform nothing. Now is about the season when the country will be deluged by prospectuses—making all kinds of promises. The Lady's Book has been published by the present proprietor for eighteen years—and he is well known to the public, and publishers throughout the United States. His promises are always kept, which is not the case with all other Magazines: for instance every Number he publishes a colored Fashion plate, gives sixty pages of reading matter, and sometimes more. There is not another Magazine published that does this. Sometimes with them the plates are colored, and again they are not—some months 60 pages and others 48. The result is obvious: the coloring of our Fashion plates alone, we say nothing of the Flowers and Cottages, cost us over \$2000 in one year.

To omit this is certainly a saving, but is it just to subscribers—Is it honorable? We cannot practice such a deception. We were the first to give Fashion plates; we have hosts of imitators who boast wonderfully; we have no need to bolster up the Lady's Own Book by such means. Paris Fashions as published in Paris the ladies of this country dare not wear. Therefore they are altered by one of our most fashionable dress makers to suit the more refined taste of American Ladies.

Compare our reading matter with any other Magazine; see which contains the most solid as well as pleasant reading. Our object is to elevate the female mind, to give tone, and to enable women to take that place in the community to which their worth entitles them.

Steel engravings in Godey's Lady's Book.

Two steel engravings in each number in one year, 24 one colored Fashion plate, 12 two pages of originally music printed separately, 24 Patterns for window curtains, and occasionally.

A Colored Plate for Model Cottages, Model Cottages exterior and interior two engravings in each Number in one year, 21 extra Fashion plate on tinted paper one in each Number in one year, 12 Bonnet, Chemisette, Caps and Cuff patterns, say 50 three and four cuts of horsemanship for ladies in each Number in one year, 42 Crochet work, Knitting, Netting, &c., say three in each Number in one year, 36 Engravings of churches—about four in one year

Here we have in one year the large number of two hundred and twenty-eight engravings, besides extras that we give occasionally of any matter that strikes us. Reading matter in Godey's Lady's Book.

In each Number are sixty pages; in one year, seven hundred and twenty, equal to nine novels of ordinary size. Now these pages are the choice productions of the best male and female writers of the country, including a novel by Miss Leslie as well as the Treasury, and articles on health, by Mr. Hale. The above items, if purchased separately, would cost the purchaser twenty dollars. Besides all this, she will receive for the same three dollars

The Lady's Dollar Newspaper Edited by Grace Greenwood.

A Paper of the ordinary size, Published at one dollar per year:

Making three publications in one month. The Lady's Dollar Newspaper contains the best poetry and the best stories, by the best authors. Receipts and Amusements—the latest Fashionable news from

London and Paris, and a great variety of other interesting matter.

No other Magazine in the world gives so much that is good for so small a sum of money;—One hundred and forty four more pages in a year than the New York Magazines, and more useful and ornamental engravings each month than all the other Magazines together.

Terms of Godey's Lady's Book. Postage to be paid on all orders, 1 copy one month—any number that may be selected, 25 cts. 1 copy four months, one dollar. These terms are offered that any person may try the work before subscribing for a Lady's Dollar Newspaper, \$3, two copies one year with the paper to each, \$8, three copies and a copy without the paper, \$6; five copies and a copy to the club \$10.

To insure the Lady's Dollar paper with the Lady's Book, the money must be sent to the publisher's own office.

Any paper copying the above advertisement will be entitled to an exchange with both publications.

A scientific Medicine.

GREAT experience and judgment are required to make a valuable, and at the same time, innocent purgative. This is possessed only by few.

The great majority of the remedies advertised of this class are manufactured by persons who have no idea of the relative or individual powers of the drugs they use. It is this cause, more than any other, which occasions the inertness and often injurious effects, produced by advertised remedies. And hence the general prejudice which prevails against them. Now there is a great difference in this respect, with regard to the pills made by Dr. B. Brandreth, and consequently, their superior claims upon the public. Each of the articles composing the

Brandreth Pills

Are prepared in that way which will secure their beneficial effects to the system in the safest and easiest manner. For instance, some ingredients have to be prepared in the vacuo; that is, the air exhausted in the utensil, and remains so until a combination is effected with other ingredients, which afterwards prevents the air from acting injuriously upon the medicine. Again, the proportion of each ingredient depends upon its multiplying power upon other ingredients—For the power of different vegetable purgatives upon each other is governed by similar laws that govern the power of figures by multiplication. Nine added to nine make eighteen; but nine times nine are eighty-one. So it is with some vegetable purgatives. By adding nine parts of one ingredient, and nine parts of another ingredient together, the power is increased, not to eighteen, but to eighty-one. For example, either of the articles to produce any purgative effect, would have to be used to the extent of eighty-one grains; by combining them, only eighteen grains have to be used. Again, another ingredient is added to multiply this power again, which in a proportion of two grains, would have no effect upon the animal economy, but which, added to eighteen grains of a compound of two parts of nine grains, each of two ingredients, will again multiply the power which they have gained of eighty-one, to one hundred and sixty-two. So again, the mixture of twenty grains can be again multiplied by an addition of two grains, to the power of three hundred and twenty-four grains of the original power of the two first ingredients. Here we have twenty-two grains, which as a purgative, contain the power equal to three hundred and twenty-four grains of either of the articles alone; nevertheless, also so powerful after being thus combined, are safe in any quantity—always having a beneficial effect, and in no case capable of doing injury, of which thousands bear ample witness.

Let those in any way out of health use these Pills. They will find it much to their advantage.

CABINET FURNITURE.

FROM the IMMENSE INCREASE of our business, we have been under the necessity of taking the whole up-story over L. Pender's Store, at the sign of

AN IMMENSE Stock of Furniture,

Consisting of the same articles which will be seen advertised at the Old Stand. Persons that have not had an opportunity of seeing a magnificent stock of furniture, are respectfully solicited to call, as prices and quality shall surely suit. Furniture repaired at either place at the shortest notice.

F. L. BOND.

N. B. In order that a man may do himself justice, let him see articles of Furniture before purchasing. No body likes to buy a cat in a bag. Tarboro', Sept. 29, 1848.

Only 25 cents per box.

FOR the cure of Headache, Giddiness, Salt Rheum, Rheumatism, Piles, Heartburn, Worms, Dyspepsia, Cholera Morbus, Pains in the Back and Limbs, Liver complaint, Rising in the throat, Fevers of all kinds, colds, Gout, Gravel, Female Complaints, Nervous complaints, and all other diseases arising from impurities of the blood, and morbid secretions of the liver and Stomach.

Every disease to which the human frame is subject, originates from impurities of the blood or derangement of digestive organs.

Dr. Gordon's Family Pills, being compounded exclusively of such ingredients as nature intended should operate on the impurities of the Human System. Strike at the root of the disease, removing all impurities from the body, opening the pores externally and internally, separating all foreign and obnoxious particles from the chyle, so that the blood, of which it is the origin, must be thoroughly pure and necessarily securing a free and vigorous action to the Heart, Lungs, Liver and Stomach, thereby restoring health, by opening the pores, cleansing the veins and arteries, unimpeding all the natural veins and purifying the blood; they render the system not only thoroughly sound, but also impervious to disease, even when all other means have failed.

Within the last twelve months, more than one hundred cases of the most aggravated forms of Dyspepsia have been cured by the medicine, where rigid dieting, the Blue Pill, and almost every other means had been resorted to without any benefit, and when death stared its miserable victim fully in the face. If Dr. Gordon's Pills were not adapted to the cure of any but this horrid malady, their uniform success in this disease alone would be sufficient to 'waft on to fame' the name of their inventor, as a benefactor of his species. This medicine never fails to cure the worst cases of piles in one week!

Dr. Kuhl's Abyssinian Mixture.

From the Milton Chronicle.

Laurel Grove, (near Milton) Jan. 15, 1848. Dr. Kuhl—Dear Sir:

We have now been about seven years, Agents for the sale of your Restorer of the Blood, and other Medicines, and are happy to state they have given in all cases general satisfaction, particularly the Abyssinian Mixture has given universal satisfaction, so that every one, who has used it, has received that relief that you guaranteed in your directions. Mr. James M. Vernon, to whom you recommended your Aromatic Extract, for Rheumatism, bought a bottle of it at 50 Cents, and two embrocations cured him entirely, and the disease has never returned. Yours, respectfully,

Townsend's Sarsaparilla.

From the Wilmington Journal.

The following statistics which has been handed to us by Mr. Crandall, Messrs. Clapp & Townsend's travelling agent, will furnish the reading public some idea of the magnitude of their Sarsaparilla business at their manufactory which is erected at Albany, at an expense of seventy thousand dollars.

They prepare and put up 5,000 bottles every day; to perform this labor it requires from 70 to 100 hands. In order to supply the United States are kept in constant operation. This single item alone amounts to \$100,000 per annum. Three Napier steam printing presses, with a double set of hands each, are constantly running on Circulars and Almanacs. They published last year 4,000,000 for gratuitous circulation, containing a great variety of useful information, besides their own advertisements. It took 50 females six months to fold and stitch them. Their Almanacs cost \$30,000. Independent of all this, they publish a full column of their medicine matter in over 400 papers in the United States, British Colonies, West India Islands, and South America, where they have extensive sales: this costs them over \$80,000 per annum. They have a large number of men and boys engaged in collecting root and other ingredients. Indeed all the hands they employ directly and otherwise, in making glass, paper, corks, sealing wax, packing boxes, together with their agents in selling the medicine, cannot be less than 2,000 persons. The amount of capital employed to keep all the Agents supplied, and their whole business in successful operation, is not less than 500,000 dollars.

It would seem that a medicine which has gained such a high reputation, and such unprecedented sales, swelling to the enormous sum of \$800,000 a year, must possess, in and of itself, intrinsic medicinal virtues for the cure of many diseases to which the human flesh is heir to.

Dr. Wistar's Balsam of Wild Cherry.

From the Maine Democrat, (Saco,) June 22, 1847.

Wistar's Balsam.—A few days ago, Mr. Elijah Witham, of Sanford, in our county, being in our office, requested us to publish, for the benefit of the public, his testimony in favor of

Wistar's Balsam of wild Cherry

In the fall of 1846, Mr. W. was attacked with a very bad cold, which continued to grow worse till March, when he was confined to the house, with little hope of recovery. Hearing of

Wistar's Balsam of wild Cherry

he resolved to try it. He soon found relief—and after taking four bottles, was able to go out and attend to business. He ascribes his cure entirely to the Balsam, and recommends those who use it to persevere, even if they do not at once perceive any beneficial result. We are not in the habit of writing puffs for medicines, and only give this at the request of Mr. W.

The Popular Cyclopaedia,

OF MODERN DOMESTIC MEDICINE,

BY KEITH IMRAY, M. D.

Fellow of the Royal College of Physicians and Licentiate of the Royal College of Surgeons, Edinburgh.

THIS work gives a clear and concise idea of the nature of the distinctive symptoms, of the premonitory signs of diseases, by the most distinguished physicians.

The best modes of employing the medicines in general use are faithfully described; as are also the diet and regimen necessary under various diseases, and during convalescence.

Diet, Atmosphere, Temperature, Bathing, Climate, Clothing and Exercises are specially treated upon.

The publishers of the American Edition prefix to Dr. Imray's work, short illustrated, and very valuable Treatises upon Anatomy, Physiology and Surgery; also Directions for the Treatment of the Sick, Management of the Sick Room, Preparation of Food for the Sick, &c. &c.

Many valuable articles have been furnished by the courtesy of medical gentlemen of the United States.

The entire volume, with its full Index, Tables of Doses, &c., will prove, it is confidently believed, a most valuable book for Family use.

The work will be completed in twelve weekly numbers, forming one large 8vo, volume of about 1000 pages.

The Press, Types and Fixtures

OF THE

Warrenton (N. C.) Reporter

OFFICE FOR SALE.

HAVING determined on quitting the Printing Business, we now propose selling our Printing Press, Types and Fixtures, at a very low price for cash, or on a short credit for a part of the purchase money, with bond and approved security.

The Press and a part of the Type are considerably worn, but will do pretty fair work for two or three years to come. The Job and Advertising Type are in better condition, and will last many years. The Cases, Stands and other fixtures are very good. There is a sufficiency of type of all kinds for a village establishment. Warrenton is a desirable place to reside in, being remarkably healthy, and has as good society as any village in the State. We have been engaged in the publication of the Reporter for 21 years, and have been tolerably well sustained. We will sell at a price so low, that any one wishing to engage in the business would do well to call and see us, or address the Editor, post paid, Warrenton, N. C.
