**PROSPECTUS OF**

**THE AURORA,**

WILMINGTON, NORTH CAROLINA,

—

"Nullius in verba jurare in verba magistri."

*Quo me cunque rapit tempestas, deferar hospes."*

The subscriber designs to commence about the 1st of Nov. next, in the town of Wilmington, North Carolina, the publication of a *Semi-weekly* Newspaper, to be called the *Aurora*.

His aim is to create a paper worthy of the growing fortunes of that enterprising community. The plan differs materially from that of any now published there, or even in the State. First:—It will be more literary in its character. Secondly:—Owing no allegiance to any party or sect of politicians, its political discussions will be impartial and candid.

The subscriber ventures to presume that his political opinions are sufficiently known to render any declaration of them unnecessary. Having advocated the election of General Taylor to the Presidency, he is disposed to give to his administration a fair trial; commending when he can, but censuring when he must.

The commercial department of the *Aurora* will be attended to by some gentleman more competent in that line than the subscriber.

The *Aurora* will be printed with a press and types entirely new, and in the neatest manner. Its size will be about that of the *Daily New York Herald*.

Terms: Four Dollars a year, or two dollars for six months. Subscriptions will be due one month after the issue of the first number.

Postmasters sending eight subscribers, whose responsibility they will guarantee, will receive the *Aurora* one year gratis.

All communications should be addressed to the subscriber at Pictolus Post Office, Pitt county, North Carolina, until the first of October next: after that date at Wilmington. **HENRY I. TOOLE.**

RANAWAY from my farm, one mile south of Raleigh, about the 1st June my man SIMON, about 23 years of age, black complexioned, weighing about 180 pounds, thick lips, and very knock-kneed, one leg more than the other, as well as recollects. He is a man of great muscular power—he is believed to be in Edgecombe county, where he was brought from when quite young by Mr. Jones, who married in the Ricks family, near the Falls of Tar river. He is believed to have a pass with him, (forged.) I will give the above reward for his delivery to me, or **Fifteen Dollars** if confined in jail so that I get him again.

**To Farmers and Dairymen.**

**Anthony & Emerson's Patent double acting rotary CHURN,**

PECULIARLY adapted to Warm Climates, as it produces butter as easily from sweet milk as from cream. In bringing this effectual and simple churn into use, the proprietors, feeling confidence in its capabilities, do not hesitate to pronounce it the best churn ever offered to the public. This Churn is on exhibition at the Agency, No. 22, John street,

second story, corner of Broadway, New York city.

And in order to convince the incredulous and satisfy the curious, at TWELVE O'CLOCK DAILY,

*A churning will be made.*

The public are invited to call and examine the machine, and see its utility tested. It combines the following valuable qualities:

- 1st. It produces butter in less time than any other Churn, making it and gathering it from sweet milk in from three to eight minutes and from cream in much less time.
- 2d. It produces more butter from the same amount of milk or cream, than the ordinary method, as it does its work in a more thorough and scientific manner.
- 3d. It is the cheapest and most convenient Churn ever invented, involving the true philosophical principles of butter making.
- 4th. New milk, after being churned, is sweet and suitable for family use.
- 5th. Instead of feeding the calf with milk direct from the cow—churned sweet milk will answer every purpose. By this means the butter is all profit.

We offer it upon the following terms: If the Churn does not prove as recommended, it may be returned and the money will be refunded.

Exclusive county rights to manufacture and sell in the States of North and South Carolina, Georgia and Florida, for sale at about the rate of one hundred dollars for each 10,000 inhabitants.

We have constantly on hand and for sale, six different sizes, \$3, \$4, \$5, \$6, \$9, and \$12, capable of churning at one time 12, 24, 36, 48, 60, 72, 84, 96, and 108 gallons of milk or cream. Also, churns of any size made to order.

Terms, Cash. A discount of 25 per cent. allowed to the trade.

All orders, *postage paid*, addressed to the subscriber, will be promptly attended to. **T. DOUGLASS, Agent,** No. 2 John street, corner of Broadway, N. Y.

**MITCHELL'S**

**EYE SALVE.**

To the Public.

THE concurrent testimony of men of integrity and worth is the best evidence we can have of any fact or which we have no cognizance ourselves. The great advantages possessed by this article over every other, are—ITS CERTAINTY, SAFETY, CONVENIENCE and ECONOMY. All physicians admit that great danger is to be apprehended from dragging the eye when in an inflamed and unhealthy state. In the use of this salve this objection is entirely removed, as no harm can possibly result from its use; it being in all cases applied to the EXTERNAL portions of the eye, thereby avoiding all the inconvenience, pain and danger, which necessarily attend the introduction of any pungent article INTO the eye. Its activity in subduing inflammation is so great that but few cases require the use of more than one bottle to effect a perfect cure. One physician remarked to us, after having witnessed its effects in several instances, that it was a "PERFECT FIRE KILLER." We might multiply reasons why this salve should be preferred above every thing else in the treatment of diseases of the eye, but we prefer it should stand on its own merits. All we ask is that its virtues be thoroughly tested, and that the directions be strictly followed.

Every bottle of the genuine salve has the name **MITCHELL'S EYE SALVE,** blown in the sides of the bottle, and the written signature of the proprietor, **D. MITCHELL,** on the outside wrapper. **D. MITCHELL,** Perry, Wyoming county, N. Y.

**THE PATENT**

**MEDICATED INDIA RUBBER**

**Porous Plaster**

FOR RHEUMATISM, LUMBAGO, GOUT, &c.

IN all cases where it is the right advisable to keep up permanent stimulant impressions on or near the organ diseased, these plasters will be found highly valuable. In fact, all the benefit that can accrue from a continuous counter-irritant, will be produced in the most efficient manner by them. As in rheumatism, gout, enlargement of the joints, chronic disease of the liver, spleen, lungs, or other internal organs, in short, in all other cases where warming or strengthening plasters are beneficial, these will be found to be superior to any now in use.
