### THE GLOBE.

A Congressional, Agricultural, and Literary Newspaper.

The undersigned submits to the public his proposals for the GLOBE and its reports for the next session of Congress. Congress has now so liberally patronized the undertaking that it will be established as a standard work worthy of its official imprimatur, unless the undersigned fails in his duty. This will not be the case if earnest effort can avail. The GLOBE is the only paper that will furnish full reports of the proceedings and debates of the two Houses of Congress; and having received their sanction as such, the best Reporters will be engaged to write out the debates of each day, which will undergo the revision of the Members. The work, after passing through the DAILY GLOBE and receiving correction will be presented, as finished, in the CONGRESSIONAL GLOBE and APPENDIX.

The debates will probably increase in interest during the next session. The one subject which engrossed the last, will doubtless give way to others of great variety which, in this progressive country, the conflicts of party and the ambition for place and distinction, necessarily produce. Vast interests will be at stake upon the decisions of the next Congress; which will be evoked in their discussion. All the honors of the Republic, dependent on the succession to the Presidency, as well as all the great and permanent interests which go to the advancement of the power of the country, will give impulse, to the action of the next session of Congress.

The DAILY GLOBE will be published daily during the session of Congress, and weekly the remainder of the year. It will contain full and faithful reports of the proceedings of both Houses of Congress; and miscellaneous articles on those general subjects to which it is devoted.

The WEEKLY GLOBE will contain Agricultural and miscellaneous articles; and will occasionally give debates of such importance as command universal interest.

The price of the WEEKLY GLOBE is reduced to one dollar, with a view to obtain a more general circulation.

The CONGRESSIONAL GLOBE will embody, as it has done for the last seventeen years, Congressional proceedings and debates exclusively.

The APPENDIX will embrace the revised speeches separately, and the messages of the President of the United States and the reports of the Heads of the Executive Departments.

The CONGRESSIONAL GLOBE and APPENDIX will be published as fast as the proceedings of Congress will make a number. Subscribers may expect one number of each a week during the first four weeks of a session, and two or three numbers of each a week afterwards, until the end of the session.

Complete indexes to the CONGRESSIONAL GLOBE and APPENDIX will be sent to subscribers soon after Congress adjourns.

Nothing of a political party aspect will appear in the GLOBE save that which will be found in the Congressional reports. A paper assuming to be an impartial vehicle for all sides, cannot maintain its character if the editorial columns reflect a party hue.

### TERMS.

For one copy of the DAILY GLOBE (daily during the session of Congress, and weekly during the recess) a year. \$5 00

For the DAILY GLOBE for less than a year, at the rate of 84 cents a month.

For one copy of the WEEKLY GLOBE for one year. 1 00

For one copy of the CONGRESSIONAL GLOBE during the session 1 50

For one copy of the APPENDIX during the session 1 50

For four copies of either, or part of both during the session 5 00

For ten copies of either, or part of both during the session 10 00

The prices for these papers are so low, that advance payments are indispensable to carry them on, and no order will be attended to unless the money accompanies it.

Subscriptions may be remitted by mail, at our risk, in money at par in the section of the country where subscribers reside.

The CONGRESSIONAL GLOBE and APPENDIX, or the DAILY GLOBE, as they may elect, will be sent to all editors who may publish the Prospectus as often as three times before the first Monday in December, and send us one copy of their paper containing it distinctly marked around with a pen to direct our attention to it.

JOHN C RIVES.

WASHINGTON CITY, Oct. 15, 1850.

From the Raleigh Standard.

Sketches of North Carolina.

BEATIE'S FORD, Lincoln Co., N. C. }  
October 25, 1850. }

A WORK will be published by the undersigned this Spring, entitled as above, giving an accurate account of each County in our State, in Alphabetical order, the derivation of its name, date of formation, its Colonial and Revolutionary History, a Biography of its distinguished citizens; an accurate list of its representation in each branch of the General Assembly, its Towns, Rivers, Population, Resources, Products, and Topography.

The undersigned has for many years been collecting and condensing the material for this work. The archives of our State have been carefully examined, and copious extracts made from its records. He has procured from the offices of the Board of Trade and Plantations in London many valuable documents. Rare and valuable works have been purchased from abroad, touching the early history of our State, and Country, which have never seen the light. He has been kindly aided by gentlemen in different sections by copies of original documents, and faithful traditional statements, highly important and interesting.

He does not aspire to the position of the Historian, but hopes from records and statistical facts to afford materials to other and abler hands for this pleasing and less laborious duty. This work, it is hoped, will be useful as a book of reference to the statesman and scholar, and man of business or leisure. Occasional extracts have been published in the Standard and other papers of this State, over the signature of "Facitus."

The History of North Carolina is yet to be written. The remark which one of the ablest Historians of the age, (Baneroff,) has been compelled to make, that "so carelessly has the History of North Carolina been written that the name, and merits and end of the first Governor is not known," is a reflection upon us. An examination of the early history of the Counties of North Carolina shows a record of the purest patriotism and indomitable courage. This record is now covered by the dust of age, and unknown by neglect. It is a debt which the present generation owes to the past as well as the future to preserve these memorials; for it often occurs in the history of our race, that facts known to one generation are controverted by the next, and at a succeeding period are considered as doubtful legends, unworthy of historical faith. Our Mecklenburg Declaration of Independence, in May, 1775, had almost been an illustration of this truth.

"These are deeds which should not pass away,

And names that must not wither; though  
The earth

Forgets her empires with a just decay,  
The enslavers and the enslaved, their  
death and birth."

This work will be illustrated with a Map of the State, from latest surveys, and including the new Counties to this date, and sketches in Engravings of some of her beautiful scenery. It will contain about 500 pages, and be furnished at one dollar a copy. Subscriptions will be re-

ceived and the book furnished at different points of the State.

JNO. H. WHEELER.

P. S. Editors of the different Presses in the State are requested to copy the above. The Press will receive in this work a sketch worthy of its influence and importance. Those Editors who publish the above four successive times, and send a copy of the paper containing the same, will be entitled to receive a copy of the work as a return for such notice.

J. H. W.

The Southerner.

The undersigned propose to publish a weekly newspaper in the town of Greenville of the above name, to be issued as soon as a sufficient number of subscribers can be obtained to warrant the enterprise. We would warn the public against being alarmed by our name, as it is not intended to indicate any alliance with disunion or secession. We are for the Constitution and the Union, but we think that it is high time for the South to be increasing in attachment for home, and looking more to home interests, and particularly that we here, should be zealously regarding the interests and concerns of our own North Carolina. The past and present teach us the lesson to rely upon ourselves, to sustain and foster our home industry and energy, and provide for our comforts and wants as much as we can within our own borders. It is from this consideration that we intend to make the "SOUTHERNER" an out-and-out North Carolina paper, and to devote ourselves in its columns chiefly to the subject of improvement in the old North State, improvement in her agriculture, manufactures, facilities for transportation and markets, (particularly by means of plank-roads,) in her education, and in all other means by which her vast resources may become more fully developed.

In politics, the "SOUTHERNER" will be firmly and decidedly Whig, but opposed to every sort of Northern fanaticism, including abolitionism, free soilism, ultraism, Millerism, Mormonism, Fourierism and the whole family of such abstract Yankeeisms.

We shall also give to the public the latest local and general news, which the growing prosperity of Greenville and this section of our State, we think will make interesting to a numerous class of readers.

The "SOUTHERNER" will be nearly or quite as large as the "North State Whig" and published at the very low price of \$2,00 a year if paid in advance, or within one month after the first issue, \$2,50 if paid within six months and \$3,00 if paid at the end of the year.

Let every true "Southerner" and friend of the "Old North" stand by us, for we are determined to give them a paper worthy of our native State.

F. H. HAWKS,  
JAMES JOYNER.

November 1st, 1850.

Our friends will oblige us, to obtain all the subscribers they can, and return their lists to us at Washington, by the 1st of January next.

Cure for Ague and Fever.—The following very simple remedy for this disease has been communicated to the Mobile Advertiser. If efficacious it may have some influence upon the value of Quinine. At any rate it is worth the experiment of a trial.

Mr. Editor—Let me communicate to the public, through the columns of your paper, a very simple but a very certain cure for Chills and Fever:

The first chill is generally very light, and one is apt to suppose it will end there. The second one comes on the same hour, say the second day after. The exact time is then known when the third may be expected, and the patient has his case completely under his own control. In anticipation of the third chill, about half an hour or twenty minutes before, apply a strong mustard plaster, six by eighteen inches, up and down the small of the back. This creates a reaction throughout the system and the chill time passes harmlessly by.

In order to facilitate and make more certain the cure, it would be better for the patient to take a dose of purgative pills al-

lowing sufficient time for the effects to pass off before the chill time. This simple and certain mode of curing chills and fever need only be tried to convince one of its efficacy, and of the folly of stuffing people to death with drugs. J. M. B.

California.—Twenty days later intelligence from California is brought by the Empire City. Another awful conflagration has desolated San Francisco, and destroyed property to the amount of one million of dollars. Among other losses, the entire office of the "Pacific News" is destroyed. Three hundred buildings were consumed. Accounts from the plains are discouraging. Starvation and Cholera are sweeping away the people.

Pork Business in the West.—The pork business in Aurora, Indiana, says the Western Commercial of the 24th. will be prosecuted more largely than at any previous season—one house contracted for nine thousand hogs.

The St. Louis Republican of the 21st notices the arrival there, from the Illinois river, of 1,499 lbs of pork, and says it is probable the last shipment from that river this season, and probably a larger amount than will be received from any quarter until the new article makes its appearance. This pork was on its way to New Orleans and Eastern markets.

The number of hogs collecting in Cincinnati is immense. The great crop of corn this season is very favorable to the supply of pork, which will be very large.

From the Goldsboro' Patriot.

Accident—A man named Thornton was killed on the Rail Road last Friday by the Cars running over him. His mutilated body presented its said a horrid spectacle. One foot and about half of his head was entirely severed from his body.

At the time of the accident he was lying with his body between two rails with his head and one foot upon the rails. It is supposed that he had placed himself there intentionally, having previously disposed of his watch and other articles remarking, to the doones that they would never see him again. Such is the rumor.

Collision.—Two of the Engines on the Rail Road ran together on last Friday night doing serious injury to them both. There was at the time a dense fog, and we have not learned that any blame has been attached to the Engineers.—ib.

The guillotine again in motion. G. G. Lynch mail agent on the Wilmington and Raleigh Rail Road has been discharged by H. Fitzwarren for "opinion's sake"—he is a sterling, but unobtruding democrat.—ib.

The Slave case in Boston shows us that practical nullification exists in that city already. The act of Congress is virtually nullified.

Not only is the slave refused to be delivered up, but the claimant is put under \$10,000 bonds in a slander suit, for calling the slave a slave.

It is evident that Boston cannot long nullify the laws without reciprocal nullification elsewhere. If the Constitution and laws cannot be enforced in Boston, they cannot be enforced out of Boston for the benefit of Boston.—N. Y. Express.

The Louisiana Courier asserts the "startling fact" that if the question of the abolition of slavery in the State of Louisiana, were submitted to the citizens of New Orleans, they would vote its abolition! The Courier attributes this to the preponderating influence of the infinite number of "Yankee residents in the city."

The Reported Proclamation.—The Republic notices the report that the President sent a communication to the Marshall at Boston, in relation to the fugitive law, and had ordered troops to be concentrated at that city, and we regret to see, contradicts them both. It says, "the President has received no communication from any marshal, and has no information that leads him to believe that any peculiar disposition of the military force will be rendered necessary for the execution of the laws."
