

TARBOROUGH:

SATURDAY, SEPT 6, 1851.

A Rumor of Insurrection in Stanly's District.

The people of Pitt county have been much excited the past week with a rumor of insurrection. Several negroes, supposed to be engaged in concocting such schemes, have been arrested—some punished and turned loose, and others now in prison.

It was recently heralded forth that Mr. Stanly had been re-elected from the largest slave-holding district in the State. Now it is heralded there is an insurrection on foot there.

Mr. Stanly proclaimed on the stump in his electioneering tour that Slavery was an evil. Whether this insurrection is an evidence of its being an evil, or the result of proclaiming such doctrines, is a question of fearful responsibility.

Abolition Meeting—The Wilmington Commercial gives the particulars of an abolition meeting held in Guilford on Saturday 2nd inst., which seems rather a strange incident to occur in the interior of a slave State. It seems that it had been reported that Crooks, concerning whom considerable excitement has existed in Guilford heretofore, with his associate Bacon, were to hold forth at a certain place, which report brought together a bout four hundred persons, one-third of whom were abolitionists. Both parties were armed, prepared for the worst. A company of the fanatics appeared on the ground armed and equipt but were disbanded at the order of Gen. Simpson.

The People's Press, in remarking upon these proceedings says:

"Several gentlemen addressed the company in opposition to the course the Abolitionists are pursuing, and extracts were read from the Annual Report of the Abolition Society of the North, in which the names of Crooks, McBride and Bacon appear as emissaries sent out to Virginia and North Carolina, to labor in the cause of abolition, stating, we believe, that they had been instrumental in 'running off' near one hundred slaves in the above named States, during the past year."

From the Raleigh Star.

Horrible Affair!—The abolition incendiary Bacon, who has been disseminating his fiendish doctrine among the good people of Guilford and Randolph, it appears, has influenced a party of negroes in Grayson county, Va., to attempt to fight their way to Ohio! The People's press gives the following account of the attempt to arrest the runaways:

"When the negroes were closely pressed and refused to surrender themselves, they were fired upon, but without any other effect than to enrage them. One fellow, armed with a long, heavy sythe blade, rushed on Mr. Samuel Bartlett, (brother to the sheriff of Ashe) and at one blow split his head open, scattering the brain in every direction—he died almost immediately. Alfred Bartlett, a brother of the deceased, had one hand nearly cut off. Cyrus Wilcox, late of Jefferson, received a stab in the back of the neck,—but little hope of his recovery. John Clemmons received a wound on the top of his head, laying the skull bare for four inches. Report says he is dead.

"The negroes effected their escape after two or three of them had been knocked down. Two of them, it is said, have been captured and lodged in jail."

Plank Roads.

We hear but little of late of the contemplated Tarboro' and Hamilton Plank Road. The following proceedings, however, in reference to a Plank Road from Murfreesboro' to Hamilton, we find in the 1st Washington Whig:

Murfreesboro' and Hamilton Plank Road Meeting.—In accordance with previous notice, the citizens of Murfreesboro', N. C., held a meeting on the 15th inst. Col. U. Vaughan was called to the Chair and Dr. S. J. Wheeler was chosen Secretary.

The object of the meeting was explained, after which it was

Resolved, That the people of Murfreesboro' be represented in the Plank Road Convention to assemble at Hotel, Bertie county, on the 21th September, and the following gentlemen were deputed for that purpose, viz: William N. H. Smith, Dr. Hutchings, Dr. G. C. Moore, Messrs. H. J. Trader, T. G. Neal, U. Vaughan, J. W. Southall, J. W. Shill, R. S. Parker, J. W. Harrell, J. H. Lassiter, J. M. Trader, and Dr. S. J. Wheeler.

Resolved, That the following gentlemen be a committee of correspondence, viz:

Messrs. Wheeler, Smith, Hutchings, R. S. Parker, John W. Harrell, W. P. Beamon, and Neal.

Resolved, That the proceedings of this meeting be published.

On motion, the meeting then adjourned to meet at the call of the President to receive the report of delegates to the Plank Road Convention.

U. VAUGHAN, President.
S. J. WHEELER, Sec'y.

Plank Roads.

We find in the last Fayetteville Carolinian an article on this subject, from which we extract as follows:

We have now, in successful operation, the Fayetteville & Western Road (for near 50 miles we learn.) the Southern Plank Road from Fayetteville to Lumber Bridge in Robeson county, (which is under contract the entire distance, and being finished as fast as steam and water can saw the plank,) and the Fayetteville and Northern Road, which we hope will reach Smithfield in Johnston county, Clinton in Sampson, and Warsaw on the Wilmington Railroad; also the Fayetteville and Centre Road will soon be in progress of construction.

The increased value of the lands through which the Fayetteville and Western Road passes has twice repaid the cost of the work. A like result has taken place on the Southern Road, and the same will occur on each of the other roads. Men in this county who, two years since, would not have thought of making a subscription to any work of internal improvement, are now the first to put down their five hundred or a thousand dollars. The great value of these roads stare them in the face, and every man whose lands are within reach of them is ready and willing to contribute. It is reduced to an absolute fact in this county that every neighborhood where there are pine trees can almost afford to build a road.

What are the advantages of Plank Roads? Why every farmer has, what he never had before, a good road every day in the year. He can select his own time for going to market. His farm is increased in value—the wear and tear of horses and vehicles are decreased more than one-half—he can haul the load of 4 horses with two, and do it with more ease—he can superintend the sales of his own produce, and the purchase of his own articles, without intrusting it to others. But the thing is so manifest we will not enlarge.

Important from Cuba.

Advices from Havana to the 23rd of August have been received at Savannah. Since the 13th, Gen. Lopez and his army had encountered the Spaniards in several contests, in all of which the latter had been defeated with very heavy loss.

On the 17th, a battle occurred, in which Gen. Enna, commander-in-chief of the Queen's forces, was killed, together with a large number of officers and men.

Lopez is now marching upon Havana, at the head of an army of 1,500 or 2,000 men, which is daily receiving large accessions from the surrounding country.

The Spanish troops are completely cowed by the frequent reverses which they have sustained.

Gen. Enna was buried with great pomp in Havana, on the 20th.

The greatest excitement and consternation prevailed in that city, as there were only seven hundred of the troops there, who could offer but a feeble resistance.

Exclusion of Negroes.—The people of Indiana, by a majority of 20,000 have adopted that clause of the Constitution, which excludes free negroes from that State. This is abolition sympathy for the colored race—Indiana being a free State, filled with rank abolitionists, who have

thus manifested their love for the colored people. They would plunder the owners of slaves of their property, but will not allow of the least inconvenience in providing for the comfort or happiness of the free negroes. They can soon raise money, however, to provide for a stolen slave.

Wilmington Commercial.

From the Goldsboro' Republican.

Slaves, in large numbers, are escaping into the free States from the border counties of Maryland and Virginia.

The first bale of new Cotton received at Charleston, was sent from Augusta on the 15th instant. It was sold at 8 1/2 c.

James Duggan, a soldier in the U. S. Army, was recently tried at Fort Columbus for refusing to attend a Protestant Church, he being a Roman Catholic, and sentenced to fine and imprisonment. This sentence was approved by Gen. Wool. Mr. Conrad, the Secretary of War, has addressed a note to Gen. Wool, informing him, that every means of persuasion should be employed to induce soldiers to attend some church, but if they have conscientious scruples about attending any church, all compulsory measures violate the rights of conscience and should be avoided.

Travelling.—There is considerable travelling through Plymouth at this time. The low fare, and excellent accommodations of the Steamer Schultz, offers great inducements to the travelling community, to pass through here. The Schultz frequently have from one hundred and fifty to two hundred passengers, many of whom, are passing to and from Nag's Head.

We understand that the enterprising owners of the Schultz, contemplate having a daily line; it would not only be advantageous to the company, but would greatly add to our flourishing little town. A daily line of steamers, with such a gentlemanly supervisor as Mr. Keeling, will certainly win the hearts of all travellers. Let the stranger give this line one trial, and he will make it his constant route.

Plymouth Villager.

Newbern, Tuesday Aug. 26th, 1851.

Melancholy Death.—It is our painful duty to record the death, by his own hand, of Mr. Joseph Carter of Newbern, well known to the business community in this and some of the neighboring Counties, as a kind hearted man and a good citizen. On Wednesday evening last at about 3 o'clock, Mr. Carter, who had been laboring under temporary alienation of mind, but not such as to make it necessary to confine him, entered a room at his residence, and before any one in the house suspected his purpose, placed the muzzle of a loaded pistol to his left side near the region of the heart and discharged it. He fell and within five minutes expired. A Coroner's inquest was called, which examined the body and found that two buck shot had passed entirely through his body, lodging in his clothes. After a more careful investigation of the case on Thursday the jury returned a verdict of death caused by a loaded pistol fired by his own hand. The evidence proved conclusively that he was insane when he committed the deed. His funeral took place on Thursday.

Robeson County.—The question whether the county of Robeson should have Jury trials in their Court of Pleas and Quarter Sessions, was decided at the recent election. We understand that about 40 votes were cast for and 600 against trial by jury in the County Courts.

A Sad Warning.—A young man of this county, named Carden, died a few days since, from the effect of an accident on the day of the railroad celebration, the 11th ult. He was returning home from this place, on that day, with a company under the influence of liquor. The deceased and one of the company had a time or two run their horses along the public road. The third race, it is said, was for a quart of liquor, and while running down a hill, poor Carden's horse fell, dashing the rider to the ground and fracturing his skull. The accident happening a mile or two from the Poor-house, he was taken in there and nursed until his death. A sad warning to the company with him and all who are in the habit of "frolicking" home from public places, under the influence of that terrible foe to human peace and life, "good liquor."

Greensborough Patriot.

From Europe.—The Steamer Asia has arrived at New York with Liverpool dates to the 16th Aug.

Cotton for the most part is unchanged. The demand has been without animation and freely met by holders. Good Orleans and the lower qualities of American have advanced a shade.

Breadstuffs had declined. Italy.—A conspiracy had been discovered at Venice and Vienna to murder the Emperor and all the Austrian officers. Several of the parties implicated were arrested.

The news from France and England is without interest.

Washington Market, Sept. 1.

Naval Stores.—The recent rains having raised the river to a considerable height, several Flat loads of turpentine have been brought to market during the past week, which sold for the following prices: for Old and Virgin Dips, \$2,20.

Tar.—\$1,20 a 150 per bbl. Corn.—We hear of no sales of Corn being made this week, a lot would probably bring \$2,75 a 3,00 per bbl.

Bacon.—Hams (good quality) 11 a 12 cts; Sides 10 a 10 1/2 cts; Shoulders 9 1/2 a 10 cts. per lb.

Pork.—New York city Mess \$17; Prime \$14,50 a 15; Rumps 13,50 a \$14 per bbl.

Lard.—Searee and brings 11 a 12 per lb. Herrings.—Some few merchants having imported from the North, some quantity of the Nova Scotia herrings. Those desiring to purchase can do so for \$4,25 a 4,50 per bbl.

Mullets are selling from boats for \$4,50 a 4,75 per bbl.—Goldsboro' Rep.

Wilmington Market, Sept. 2.

We have but few remarks in regard to sales of produce in this number, as there have been little of any sort brought to market for 2 or 3 days past.—The water courses are still up.

Turpentine.—Some 2 to 300 bbls. have been disposed of at \$2,05 per bbl.

Spirits Turpentine.—A small lot changed hands at 26 cts. per gallon.

Bacon.—Very scarce and much wanted; quotations nominal, as there is none arriving.

Corn.—Stock on hand light.—ib.

Newbern Market, Aug. 26.

Turpentine.—From the last rain the river is probably in good boating order. The arrivals for the past week are not however very large. The price has kept very steadily at \$2,25 to \$2,27 1/2 mostly at the latter price. Tar one and a quarter.

Corn.—50 bbls. received from up Trent since our last sold at 50 cts per bushel. No receipts of Bacon since our last. No sales of Lard the past week.

Notice.

Sealed proposals will be received at the Engineer's office in the town of Greenville, County of Pitt, from the 25th day of August until Wednesday, the 10th day of September next, for Grading and constructing the Greenville and Raleigh Plank Road from Tyler's Bridge to Wilson, a distance of twenty-seven miles. Also for Bridging the little Contentnea, White Oak and Toisnot Creeks.

Profiles, Plans and Specifications of which may be seen at the Engineer's office, after the 25th inst. The work is divided into sections of two and a quarter miles each. Said work is to be graded by the first day of April, 1852, and the plank to be laid as fast as delivered. Bonds to the amount of the bid made, will be required of each bidder with good and sufficient security to be sent in with the proposals

Alfred Moyer, President,
By GOULD HORT, Secretary.
Greenville, August 20, 1851.

Jack John Bray FOR SALE.

THE subscriber offers for sale his well known Jack John Bray, seven years old last spring, and has proved himself to be a sure foal getter. He covers well, gets fine large colts and shows to advantage. I will sell him on reasonable terms, if applied for soon.

DR. CHRISTIE'S GALVANIC BELT and MAGNETIC FLUID

For the Removal and Permanent Cure of all NERVOUS DISEASES, And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal discovery of the age.

Dr. CHRISTIE'S GALVANIC BELT and MAGNETIC FLUID, is used with the most perfect and certain success in all cases of

GENERAL DEBILITY, Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in PAIN, CRAMP, PARALYSIS and PALSY, DYSPEPSIA or INDIGESTION, RHEUMATISM, ACUTE and CHRONIC GOUT, EPILEPSY, LUMBAGO, DEAFNESS, NEURALGIA, MIGRAINE, NEURALGIA, PAIN IN THE SIDE and CHEST, LIVER COMPLAINT, SPINAL COMPLAINT, and CURVATURE OF THE SPINE. RIF COMPLAINT, DISEASES OF THE KIDNEYS, DEFICIENCY OF NERVOUS AND MUSCULAR ENERGY, and all NERVOUS DISEASES, which complaints arise from one simple cause—namely,

A Derangement of the Nervous System. It is NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the stimulating, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength, elasticity and vigor.

The great peculiarity and excellence of Dr. Christie's Galvanic Currents, consists in the fact that they arrest and cure disease by constant application, in place of the usual mode of drugging and sick picking the patient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, over three years since, more than

60,000 Persons including all ages, classes and conditions, among which was a large number of ladies, who are peculiarly subject to Nervous Complaints, have been

ENTIRELY AND PERMANENTLY CURED, when all hope of relief had been given up, and every thing else had been tried in vain!

Illustrations of the GALVANIC BELT, upon the case of a person afflicted with that base of criticism, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a low state, and imperceptibly exhaust the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worst stage of the disease, and simply the belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the belt, thereby causing a certain circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. IT IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

CERTIFICATES AND TESTIMONIALS Of the most Undoubted Character. From all parts of the Country can be given, sufficient to fill every column in this paper!

AN EXTRAORDINARY CASE, which conclusively proves that "Truth is stranger than Fiction."

CURE OF RHEUMATISM, BRONCHITIS AND DYSPEPSIA. Rev. Dr. Landis, a Clergyman of New Jersey, of distinguished attainments and exalted reputation.—

SINCE, New Jersey, July 12, 1848.
DR. A. H. CHRISTIE.—Dear Sir: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply may follow: For about twenty years I had been suffering from Dyspepsia. Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whatever. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me insupportable anguish. Further, in the winter of '45 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require the immediate suspension of my pastoral labors. My nervous system was so thoroughly prostrated, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatism affliction—thus exciting that these disorders were connected with each other through the medium of the Nervous System. In the whole pharmacopoeia there seemed to be no remedial agent which could afford me relief. I had recourse to the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. TO MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPEPSIA HAD GONE; IN EIGHT DAYS I WAS FREED FROM MY PASTORAL LABORS; AND IN ONE WEEK I WAS CURED OF A SINGLE BRITISH ACCOUNT OF THE BRONCHITIS; AND MY RHEUMATIC AFFECTION HAD ENTIRELY CEASED TO TROUBLE ME. Such is the wonderful and happy result of the experiment. I have recommended the BELT AND FLUID to many who have been likewise suffering from Neuralgic affections. They have tried them, with HAPPY RESULTS. I BELIEVE, IN EVERY CASE.

I am, dear sir, very respectfully yours,
ROBERT W. LANDIS.

DR. CHRISTIE'S GALVANIC NECKLACE is used for all complaints affecting the Throat or Head, such as Bronchitis, Inflammation of the Throat, Nervous and Sick Headache, Dizziness of the Head, Neuralgia in the Face, Burning or Redness of the Neck, and all other affections of the Nervous, and that distressed complaint, called Tic Dolorous.

DR. CHRISTIE'S GALVANIC BRACELETS Are found of vast service in cases of Convulsions or Fits, Spasmodic Complaints, and general Nervous Affections of the Head and upper extremities. Also in Palsy and Paralysis of all disorders caused by a deficiency of power or Nervous Energy in the limbs or other organs of the body.

Many hundred Certificates from all parts of the Country of the most extraordinary character can be given, if required, to try the effect of the application of the GALVANIC BELT AND FLUID.

No trouble or inconvenience attends the use of DR. CHRISTIE'S GALVANIC ARTICLES, and they may be worn by the most feeble and delicate with perfect ease and safety. In many cases the sensation attending their use is highly pleasant and agreeable. They can be sent to any part of the Country.

Prices: The Galvanic Belt, Three Dollars, The Galvanic Necklace, Two Dollars Each, The Galvanic Bracelets, One Dollar Each, The Magnetic Fluid, One Dollar.

The articles are accompanied by full and plain directions. Pamphlets with full particulars may be had of the authorized agents.

PARTICULAR CAUTION. Beware of Counterfeits and Worthless Imitations. D. C. MOREHEAD, M. D., GENERAL AGENT FOR THE UNITED STATES, 132 Broadway, New York.
