LEAKY SENATORS TO BE BROUGHT TO BOOK.

THE SENATORIAL OTHELLO FROM MISSISSIPPI.

Senator Bruce, the only colored man in the Senate, made a speech on Mr. Morton's resolution providing for an investigation into the last election in Mississippi, a few days ago. A short time since he made the party fetters during an Executive session of the Senate, and indulged in a tirade against the President because he had not taken more radical measures to secure the election of republicans to the legislature. This speech created considerable excitement in the republican camp, which was heightened when it was reported that Bruce was determined to repeat his speech in open session. The other day, however, in his speech on Mississippi, he never once alluded in disrespectful terms to the President. His speech was just what might have been expected, coming from such a source. Instead of confining himself to the question of the late election in Mississippi, he contented himself with a passing allusion to it, and launched out into an essay on the subject of equal political and civil rights for his race. He read his remarks from manuscript; and the closeness with which he confined himself to it, never once raising his eyes, suggested that he was not over familiar with the hand writing. As regards dress, the colored Senator is the most nobby, not excepting Conkling, in the chamber. He is a thick-set man, and in color is a cross between a mulatto and a full-blooded African. A continual sneer rests upon his ebony countenance, and the erectness with which he sits in his seat, and gazes with a look of indifference upon his brother Senators of a whiter hue, indicates that he considers himself the peer of any honorable gentleman in the chamber. He is exceedingly affected in his manners, and always enters the chamber with his hands increased in a pair of black kids; frequently sitting, during the entire session, with one glove on, and the other lying on the desk before him. Mr. Bruce may have made a very good sheriff in Mississippi; but as a United States Senator he is not a success.

Our Washington Letter.

WASHINGTON, D. C., }
April 8th 1876.

NEW YORK TO BE THE BATTLE GROUND.

A Republican member of Congress, who is understood to be in the councils of the White House Ring, said, yesterday, in my hearing, that if the Democrats could carry New York State, they would select the next President; but that they would have to do some pretty tall work to accomplish that end, as the administration would show them before they got through. This simply means that the Custom House, Navy Yard, Post Office and Internal Revenue service in that State, backed by the immense sums of money that are being assessed upon Republican officer holders all over the country, will be used to aid the Republican nominee. It is more and more evident, every day, that New York is to be the great battle ground. Forewarned, forearmed.

The dispatch which Secretary

not the choice of the people of—, and during his remarks, took occasion to refer to Smith's suspicious failure in the year— Senators—, and—urged his confirmation. It may be safely predicted that Smith will be confirmed.

Frequently, this inkling of information obtained is enlarged upon, and, by the aid of a vivid imagination, expanded into half a column or more; It is not at all likely that the Senate will ascertain who the leaky parties are, since the newspaper men regard all such communications as sacredly confidential.

The distinguished democratic Congressman has received from the party he has so long and faithfully served, an unusual but not unmerited mark of its confidence in his zeal and ability. Mr. Barnum has been placed on both of the two great committees charged, in their respective spheres, with the conduct of the Presidential campaign—the National Committee, and the Congressional Committee. Of the latter committee he is the Treasurer. To Mr. Barnum's wise counsels and personal labors is largely due the late triumph of the democracy in Connecticut.

A Wonderful Revival.

The following interesting account is taken from "Steven's History of Methodism."

In July, 1874, one of those great moral awakenings, known in all Protestant lands as "revivals," spread over the islands with prodigious effect. It began in Varan, was soon prevalent among the Habia Islands, and reached the Tonga group. Now, hundreds of men, women and children, including many of the principal chiefs, might be seen in deep distress, weeping and crying to God for his mercy. Many troubled as if they were about to be judged at the bar of God. For a time the people laid aside their ordinary employments, and gave themselves up entirely to religious exercises. The missionaries went about among them, imparting instruction and pointing to their Christ, and many of them soon found peace in believing. The work was not confined to the principal islands, but spread like fire among stables, through the whole of them. In a short time every island had caught the flame; everywhere the people were earnestly seeking the Lord, or rejoicing because they had found him. This religious movement was followed by a remarkable reformation of manners. Among other sins polygamy was abandoned; marriage became general, and the natives were more decent and modest in their apparel, many of them dressing in the English style. They set a high value on the means of grace. They kept the Sabbath with remarkable strictness, resting from labor, and employing the whole day in the public and private exercises of religion. They also maintained morning and evening worship daily. In their prayers there was an affectionate simplicity, their former hatred of each other was exchanged for love. On Tuesday, July 27th, says Turner of Varan, "we believe that not fewer than 1,000 souls were convicted; not from dumb idols only, but from the power of Satan unto God. For a week or two we were not able to hold the schools, but had prayer meetings six times a day. We could not speak five minutes before all were in tears, and numbers prostrated before the Lord, absorbed in deep concern about their salvation. This has not been like dew descending upon the tender herb, but as Spring-tide, or as the overflowing of some mighty river; and the mounds of sin have been swept away; the Lord has bowed the whole island to his sway. We have to hold prayer meetings daily. We have never seen society so large, and the number converted for the past six weeks, is 2,582. "In the morning," says Tucker, of the Habia Islands, "we repaired to the house of prayer as soon as it was light. The Lord made the place of his feet glorious, the stout-hearted began to tremble;

there was a mighty shaking among the dry bones. What a solemn but joyful sight to behold! One thousand or more individuals bowed before the Lord, weeping at the feet of Jesus; I never saw such distress, never heard such prayers for mercy, or such confessions of sins before. These things were universal, from the greatest chiefs in the land to the meanest individuals, and of the sexes, old and young. The Lord heard the sighing of the prisoners; he bound up many a broken hearted sinner in that meeting, and proclaimed liberty to many a captive. We were engaged nearly the whole day in this blessed work. I attended four services, and witnessed hundreds of precious souls made happy by a sense of the Saviour's love on that day and the preceding evening. We have not yet received an account, from all the Islands of those who have obtained peace with God during this revival, but from the number that is already brought in by the ladies, we believe that upward of 2,000 were converted to God in the course of a fortnight."

What's A Printer?

A printer is the most curious thing living. He may have a "bank" and "quinos" and not be worth a cent; have "small caps" and have neither wife nor children. Others may run fast, he gets along swifter by "setting" fast. He may be making "impressions" without eloquence, may use the "eye" without offending, and still tell the truth; while others can not stand while they set, he can "set" standing, and do "both" at the same time; may have to use "furniture," and yet have no dwelling; may make and put away "pi," and never use a pie, much less eat it, during his whole life; be a human being and a "rat" at the same time; may "press" a good deal, and not ask a favor; may handle a "shoot-iron," and know nothing about a cannon, gun or pistol; he may move the "lever" that moves the world, yet as far from the morning globe as a hog under a mole-hill; "spread sheets" without being housewife; he may lay his form in a "bed," and yet be obliged to sleep on the floor; he may use the "dagger" without shedding blood, and never use a pie, much less eat it, during his whole life; be a human being and a "rat" at the same time; may "press" a good deal, and not ask a favor; may handle a "shoot-iron," and know nothing about a cannon, gun or pistol; he may move the "lever" that moves the world, yet as far from the morning globe as a hog under a mole-hill;
