Liquors,

Cigars,

Shortly after the war Mr. Shelton, broken up at home, came to my county of Buncombe, rented a small piece of land, and made some tobacco on it. He succeeded so well that has doubled itself perhaps every year since in Buncombe and Madison counties. Mr Shelton, with his Buncombe tobacco, took the first premium at the fairs at Raleigh, Danville, Richmond, at the great Vienna World's fair, and at the Philadelphia Centennial Exposition. As much as four dollars per pound has been realized for some of the fine to bacco of that region. Major Rollins, who has been for some years making tobacco in Madison, told me recently that last year he rented some wood land to a colored man, who cleared bacce. Major rounds set to bacco had been sold the net proceeds amounted to \$21 per acre. Major Rollins received one half for his share and the colored man kept as much. Major Rollins said that forty dollars per Rollins said that forty dollars per of minerals, used to say that there acre would cover the expense of delearing the land and making and curing the land and making and deuring the tobacco. It thus appears that the colored man, besides ed that the colored man, besides ed that the colored man, besides at the colored man at the colored

three acres nearly two hundred dollars in cash. I mention another case in the ad joining county of Buncombe. poor man rented land on Turkey Creek, ten miles from Asheville, and besides grain put in some tobacco. His wife, in addition to doing all the corundum mine several fine gems. housework, put into the garden some tobacco, and tended it entirely by herself. After all the expenses had mondand Platinum." been paid, including the commissions to the seller, she received \$116. Mr. Justice the county surveyor of Buncombe, told me he was curious enough to have the patch surveyed, Provisions, and that it contained only one-fourth

of an acre. This was at the rate of \$460 per acre. Such cases as these were remarka- five years: A new saw mill, the best Tobaccos,

TARBORO, N. C.

Die, but I was assured that for the last two years the prices of tobacco in Buncombe and Madison had averaged 20 cents per pound. As one factory has has been rebuilt. A sach and blind factor has been rebuilt and enlarged. A rice mill, second to none in the country, has been built and is about \$150 per acre. Suitable land can be bought in those counties, cleared and cultivated in tobacco, and the crop put into the market, for less than \$50 per acre, In other words, a man can have his land ready for s grain or a grass crop free of expense, and with from \$50 to \$100 in money in his pocket. In 1868 I caused some mica mines to be opened in Mitchell county, and I am told the business of raising fine tobacco that more than half the mice of the markets of the world is obtained in that county. It is certain that this and two or three other counties in the State furnish the greater part of the mica used. In the year 1847 I discovered cor-

undum in large lumps in Madison county. This circumstance probably led to other discoveries in the State. The best corundum mine in: the world is situated in Macon coun ty. Dr. Lucas, who, when, I first three acres and cultivated it in to bacco. Major Rollins lent a horse to plow it, and after the tobacco had plow it, and after the tobacco had lend to per annum at a fine profit.

coveries of valuable minerals proba ble. In connection with corundum I may say that I obtained and had cut and set a ruby which Prof Shapard pronounced the finest American ruby he had ever seen. Dr. Lucas told me that he had obtained at his
