"Little things are due to him who only gives away what is of no use to himself." The thanks of invalids the world over are being showered on the inventor of Kidney-Wort, for it is giving health to all. Kidney-Wort is a grand remedy for all ailments, cleanses the blood, and radically cures kidney disease, gravel, piles, bilious headache and pains which are caused by disordered kidneys. Thousands have been cured—why should you not try it?

The February number of the North American Review is a most interesting article on "The Experiment of Universal Suffrage," by Prof. Alex. Winchell, a discussion of "The Revision of the Constitution," a paper entitled "The Decay of Protestantism," by Bishop McQuaid, and a defense of the Standard Oil monopoly, by Senator Camden.

Several articles of all kinds referred to their original beauty by District Dryer. Perfect and simple. 10 cents, at all druggists.

Tuesday was somewhat of a field day with the magistrates of this township, five persons were bound over to the Inferior Court. Mr. Cummings who had his money drawer robbed some days ago succeeded in apprehending the thief Wm. Mercedal, colored. Mercedal was captured in Halifax county. At the preliminary examination before W. P. Malcom he confessed stealing the money and stated further that Thad Price colored instigated him to commit the theft. Mercedal in default of \$1000 bail was held for trial before Justice Coffield. Thos. H. Battle Esq., appeared for the prosecution and J. L. Bridge and J. J. Martin Esq., for the defence. In default of one hundred dollars bail for his appearance at the next term of the Inferior Court he was committed to jail. The three other defendants who will have to plead at the next term of the Court will do so for assault and battery upon Levi Harrell. They were Thos. Pitt, Thomas and Joseph Dunford. The injury inflicted was slight.

"Every truth has two sides; look at both before committing yourself to either." Kidney-Wort challenges the closest scrutiny of its ingredients and its grand results. It has nothing to fear from truth. Doctors may disagree as to the best methods and remedies for the cure of disordered liver and kidneys. But those that have used Kidney-Wort, agree that its value is far beyond the best medicine known. Its action is prompt, thorough and lasting.

NOTICE TO MERCHANTS.—Merchants are required by law to list their purchases by the 10th of the month. The Register of D. S. informs us that one merchant has done so. They had better hurry and save the penalty.

TAKE THE POT.—Is our last issue we thought that we had chronicled the poorest farms for the year, but the Reporter sees us and goes one better. Pitt tells of a man who rented a crop, paid cash for everything and when the end of the year at hand he had to buy the cotton to pay the rent. What we know about farming is circumscribed.

WILHA'S OPERA HOUSE.—Prof Le Gowing will, on Thursday and Friday evenings of this week, give feats of legereidism in merism. The secrets of spiritualism will be exposed. He proposes to take persons under his feet, and this will be worth treble the price of admission to witoses it.

MURDEROUS ASSAULT.—Last Saturday, Sydney Hines, col., struck another colored man—were not able to learn his name—on the top of the head with an iron or lead pipe. The man who was struck was thought to be quite serious, the stricken having been unconscious ever since. Hines immediately ran away, and has not been seen since. The assault took place about three-fourths of a mile from Sparta.

Snow.—We shall not glory in the snow, advent, we shall not laud its exhilarating effects, for the snow is not great (ourselves) blaspheony because it does not go. Many of our citizens enjoyed it. Early yesterday morning the sleighs could not see dash by, some times it was a staid couple riding in the sleighing atmosphere but generally it was young people on love fun and frolic. The boys and girls too for that matter snowballed each other until their hands were as red as beets. Some people can enjoy snow any day.

WHAT DOES IT PROVE FOR TARBORO.—Susan B. Anthony has been asked if the property of the sexes was all equal, that of her strong minded persuasion. Her facts which she gives, may excite harm in the breast of the male portion of humankind, but in the female it will be a great blessing. She has forty four children; of these twenty five are girls and nineteen boys. In case where the husband agrees with the wife, in her opinion rights theories the facts show that out of sixteen children fifteen are girls. For the sake of improving debased humanity the male must be exterminated.

SMALL POX.—For two weeks or more there has been intense excitement in and around Wilson because of a case of small pox in the neighborhood. The excitement has extended to the neighboring towns. Toland last week passed quarantine regulations with regard to the former town, and Monday Rocky Mount followed suit. So that now if the "Pox" is here, it is readily taken it into his mind to visit. Wilson he will on his return receive as bad treatment from his own people as he ever did in Wilson. From all that can be gathered it is believed that while there is danger it is exaggerated. The best thing all can do is to be vaccinated be prudent and borrow no trouble.

SPASMS.—CONKING.—Last Friday, Nelson Phillips, 471 W. H. Harris (both colored), threw a brick at the head of the assailant. The brick struck the head of the relations existing between the deceased and Phillips' daughter. It was just at the close of twilight that Phillips was killed. When he did, he returned with his gun, and overtook him shot him as we stated above.
