AN INCIDENT OF THE ELECTION .- W. H Johnston Esq., Attorney at law, a gentleman of extensive business relations with the people hereabouts, and well known, took a great interest in the election of last Monday. Mr. Johnston has been for a long time an Independent and when he presented himself the other day at what was called the "people's box," he was asked if he was a democrat. He thus replied: Gentlemen I did not vote at last election, but had I done so I would not have voted for Mr. Cleveland. But Mr. Cleveland has given such unequivocal evidence of an intention to do right that I think all fair minded men ought to give him support. If he continues to do as well as he has, and is again a candidate for the Presidency I shall vote for him." TARBORO ON THE NIGHT OF JULY 2ND. Last Thursday a petition circulated among certain of our citizens, addressed to he Mayor requesting him to call a town meeting to consider whether an attempt by meeting. The Sentinel is a negro paper election should be made to determine the people's choice in the matter of the Postnastership. The petition is as follows:

July 2nd, 1885. To the Mayor of Tarboro, Greeting :-We the undersigned citizens of Tarboro do m st respectfully request you to call a meeting of the Democratic voters of the town as the Court House to night at 84 o'clock to discuss the propriety of holding an election to ascertain the people's choice for Post master

It is well known that the two mest prominent applicants for the Post filee at this place are Mrs Gen. Fannie Pender, and Mr. E, T. Bynum, and the friends of each have supported their respective choices with ardor, yea, with bitterness even. Paper balls and for which the pitch was much more Of the merits of the two applicants, it is to blame than the catch. The visitors are a unnecessary to speak. All fair-minded peo ple, men and women, will award to each his or her measure of praise, discarding the medium of prejudice; all candid men will not only be just to any lady, but generous also. Such conduct marks the man It may occur to the indifferent reader to ask why should an election be held about this matter. He may ask also who sug gested the idea in this instance. Let us apply ourselves to the questions, and to the last one first. If the names of the petition rence Fount, in, F. A. Howell and Joshua ers be examined by those acquainted intimately with the controversy, it will be seen that twenty-seven are Bynum men, three in different, and three friends of Mrs. Pender. It is a fair presumption-indeed, it would seem to be no presumption at all, that the idea sprang from the Bynum side, the open leaders of which are Messrs V. B Sharpe, W. H. Knight and O. C. Farrar. But if it be a presumption, it will be made conclu sive when we come to the proceedings of the meeting. For what purp se, then, was the meeting? We will allow the proceed ings to shed its light up on this queston also.

It came to order. Mayor Farrar ex plained its object and Mr. W. S. Clark was ca'led to the chair and Mr. Jas. Norfleet was made secretary. All was quiet for awhile, though gentlemen were invited to discuss the matter.

Mr. Donnell Gilliam arose and said that no reason had been assigned for the meet ing which was an unprecedented one, and that no action ought to be taken until some reason was given. Mr. Jas. Norfleet agreed with Mr. Gilliam and asked why ed for. should the meeting have been called.

Dr. J. H. Baker stated it had been assert ed that 98 per cent of people of Tarboro were in favor of a certain applicant. He wished an election to determine tt. Mr. Jas. Norfleet stated a few reasons why an election should not be held. He objected to an attempt to throw a non elective office into a sort of election, unauthorized by law, to become the subject of maneuver ing and intriguing politiciaes. called attention to the phraseology of the petition wherein it appeared that the citi zens of Tarboro wished to determine the people's choice, and contended that all the patrons of the office whether residents in the country or town should have a say, if an election should be held. Mr. Jas. Whitehurst thought that the right to have elections was the very essence of dem cracy. We think. that the right to vote at elections authorized by law is the essence of de mocracy, and no temperate man can complain that we do not have a sufficiency of elections, Dr. J. H. Baker offered a mo tion to refer the question to all the patrons ness of same, July 6th 1885, that Jas. S.

He was, in a magner, by accident, the spokesman of the Bynnm side, wherever be agreed with it. If he happened not to be completely in accord with their views a suggestion by motion was made. For instance Col. Knight moved to amend Dr. Baker's, motion by confining the election to the town. Mr. mence saying all the patrons of the office should be allowed to vote. Mr. Whitehurst wanted the election to be confined to the township, as he believed the law rendered he understood the law was otherwise. One might be postmaster though not a resident of the county, if a patron of the office.

Mr. Gilliam spoke at length and revealed the intentions of the Bynum men. The question was about to be put when Mr. H. L. Staton arose, and began an im astonished, ashamed of the people of Tar boro. He spoke in eulogy of General Pender who was killed in the war, and several times elicited applause. He denounced the methods employed to defeat his widow who had applied for office. Dr. Baker arose but gave away to Mr. Gilliam who gave away to Dr. Bass, who moved to adjourn. Dr. Bass's motion received a second and was put, but defeat ed, overwhelmingly. It will be seen how the Sentinel, presums bly indifferent, was impressed. Mr. G. M. T. Fountain stated that he had voted in the affirmative, but moved to reconsider because he thought the coun try people should be allowed to vote in the matter. The motion was overwhelmingly defeated. While the meeting was dividing itself on the vote, Capt. V. B. Sharpe could be heard to say "come over this way, boys; come over this way" Monlay the 6th of July was fixed upon for the day of election. While the house was in the confusion of breaking up Dr. Julian Baker offerred a resolution inviting the country people to hold elections. No action was tik n upon it. The meeting dispersed.

THE ELECTION. being the day of County Commissioners' alecting and a session of the board of

education. The action taken on Thursday night provoked considerable adverse criticism from estimable country people and much feeling was manifested. They voted at the box provided for their accommidation, and cast tor the most part, few instances otherwise, for Mr. Jas. S. Paull. That any feeling was aroused tending to a breach among our people is unquestionably regretted, but it seemed almast natural for it to occur under the circumstances. We trust that time will set the matter right, will assist to abate th, strength of our countrymen's displeasure the slight they regard themselves as having suffered. Let all be willing to believe that the mistake made by certain of our fellow citizens was an error of judgment rather than of the heart. They felt on the day of election while holding the polls, opened under the order of the meeting Thursday night, that a mistake had been made. In fact we believe they would be willing to concede that the whole thing was a mistake. Let charity abound among us ail, and the bitterness which this occasion originated will be turned to sweetness; its gall trans muted into the milk of kindness. The election will teach a lesson. Its significance is clear. He who runs may read. Faction
