FRANK POWELL PROPRIETOR

Notices of Marriages or Deaths, not to exceed ten lines, will be inserted free. An additional matter will be charged for per line.

Advertisement notices should be addressed to FRANK POWELL, CARBORO, N. C.

Entered at the Postoffice at Carboro, N. C., as second-class matter.

THURSDAY, SEPT. 01, 1885.

Sick of the everlasting shaking of the bloody shirt, the Toledo, O. ex-posed master has renounced his allegiance to the republican party. He says there's no patriotism in the old party and nothing in its present policy to command the admiration of lovers of their country.

As was expected the recent cool nights, succeeded by hot days, have given cotton in some parts of the county rust and caused the bolls to shed.

An early Fall and frost will cut short very materially late cotton. It is generally ten days late.

The Washington City correspondent of the Charlotte Observer says Congressman Tom Skinner will not have a walk over for the next nomination. That Major L. C. Latham, of Pitt, will marshal his forces and make a heavy fight.

"Turn about is fair play" seems to be the motto in the District.

Doing Well.
It is not unusual to hear complaints from Democrats that the Federal Administration is too slow in turning out Republican officials and appointing Democrats. We can only say to the fault-finders wait. Rapid progress is being made as fast as efficiency in the public service will permit.

The following from the News and Observer gives some idea how fast Republicans are made to step down and out:

The post-official gullotine has been pretty busy since the accession of the Cleveland Administration notwithstanding the many things to the contrary said by certain dissatisfied folks. In point of fact there is no reason for complaint, even by the most partisan Democrats, and it appears now that the first assistant postmaster-general Stevenson, who is a trump by the way, has been getting along even faster while the President has been away than while he was in Washington.

Within the six months of power there have been 6,583 changes, 524 of which were in Presidential offices. This is an average of about 1,200 a month. Under the Hay regime the average was not half that, while under that of Stevenson it is double.

The State which shows the most changes in Presidential offices is Indiana, which heads the list with 43. The influence of the Vice President may perhaps be seen in this. Closely on the heels of Indiana come New York and Iowa, with 40 Presidential changes each, and it appears now that 34; Illinois with 31; Kansas, 20; Ohio and Wisconsin 23; Michigan, 22; Missouri, 20; Virginia, 16; North Carolina, 14, and so on down to Rhode Island and Oregon, none. Over one-fourth of all the Presidential offices have been changed. Of the fourth-class offices about one-eighth have been changed.

An Old Maid Has Her Say.
A correspondent with no name sends us the below from the R. C. "Advocate."

Some of our very moral secular editors have taken the sad fall of Bro. Hendren as a text to deliver a lecture to the preachers in reference to what they are pleased to term "the practice of promiscuous kissing of ladies by preachers," and one would judge from what they say that such a practice is common among preachers in this State. Now we know about as much in reference to the habits of ministers generally in North Carolina as these secular editors do, and we know that there is not a practice of promiscuous kissing of ladies by the preachers of any denomination in North Carolina, and the lecture of these secular editors is entirely gratuitous. The imputation that there is such a habit is unjust and unequalled for. There may be some few who have such a habit, (we know of none) but if any, they are a "few and far between."

Notes On the Wink.
POLITICIANS TALK.

Pat Winston is back from Idaho on leave of absence. Pat is delighted with the country and will make it his home in the future. He gave such glowing accounts of it that Col. Staples, of Greensboro, has concluded to go back with him—in case he can do so as Judge of the territory. Both will be missed.

I hear that several prominent Republicans in the State are ascertaining the views of leading members of the party as to the expediency of abandoning all organization as to State matters with a view of giving the Democrats ample opportunity to agree to disagree. It is thought by many of them that if all opposition should be withdrawn in four or five years two well defined factions of the Democracy will spring up, and that then political matters will arrange themselves somewhat differently from the present situation.

A report is current in the press that Judge Riddle in a recent interview predicted that John Wise would be elected Governor of Virginia this fall, and that in the next National election a number of Republican electoral votes would appear from the South. The Judge has been very generally rapped on the knuckles about his alleged utterances by the news papers, but the fact is that there were no such utterances and no such interview. I am able to state from an excellent source that the whole thing was an enterprising journalistic fabrication.

W. S. O. B. Robinson was on the train the other day returning from Washington. His retention in office surprises those who subscribe to the doctrine of offensive partisanship. The hitch seems to be that no charges have been filed against him, and without them, the Attorney General declines to remove him from the snug berth of U. S. Dist. Atty. Mr. Fab. Basbee, to whom the place has been promised, is unwilling to prefer the charges himself, but asked, so the story goes, Spier Whitaker, of Raleigh, to do so. Mr. W. declined for the reason that he did not care to be made a cat's-paw of. This is a singular state of affairs.

A gentleman, living in Raleigh, who divides his time about equally between politics and business, returning from Baltimore day before yesterday told me that commercial men were grieved to know of the sad end of Charles A. Gambrill, the wealthy Baltimore flour merchant. He died from hard drinking. He had an extensive acquaintance in Eastern North Carolina where for many years he has sold "Patapso" flour. My friend told me also of a very sad affair which had just occurred at Newport. Joseph Stuart, of J. J. Stuart & Co., bankers of New York, has a summer home there. Mrs. Stuart astonished the polite world in which she moved by committing suicide with her son's shotgun, literally blowing her head off. The cause cannot be imagined. She was never suspected of insanity. The Tarboro bank and several others in the State, keep their New York accounts with this firm. They have many friends here.

The new bank at Norfolk is making energetic efforts to become the depository for Eastern North Carolina. It is being advertised in all our papers, and the cotton men are speaking a kind word to their correspondents here in its behalf.

While men of the highest character are at the head of the institution, our banks, merchants and business men generally are not in a hurry to accept the invitation—just yet.

Men reputed to be of the highest character were at the head of the Exchange National Bank.

The old saying that a "burnt child dreads fire" makes our people hesitate at least until Norfolk has acted upon the matter of punishment of the thieves who robbed a dozen counties in this section of more than one and a half million of dollars as late as April of this year!

The Exchange Bank swindle was second in magnitude only to the Grant-Ward business. When Norfolk has dealt out justice to the culprits, she will deserve our confidence again—not before.

This is not the first time that we have been robbed by Norfolk financiers.

Fish is in the penitentiary. Ward will soon be there, and there are men in Norfolk that her courts should give through tickets to the same institution without stopping to remember anything except that they did more to stain her reputation than all the roguesy that has come to pass in the Old Dominion from the beginning of the world to this day.

The trial of the Bain brothers and all concerned in the infamous proceeding (should there be a trial) will be carefully watched here. Their guilt can be easily established by legal proof, and we want no mawkish sentimentality or pity to stay those stripes which these princes among felons have so richly earned the right to wear.

Let justice be done without fear or favor.

LET JUSTICE BE DONE WITHOUT FEAR OR FAVOR.

FREN LAMON.

Cleveland Must Marry.
If Mr. Cleveland wants a second term he will have to marry. The American people may forgive calumny to a President during his first term in consideration of his other good qualities, but they have too deep a reverence for the institution of matrimony, not only as a reliable means for perpetuating Presidential virtues in a second generation, but as the favorite and popular method of absorbing our growing surplus of unmarried females, to ever confer the honor or of the Chief Magistracy a second time upon a man who shows himself so brutally obtuse to the charms of his countrywomen and their favorite institution. We sincerely trust that our Chief Magistrate has caught something besides a few fish and a bad cold in the Adriatic tracks, and that the outcome of the will be that Miss Cleveland must pack her trunks and resign her position as mistress of the White House. That place belongs to a married woman who loves babies better than books.—[Albuquerque Journal.]

A Song of the Shawl.
If the poor woman shivers in winter beneath a thin shawl of domestic manufacture containing an admixture of cotton it is because a better and cheaper shawl is excluded from the American market by a prohibitory tax. By a cunning artifice in fixing specific and ad valorem duties the shawls of lowest quality worn by the poor pay a rate of 91 per cent, and the shawls of better quality pay only 58 per cent. As a result the finer shawls are imported in considerable quantities, and as the coarser shawls are excluded American working people must use the domestic article and pay the tax to the home manufacturer. In the one case some revenue goes into the Treasury from the duty on shawls; in the other the Treasury gets no revenue, but the consumer of the domestic shawl pays more tax. But Judge Foraker coolly tells the voters of Ohio that they pay no taxes on woolen fabrics because they consume none that are imported.—[Philadelphia Record.]

Said It in a Whisper.
George W. Childs' statement that Grant expressed the opinion in his presence that Tilden was rightfully elected President is followed by one in the Philadelphia Times to the effect that the writer heard General Grant say that he believed that the votes of Oregon and South Carolina belonged to Hayes, and those of Florida were doubtful, and that those of Louisiana should have been counted for Tilden. It is a pity that General Grant did not make this statement out loud at a time when it would have prevented the commission of the arch crime.

FRESHLY PLUCKED AND PRESS'D.
J. J. Litchford, prominent citizen of Raleigh, is dead.

Another fire in Durham destroyed six houses on Sunday.

And now they say G. C. Battle contemplates erecting a Tobacco warehouse at Rocky Mount.

The New Berns "Journal" reports crops almost ruined by the drought in Jones and Lenoir counties.

His many friends will be glad to hear that Spencer L. Hart has gotten the Rocky Mount Post-Material plume.

The Durham (tobacco) Ball has been advertised to the extent of \$1,200,000 and it has made him invaluable.

Rocky Mount and Greenville, where the wash-women and cooks have "struck," propose erecting laundries by stock companies.

Capt. James C. Borden, for a long while a popular conductor on the W. & W. R. R. died in Goldsboro last week. He was 57 years of age.

The crops in the country along the line of the Wilmington & Weldon Railroad South of Goldsboro never looked better.—Wilmington Review.

W. P. Davis has been appointed Postmaster at Battleboro, replacing the ancient King Pope. Mr. Davis' appointment is regarded as a grand victory.

The Durham Recorder says that the Blackwell Durham Tobacco Company will use not less than eight million pounds of tobacco this year, and Duke Sons & Co. several million more.

If Mr. "T." don't stop kissing that girl where we can see him, we will have to report him. Be more careful—Rocky Mount Clipper.

If the girl is suited to a "T." don't report him.

Kind words are the bright flowers of earthly existence; use them, and especially around the fireside circle. They are jewels beyond price, and powerful to heal the wounded heart and make the weighed down spirit glad.

The negroes around Murfreesboro became so indignant over the election of a Democrat to the Legislature that they discharged from the church one of their most prominent members who was a poll keeper at the election.—Murfreesboro Index.

Col. Thos. B. Keogh, late U. S. Marshal, and Mr. James E. Boyd, late U. S. District Attorney, have concluded to unite in the issue of a weekly paper at Greensboro. The name of the North State will be used. We welcome these gentlemen to the field of journalism, but "what are they going to do with it?" As a Republican organ it is out of place, as an organ of the two gentlemen who have been by no means unopposed to what it will be. We shall look out for it with some interest.—

The following are the officers elected for the Tobacco Warehouse, Sec. & Tres.; Geo. C. Battle, R. H. Hicks, T. J. Hackney, Board of Directors. The warehouse is to be 48x150 feet and will be built on an acre lot given by Mr. B. H. Bunn, on church street, the other side of Mrs. Sills' house, now occupied by J. H. Jones.—Rocky Mount Clipper.

A severe earthquake is reported to have occurred recently in Western North Carolina. A dispatch says: "Noises were heard in the Blue Ridge Mountains as if a train were rushing through them. On top of the mountain range, near Blowing Rock and Boone, 4,100 feet above the sea level, these phenomena were also observed. The mountains were shaken to the very bottom. A party of tourists on the summit of Grandfather Mountain, 6,000 feet above the sea level, were almost overcome with fear. The noise lasted for quite a time and were succeeded by a grand wave or swell of the earth which made people giddy."

John S. Wise is trying to out do himself. He has laid aside all decency and self respect and all regard for the truth, and his lying abuse of the Democratic party is simply disgusting to the white men of the Southwest, where he is being blackguardism.

His speech at Abingdon last Monday abounded in vile epithets, base insinuations and false assertions, and we are not surprised to learn that it did no good and gained no recruits for Mahoneism. The voters of the Southwest have too much sense to be hoodwinked by such sophistry as Mr. Wise has made use of, and we think the insult he then offered their intelligence will meet with marked resentment and an utter condemnation of the unmanly course he has adopted in thus vilifying the white people of Virginia in order to gain votes for his party.

That cause must be weak indeed when its candidate for the high office of Governor must needs stoop to such methods in order to prop its faltering fortunes.

PERSONAL INTELLIGENCE.
Judge Gilham is in Raleigh.
Judge Howard is in Milton.
Judge Phillips' fall circuit begins at Warrenton on the 9th.
Capt J. H. Thigpen is in town Monday.
Mrs W. S. Clark is very much better.
Miss Minnie McGee is quite sick with typhoid fever.
Mr. S. M. Silvers is confined to his bed with Bilious fever.
Mr. A. Heilbroner returned Tuesday from New York.
Mr. D. Rander returned from the Northern markets last week.
Miss Lizzie Lewis of Goldsboro is visiting Miss Annie Phillips.
Mr. W. S. Clark, Leaves to stay for Northern markets and a fall stock.
Hon. Wm. Barnes and daughters of Florida have been the guests for several days of Col. Geo. W. Latham.
Thos J. Latham, Esq. of Norfolk, has been in town several days this week on a visit to his sister, Mrs. Williams.
Dr J. H. Baker went before last and the week before was in Boston, as a representative upon the Supreme Council of the American League of Honor. The Doctor is delighted with his trip and visit. A magnificent banquet was given the representatives which was attended by the Governor of Massachusetts, and the Mayor and common council of Boston.

AN OLD SOLDIER'S EXPERIENCE.
Calvert, Texas, May 3, 1885.
"I wish to express my appreciation of the valuable qualities of
Ayer's Cherry Pectoral
as a cough remedy.
While with Churchill's army, just before the battle of Vicksburg, I contracted a severe cold, which settled in my lungs, and I found no relief till our march was made to a country store, where, on asking for some remedy, I was urged to try Ayer's Cherry Pectoral.
"I did so, and was rapidly cured. Since then I have kept the PECTORAL constantly by me, for family use, and I have found it to be an invaluable remedy for throat and lung diseases."
J. W. WHITLEY.

National Bank of Commerce, Baltimore.
National Mechanics Bank, 35-41.

UNION WASHER.
(Manufactured by G. A. HOFFMAN.)
This machine is easily operated. Does not get hot. Saves soap time and labor. Also cleans and preserves the health of women.
Put into the machine about five shirts, or a number of smaller pieces that will amount to about the same. Then pour in enough warm soap water to cover the clothing within the machine, and wash the contents for about three minutes by moving the lever back and forth.
After the first washing, add about two hours in warm soap water, the first or after washing will be done.
White stockings and shirt wristbands, when badly soiled, must be soaked before washing. After the first washing or soaking, put your clothes into the machine and pour on enough hot boiler water, and wash for about two or three minutes. This will clean the clothes and will leave them as clean as when first put into the machine.
If the machine is operated or used in the manner recommended, it will be found to be a most indispensable instrument to any family using it.

THIS IS NO HUMBUG.
Try it! Buy it! And tell your friends about it; you will never feel sorry.
Price 12 Dollars.
ED. ZOELLER, (the old man) AGT. TARBORO, N. C.
The Ladies of Tarboro and vicinity are invited to call at his House where Mrs. Zoeller will be pleased to show and explain the Machine.
N. 14

STEAM ENGINES.
TESTIMONIALS:
TARBORO, N. C. June 15, 1885.
MR. WM. HOWARD, Sup't. Edgecombe Agricultural Works, Deas Sir:—After fifteen months use of the 50 Horse Power Portable Boiler and Detached Engine made by T. M. Nagle, Erie, Pa., and purchased of you in April 1884. I will state that I am well pleased with it and believe it to be as good an Engine as is sold here. Mr. Boon who has charge of my Mill says it is a first class Engine, runs smoothly, steams up easy and that he has no trouble with the Engine or Boiler about Four or five days. The Saw Mill made by Tanner & Deane, Richmond Va., and bought of you in Dec. 1884, is all that can be desired in the way of a Saw Mill and is the admiration of all old sawyers who see it.
Yours truly,
L. L. STATON, M. D.
TARBORO, N. C. June 16, 1885.
MR. WM. HOWARD, Sup't. Edgecombe Agricultural Works, Deas Sir:—In December 1884 I bought of you one of T. M. Nagle's Erie, Pa., 35 Horse Power Stationary Boiler and Detached Engine. In Jan. 1885 you asked me for a certificate and I told you to wait until I had had time to thoroughly test it. I have now had time and will say that I am very much pleased and recommend the Engine and Boiler to any one wanting one. I think it steams up as easy and runs more smoothly than any Engine I have ever seen.
Yours truly,
J. D. TAYLOR.
TARBORO, N. C. June 10, 1885.
MR. WM. HOWARD, Sup't. Edgecombe Agricultural Works, Deas Sir:—Your letter of inquiry as to the efficacy of a 50 Horse Steam Engine made by T. M. Nagle, Erie, Pa., we bought of you in November 1884 is to hand. We are highly pleased with the machine, and are glad to be able to say that so far it has abundantly fulfilled every promise you made for it.—indeed the machine accomplishes all that any reasonable man could expect of one of its horse power, running so smoothly and with so little noise as to convince the most casual observer that all of its bearings and journals are in good condition and that its proportions and adjustments are what they should be.
Among the good qualities that the machine seems to us to possess, we have been forcibly struck with the rapidity with which steam can be "got up" and the ease with which it can be maintained at any desired number of pounds pressure even by the most inexperienced fireman, we have no hesitancy in recommending machines of this make and power to any who may be in need of a handy easily managed portable steam engine for general farm work and light grinding.
Yours truly,
Dr. D. W. BULLOCK,
Cap. W. T. BRASWELL.
TARBORO, N. C. June 30, '85.
MR. WM. HOWARD, Sup't. Edgecombe Agricultural Works, Deas Sir:—The 50 Horse Power Portable Engine made by T. M. Nagle, Erie, Pa., purchased of you last September has given me the perfect satisfaction. I run with it a 60 saw gin, feeder and condenser and have ground 150 bales of cotton that averaged over 500 pounds in one day. It steams up well and has plenty of Power to run any one gin I found fit not only a great convenience but it saves more than the cost in mule feed.
Yours truly,
E. CROMWELL KNIGHT,
TARBORO, N. C. June 13, '85.
MR. WM. HOWARD, Sup't. Edgecombe Agricultural Works—Deas Sir:—In reply to your inquiry as to how I like the 50 Horse Power Portable Engine made by T. M. Nagle, Erie, Pa., and purchased of you last fall, I will say that after using it last season I am very well pleased with it and as far as I know it is as good as any Engine made. I recommend it to all who want an Engine to gin cotton.
Yours truly,
R. J. KEECH.
TARBORO, N. C. June 29th 1885.
GENTS.—The ten horse engine purchased of you last fall performs its work in a most satisfactory way, and has more than the indicated power which enables it to work without any strain, and readily supply the power intended.
Yours truly,
JNO. L. BRIDGERS.
