Baby One Solid Rash.

Cured by Cuticura. Our oldest child, now six years of age, when an infant six mo the old was attacked with a virulent, malignant skin disease. All all ordinary remedies failing, we called our family physician, who attempted to cure it; but it spread with almost incredible rapidity, until the lower portion of the little fellow's person, from the middle of his back down to his knees, was one solid rash, ugly, painful blotched and malicions. We had no rest at night, no peace by day. Finally we were advised to try the Curtoural Remedies. The effect was simply marvelous. In three or four weeks a 'complete cure was wrought, leaving the little fellow's person as white and healthy as though he had never been attacked. In my opinion, your valuable remedies saved his life and today he is a strong, healthy child perfectly well, no repetition of the disease having ever occurred. GEO. B. SMITH.
