TO THE PUBLIC.  
I am Prepared to do all work in  
the shortest notice. Having con-  
nection with my shop the repairing  
business. All work left at my shop  
shall have Prompt attention.

PRICES MODERATE.

Also a first-class HEARSE for hire.  
Thanking my friends for their  
former patronage, I hope to merit  
the same, should they need anything  
in the Undertaking.

—OR—  
Repairing Business

My Place is on Pitt Street Three  
Doors from the Corner of Main

E. J. SIMMONS.

\$525 Agents' profit per month. Will  
prove it or pay forfeit. New  
agents just out. A \$3.00 sample sent  
by mail. W. H. Chidester & Son, 38  
Broad St., N. Y.

**NEW GOODS**

I AM NOW OPENING  
**FALL**  
—AND—

**Winter Goods!**

WHICH WILL BE SOLD  
**CHEAP.**

—You are cordially invited to  
W. R. RICKS,

Pender & Cotten's Old Stand.  
Tarboro, Oct. 20th.

**Shortening the Difficulties.**

John—"I'm going to kiss you."

Amy—"Amy (screaming)—Ow-ow-

wo." John—"Great Scott! What

was that for? I haven't kissed you yet."

Amy—"But, I thought I'd

have that part of it over and done with."

**Gone.**

The Weever flag—the Knight's stan-  
tion, the only one in the county, dis-  
appeared last Thurday night. The  
old was cut down and the flag car-  
ried away. Its disappearance cre-  
ated some talk, and a little feeling,  
but the thunders it was so scared in that  
neighborhood it only lasted a few  
hours. It is not clear who cut it down.

Of course the Democrats are  
charged with it, but none here or in  
No. 3 knows anything about it.

**Deserving Praise.**

We desire to say to our citizens,  
that for years we have been selling  
Dr. King's New Discovery for con-  
sumption, Dr. King's New Life Pills,  
Buck's Amica Salve and Electric  
Bitters, and have never had re-  
quests that sell as well, or that have  
given such universal satisfaction. We  
do not hesitate to guarantee them  
every time, and, we stand ready to  
refund the purchase price, if satis-  
factory results do not follow their  
use. These remedies have won their  
great popularity partly on their  
merit and partly on their mer-  
it.

**Shamer sued.**

RALEIGH, Nov. 2.—The arrest and  
bringing here of State Election Regis-  
trar R. G. Reid by A. W. Shaffer,  
United States Supervisor of Elec-  
tions, has proved one of the greatest  
negligences of the campaign at Demo-  
cratic State headquarters. To-night  
news was received that Reid had  
brought suit against Shaffer for \$10,  
000 for false arrest. Summons for  
Shaffer has been issued. Suit is  
based upon the opinion by the State  
Attorney-General that neither Shaf-  
fer nor his supervisors have any  
power to make arrests and that his  
action was entirely illegal.

**Beautiful Marriage.**

There was a large gathering at  
Calvary Church last evening to wit-  
ness the marriage of Miss Jane E.  
M. to R. E. Moore, both of this  
place. The ceremony was performed  
by Rev. Geo. P. Hebbard.

The waiters were, H. T. Lathan  
with Miss Katie Ward, and Frank T.  
Day with Miss Carrie Horne. C. B.  
Mahagan and R. E. L. Cook acted as  
ushers, and did it in admirable style.

After the ceremonies at the church  
the invited guests repaired to the  
residence of C. F. Clayton, where a re-  
ception was held until a late hour in  
the night. The table was heavily  
laden with every imaginable delic-  
acy that the appetite of man could  
crave, and the fragrance of the beau-  
tiful flowers mingled with the fair sex,  
made everything lovely.

Mr. and Mrs. Moore were the recip-  
ients of a number of beautiful and  
useful presents.

The Southerners proffers kind  
wishes for their future happiness  
through life.

**Catarrh, Not Local, But Con-  
stitutional.**

Dr. Dix Lewis, the eminent Bos-  
ton physician, in a magazine article

says: "A radical error underlies nearly

all medical treatment of catarrh.

It is not a disease of the man's nose;

it is a disease of the man, showing

itself in the nose—a local exhibition

of a Constitutional trouble." There-  
fore, he argues, the use of snuff and  
other local application is wrong, and  
while they seem to give temporary  
relief, they really do more harm than  
good. Other leading authorities agree  
with Dr. Lewis. Hence, the only  
proper method of cure for catarrh is  
by taking a constitutional remedy  
like Hood's Sarsaparilla, which  
reaching every part of the body  
through the blood, does eliminate all  
impurities and makes the whole man  
healthier. It removes the cause of  
the trouble and restores the diseased  
membrane to proper condition. That  
this is the practical result is proven  
by thousands of people who have  
been cured of catarrh by taking  
Hood's Sarsaparilla.

**Robbed and Murdered.**

The outline given of the murder  
of a colored man on night of 28th,  
near Whitakers was correct except  
that the victim did not recognize his  
assailants. The murdered man was  
named Haley Wilkins, a carpenter of  
Enfield, who had been working in  
Whitakers. Saturday he left on the  
"shoo fly" for Enfield with a negro  
boy named Tom Wilcox. The same  
evening the two left Enfield to re-  
turn to Whitakers. Near the creek  
at the road crossing he was found cut

his body broiled and the prints of  
finger nails on his throat.

Amy—"Amy (screaming)—Ow-ow-

wo." John—"Great Scott! What

was that for? I haven't kissed you yet."

Amy—"But, I thought I'd

have that part of it over and done with."

The lines were in both cases  
stretched between a white pine bush  
that clinged up one side of the win-  
dow and a purple clematis that oc-  
cupied and draped the opposite mul-  
tion. But Lucy and Eliza didn't live  
in the web—those were only their  
snare of traps for prey; each of  
them had in addition a private house  
or apartment of her own under shelter  
of a rose leaf at some distance  
from the treacherous geometrical  
structure.

The house itself consisted more  
of a silken web, built out from the  
rocks, and connected with the  
seas by a stout cord of very solid  
construction. On this cord the spi-  
ders kept one foot—I had almost  
said one hand—constantly fixed.

She poised it lightly by its claws,  
and whenever an insect got entangled  
in the web, a subtle electric mes-  
sage, so to speak, seemed to run  
along the line to the ever-watching  
cavortress.

In building their web, as is many  
other small points, Lucy and Eliza  
showed from the first no consider-  
able personal differences.

As in short second Lucy or Eliza,  
as the case might be, had darted out  
upon her quarry and was tackling it  
right and main, according to the  
particular way its size and strength  
rendered them then and there advisable.

In building their web, as is many  
other small points, Lucy and Eliza  
showed from the first no consider-  
able personal differences.

In either case, however, the first  
thing done was to stretch some eight  
or ten stout threads from place to  
place on the outside of the future  
web, to act as points d'appui for the  
remainder of the structure.

To these outer threads, which the  
spiders strengthened so as to bear a  
considerable strain by doubling and  
trebling them, other thinner single  
threads were then carried radially  
from a point in the center  
where they were all made fast  
and connected together.

As soon as this radiation frame-  
work or scaffolding was finished, like  
the wool on a loom, the industrious  
craftswoman started in the middle  
and began the task of putting in the  
crosspieces of web, which were to  
complete and bind together the circular  
pattern.

These she wove round and round  
in a continuous spiral, setting out at  
the centre and keeping on in ever-  
widening circles, till she arrived at  
last at the exterior or foundation  
twine.

How she fastened these cross-  
pieces to the ray-lines I could never  
quite make out, though I often fol-  
lowed the work closely from inside  
through the pane of glass with a  
playscope lens; for strange to say,  
the spiders were not in the least dis-  
turbed by being watched so closely.
