THURSDAY, . . . . . Jan. 11, 1894

For the first time in eight years the State of Massachusetts is under full Republican control.

Mr. Chauncey M. Depew predicts that this year will see such a prosperous one for most people as to make '94 ashamed of itself.

The Ohio Farmers' Alliance demand the removal of Secretary of Agriculture Morton. The New Jersey Alliance also passed a resolution against Secretary Morton.

The American Tobacco Company has declared a quarterly dividend of two per cent on the preferred and three per cent on the common stock, payable February 7th.

For the first time in seventy-five years the State of New York, in footing up its accounts, finds itself out of debt and with a surplus in the treasury.

England is having hard times. Its leading securities declined nearly \$500,000,000 in value during the past year. Its imports fell off \$87,500,000 and its exports \$82,500,000.

A girl is considered of marriageable age at 12 in Switzerland, Spain, Greece, Hungary and Portugal. In America she is marriageable whenever she can get her dower.—Chronicle.

Five large iron mills at Pittsburg resumed operations this week, giving employment to several thousand men. About 800 employees will be given work by the resumption of knitting mills at Amsterdam, N. Y.

A committee of the Kansas State Labor Federation went on Governor Leavelle and demand the removal of Labor Commissioner Todd. The Governor refuses. The committee then threaten to "roast" the Governor, whereupon he tells them to "roast and be d—d."

Andrew Carnegie may look out for Carnegie, but he carries around a heart with him nevertheless. In addition to keeping his mills open during the winter, he has offered to give another dollar given by any one else for the support of the poor in the city of Pittsburg.

The bombardment of Rio Janeiro has been stopped because the American and German naval commanders notified Admiral Gama on last week that they would not permit further bombardment of the city until further anchorage for merchant vessels loading and unloading should be guaranteed.

There is one thing admirable in the Republican party. When it has the authority it uses it. When it has the power it employs it to carry out its policy. No division weakens it, no hesitation hinders it, no cowardice causes it to waver. In this respect the Democrats in Congress may well learn from their adversaries.—New York World.

There is a lazy man in California who doesn't believe in working his passage when he rides his bicycle, so he has rigged it up with sails and when the wind is right, and the roads good, he scoots along at from twenty to thirty miles an hour. All he has to do is steer and grip at the other fellows who are bumping themselves to keep up.

The first half of the present fiscal year ends with an inroad on the Government cash balance of \$34,000,000. The receipts for the time were \$155,000,000 as against \$144,000,000 for same period of 1892, while the expenditures were about \$1,000,000 less. The debt statement, to be issued Tuesday, will show a net cash balance of \$89,261,000 against \$122,500,000 July 1st, last.

Keasly & Mathison, Chemists, of Kambler, Pa., have bounced all the Democrats in their shop, and given notice that they will employ none but Wilson's pills. As the majority of the people in the South are Democrats, we should advise those who deal in drugs, to wipe Keasly & Mathison from their lists, and not purchase any of their goods, directly or indirectly.

North Carolina to the Front.

To the Editor of the Southerner:

The people of the old North State, most assuredly succeeded well in hiding their light under a bushel. There are no more worthy or law abiding people to be found in the broad earth. Unfortunately their light is so well hidden they are not acquainted with themselves; they are not aware of their many merits and many traits which entitles them to be ranked among the first. They certainly owe a great duty to themselves, to become well informed of their own history and knowing it, then see that other people are made to recognize and give credit for their many honorable deeds. Let the people cultivate a manly sentiment and appreciation of their own worth, and it must follow that others will give honor where it has been so long due. In the great struggle between the States, North Carolina was foremost on the Confederate side in qualities that make a manly and patriotic people, and let us demand and persist until our worth is acknowledged and appreciated. From the war records the government is having printed, we get the facts without favor or prejudice, look at the following extract from the New York Times. Every citizen should read it carefully, and never forget, and when he dies be proud that North Carolina is his resting place:

This is the book of revelations as to both sides in the civil war. On the Confederate side North Carolina lost more soldiers killed than any other Southern State. The following was the total loss in killed and mortally wounded of several of the Southern States: North Carolina, 14,522; Virginia, 9,528; South Carolina, 5,807; Louisiana, 3,714. North Carolina heads the list in the number that died of wounds, and 20,602 of her sons died of disease. North Carolina's military population in 1861 was 115,869, but she furnished 125,000 to the Confederate cause. The percentage of lost, killed and wounded was greater in the Confederacy than in the Union armies. At Gettysburg the 28th North Carolina, of Pettigrew's brigade, went into action with over 800 men, and lost 558 in killed and wounded. The 26th North Carolina had only 216 men left for duty when it went into Longstreet's assault on the third day, and on the following day but 80 men were left. On the first day Capt. Tuttle's company went into action with three officers and 83 men. All of the officers and 83 of the men were killed or wounded. On the same day Company C of the 11th North Carolina lost two officers and 34 out of 85 men, killed or wounded. Capt. Bird, of this company and the four remaining men then went into what is called Pickett's charge. The flag bearer was shot and Capt. Bird brought out the flag himself. This was the severest regimental loss during the war. The percentage of regimental, brigade and division losses of the Confederates were terrible.

This great fact is but little known, it should be published by the press, and taught in the schools. Let the people know their history, and that make them the stronger to rise higher, and fulfill the destiny of a free and Christian people.

"Fat Doctor Bills Make Bean Will."

but Dr. Sage's Catarrh Remedy costs less than one doctor's visit. Catarrh is a loathsome, dangerous disease, and the time has come when to suffer from it is a disgrace. No person of culture and refinement cares to inflict upon his friends his offensive breath, disgusting hawking and spitting and disagreeable efforts to breathe freely and clear the throat and refine up the cultured and refined up Dr. Sage's Catarrh Remedy. And no wise and prudent man cares to run the risk of leaving his family without a protector, by letting his "slight catarrh" run into serious or fatal throat and lung troubles, hence the wise and prudent use Dr. Sage's Catarrh Remedy. The proprietors of this remedy are so confident in its curative properties, that they have made a standing offer of a reward of \$500 for a case they cannot cure.

A well posted farmer of Mecklenburg was talking to his neighbor, and said that according to his observation, while 1893 was a bad year generally in financial circles, it was a comparatively good year for the farmers of this section. "I really believe," he said, "that our farmers are better off now than they have been in years past. They raised a surplus of everything, and instead of buying corn, as they have done for some years, you now see them selling it. Nearly every farmer of my acquaintance has had corn to sell. They are less in debt now than they were a year ago, and are steadily swinging a system of cash business. If they hold their own this year, and improve at the rate they did last year, 1895 will find them very nearly if not quite independent. It may be thought by many that the gold mines in this locality adds very little to the industry and wealth of the land. That, however, is because the commerce of Charlotte is so enormous and so because the gold output of this vicinity is so insignificant. These figures will show: In the month of December there was \$24,000 worth of gold taken in its raw state to the United States assay office in this city. Nearly all of this gold was taken from the bowels of Mecklenburg, and found its way into the commercial channels right here in Charlotte.—Charlotte News.

Real Merit

Is the characteristic of Hood's Sarsaparilla, and it is manifested every day in the remarkable cures this medicine accomplishes. Druggists say: When we sell a bottle of Hood's Sarsaparilla to a new customer, we are sure to see him back in a few weeks after more,—proving that the good results from a trial bottle warrant continuing its use. This positive merit Hood's Sarsaparilla possesses by virtue of the Peculiar Combination. Proportion, and Process used in its preparation, and by which all the remedial value of the ingredients used is retained. Hood's Sarsaparilla is thus Peculiar to itself and absolutely unequalled in its power as a blood purifier, and as a tonic

io for building up the weak and weary, and giving nerve strength.

STATES ITEMS.

W. Purrington, a prominent young man of Scotland Neck, died at his home at that place last Thursday, aged about 26 years. The Great Falls Company has sold one half interest in their canal, near this town, to a wealthy Northern syndicate, and we learn that two large mills are to be erected at once.—Weldon News.

Our citizens were shocked to hear the sad intelligence on Monday morning that Mr. William Taylor is no more. He died suddenly that morning at about 4 o'clock, caused by heart disease. . . . We learn that the stable of Mr. Ashley Tiner, with two mules, buggy, wagons, and all farming implements were destroyed by an incendiary fire Monday night. Goldsboro Headlight.

From the time the first of this season's crop was brought into market up to the first of January, 1894, about four thousand bales of cotton have been sold. This is about twice what was sold during the whole of last season, and there is still a large amount of cotton remaining in the farmers' hands. . . . After being quiet for the holidays our tobacco market opened again for the year 1894 on Tuesday last. Owing to the bright, dry weather but little tobacco has been sold this week.—Rocky Mount Argonaut.

On Sunday morning about 6 o'clock fire broke out in Mr. J. R. Weeks' store at Tillery, and before sufficient help could reach the scene the building was entirely consumed with its stock of goods. Three other buildings were also consumed. Mr. P. G. Riddick's store, the building in which Mr. Jas. M. Tillery kept the post office and a beef stall. Mr. Weeks' loss was about \$2,500 with \$1,000 insurance. Mr. Riddick's loss could not be exactly estimated.—Scotland Neck Democrat.

At Lake Bailey, where a turkey shooting was going on Friday evening last, Preston Lewis, a colored man, of Whites' township, tried an old army musket, but missing the mark and being anxious to secure a turkey for 10 cents resolved to try it again, and put in an over load. The result of which was the bursting of the gun into many pieces and causing a number of shot to enter one side of his face, fortunately none went into his eye. A small piece of the barrel and some shot also entered his left arm.—Windsor Ledger.

There are seven white female convicts in the penitentiary. There is one Croatan Indian woman. One of the white women is serving a life sentence and two are in for twenty years. There among these women two sisters, from Iredell county. The number of convicts in the prison today is 124. The health of all has been above the average during the past twelve months. The record for behavior has been generally good and the officials have had very little trouble.

The last report to the superintendent showed that there were seventy-five convicts at Castle Hayne farm, 149 at the Northampton dike, 133 at the Caledonian dike, 132 at the Halifax farm, 222 at the Northampton farm, 232 at the Caledonian farm. Of the considerable number of negro females four are serving life sentences.

O woman despairing and wretched. Dreading, yet longing, to die. Hear the glad chorus that rises, Filling the dome of the sky: "sisters, be glad, there's help to be had; No longer be miserable, gloomy and sad; Look to the right, and to the left, "Poor creature, be healthy and happy again."

How? By taking Dr. Pierce's Favorite Prescription, the world's greatest remedy for all kinds of diseases peculiar to women. It brings back tone and vigor to the system weakened by distressing complaints known only to women, which make life such a burden. It restores relaxed organs to a normal condition. It fortifies the system against the approach of diseases which often terminate in untold misery, if not in death—which is preferable to the pain and torment of living, in many instances. It is the great gift of scientific skill and research to women, and for it she cannot be too grateful. It cures her ills when nothing else can. It is guaranteed to give satisfaction or price (\$1.00) returned. Absolutely safe on trial!

On Wednesday, the 27th, near the town in an old field, the body of Richard Hearne was found with a bullet hole through his head. Mr. Hearne had been living in Wilson for about a year, as clerk in the grocery store of Mr. Stewart, on Tarboro street. He was a quiet, unobtrusive man, and if he had an enemy none knew of it. So the idea that he was murdered is hard to entertain, as no one knows of any motive that any one had for so dastardly a deed. Yet he can find any reason for suicide. He had a nice little business about 8 o'clock Tuesday afternoon telling the other clerk that he would be back after awhile, but was not to be alive any more at the store. . . . A negro man in Wilson, in trying to shoot a big gun turned the muzzle down into a well. The explosion burst the shell and shattered his right hand that Dr. Moore, and Albert Anderson had to amputate it just above the wrist. . . . At his home in Wilson on Sunday, December 24th, 1893, James R. Roberts passed quietly yet suddenly from time to eternity. He was in the prime of life, being only 32 years of age.—Wilson Mirror.
