**'DEMOCRACY IS IMMORTAL'** THE WORD DEMOCRAT STANDS FOR HUMAN LIBERTY AND HUMAN FREEDOM, AND CANNOT DIE.—SENATOR VANCE.

We wonder if D. B. Hill can say in the Fall campaign, "I am a Democrat."

The W. N. Carolina Railroad is to be sold by Mr. Chas. Price of Salisbury.

President Cleveland has gone down the Potomac for a few days salt water fishing and re creation.

Chairman Wilson, who has been South for his health has so far recovered as to be able to return to Washington. He says he will take part in the coming campaign.

No appointments, except those of foremanship, are to be made by Public Printer Benedict until he has reduced the force which he found nearly twice as large as it ought to be.

Washington City is going through an old fashioned small pox scare. It has been on for nearly a week and the arrival of a negro from Chicago, on Saturday, with the disease fully developed has aggravated it, and the doctors are reaping a harvest. Edward and his wife and children are getting vaccinated.

Mr. Aiky News says: Printing offices are not run for the fun of the thing. They are business enterprises, pure and simple. It is just as logical to ask a newspaper man to donate a certain amount of cash to a private enterprise as to give the use of his type without even an acknowledgment. How many there are who forget this fact when they have a concert, lecture or other entertainment that they may come in the list—just when they want from 50 cents to \$5 worth of gratuitous advertising.

The sad news comes from Venezuela that the cities of Merida, Lagunillas, Chiguara, and San Juan, situated in the northwest of the Republic in the region of the Andes, are reported as having been totally destroyed by a fierce shock at 11 o'clock on the night of the 28th. Many villages are said to be wrecked but details are not yet to be had. The convulsion extended to parts of the adjacent Republic of Columbia. The full details of the catastrophe will be learned slowly, but it is probable that 10,000 people have perished, and it is certain that the greatest suffering prevails in the places visited by the earthquake.

The Chief Justice and Justices Avery and Burwell, whose opinion was asked by the Governor as to whether certain of the Judges appointed to vacancies held for the term or only till successors should be elected at the approaching election, have given an opinion that they do not hold for the term and that successors are to be elected at the approaching election. In reaching this conclusion they say that they are governed largely by the construction which the Legislature has put on the Constitution. This opinion settles the matter, and the people will nominate and will elect in November.—News-Observer.

The knot has at last been cut, and Mr. F. M. Simmons' appointment has been confirmed by the Senate. The News Berner Journal says: Brief as it is it tells a very satisfactory piece of news. We are glad to know the matter is decided. Never did a man work more faithfully or more energetically in a campaign than did Mr. Simmons in the last one. When the campaign opened clouds of threatened defeat hung heavy over the State by reason of defection to Third party ranks, but election day showed the counsels of the enemy were brought to naught, and the result was in no small degree attributable to the watchful skill and generalship with which as Chairman of the State Democratic Executive Committee managed the campaign. The office which has been bestowed upon him is small enough recognition of his faithful and successful services.

**THE COUNTY SUPERINTENDENT.**

It seems to us that the office of County Superintendent of Public Instruction is a very important one, and he who holds it should be a man well qualified in many respects. In the first place, he should have the interest of education at heart, and especially the education of the people by the means allowed by the present system of public schools, in vogue all over our State. In the next place, he should be a man, who "has the time to attend to this office as it should be attended to," not carelessly or indifferently as is so often the case in a good many counties in this State. In the third place, he should be a man of good education himself, who knows what he is doing, and understands his business. A great responsibility rests upon a County Superintendent of Public Instruction.

Teachers are to be examined, and certificates given fairly and impartially, based not upon personal grounds, but upon true merit. Competent teachers of our public schools can be obtained only by fair, but rigid examinations. In connection with the work of the Superintendent should be a first class Board of education, to manage the finances and exercise general management of the whole system.

Edgewood has, for the last few years, had the most competent public school scholars both white and colored, of any county in the State. We make this assertion without the least fear of contradiction, and it has come to pass that a first grade certificate, and even the second and third grades means something. Incompetent persons cannot teach public school in this county.

In the last place we would urge the election of a first class Superintendent, because it is a fact just at this time, that a great many people are not able to send their children to private schools. Times are hard and money is scarce. Give our people the very best the money can afford. Give us brainy men to manage our educational interests. Give us first class men to manage our public schools. Make our public schools strictly first class in every respect. The magistrates have this matter in charge and will make the selection next month, on the first Monday. They will do their duty.

**Coxy Breaks Camp.**  
WASHINGTON, D. C. May 12.—Carl Browne woke the Coxy army up at day break this morning and as soon as they could get breakfast all hands were set to work breaking camp and packing the loads and cooking outfit in the wagons, which left for Edgewood with an advance guard of twenty-five men at 6 o'clock. For the next two hours the entire force was busily engaged in clearing up the old site, burning the straw bedding and leaving the spot in much better condition than they found it. Just before leaving, Browne harangued his followers and told them he had to report to come to receive sentence and that young Jessie Coxy would be in command until he returned. He could not say when that would be as he might be sent to jail, but he begged them to obey Jessie implicitly and threatened that dismissal in disgrace would immediately follow any insubordination against Jessie's commands. He said he did this because he and Jessie had a row some time ago, and he wanted to show the men that all was now harmonious. Then Lear the Capitol, less than a mile from camp, the string out along the curb stone for two blocks in the shade tree and listened to some dorky banjo players who were recruited yesterday.

The people in the suburbs of Washington adjoining the proposed new camp of the Coxyites have appealed to the Governor of Maryland to prevent what they term an outrage on their property rights. With the unanimity which seems to prevail in other communities they showed a willingness to aid the Coxyites to descend upon the National Capital, but decline to save them in their own neighborhood. In the little town of Hyattsville, (celebrated for its adoption of the Henry George Single tax system, now overthrown by the courts), the citizens rang the fire bell last night when the news reached them, to call an indignation meeting to protest against having the Coxy camp in their neighborhood.

Two hundred strong they marched in a body to the residence in Edgewood, of J. H. Rodgers, who had tendered the new camping ground. They received such satisfaction from each the elder Rodgers, or his son J. Harry Rodgers. These gentlemen will be remembered as some six or seven years ago in connection with the pan electric telephone investigation by Congress. Both of them announced themselves as Coxy sympathizers without approving his methods. Then the citizens left in an indignant frame of mind, and later Col. Wright River, a retired officer of the United States

Army, who lives near by, telegraphed to Governor Brown, of Maryland, as follows:

"I have written you Coxy will arrive at Edgewood tomorrow. Don't allow his hordes to put our property and lives in peril."  
The Governor's reply is anxiously looked for by the citizens.

**A Jury Composed of Women**  
Such an announcement may seem strange, but it is a fact. The jury was an immense one, and the trial has lasted for many years. We refer to the trial of Dr. Fisher's Favorite Prescription. As to its merits, there has been a unanimous verdict rendered in its favor. Indeed it would be impossible to get together any number of ladies who had given it a trial who could come to any other conclusion. It cures ulcers, displacements, removes the tendency to nervous affections and corrects all unnatural discharges. To those about to become mothers, it is a real boon, for it lessens the pains and perils of childbirth, promotes the secretion of an abundance of nourishment for the child and shortens the period of confinement.

**WASHINGTON LETTER.**

(From Our Regular Correspondent.)  
WASHINGTON, May 12, 1894.

The nomination of Hon. F. M. Simmons to be Collector of the Eastern North Carolina District was confirmed by the Senate late Wednesday afternoon. The many friends of this gentleman throughout the entire State will feel that at last a worthy Democrat has received a part of his just deserts.

Senator Ransom's Committee room is just now the scene of some very busy work. He has three men fixing the River and Harbor bill so as to do the best thing possible for North Carolina. The House appropriations bill will be increased by our Senator, the Cape Fear river and Harbor being scheduled for a double amount. Senator Ransom will do his best as usual by all our Rivers and Harbors and Harbors and Lighthouses.

Representative Crawford and Mr. George H. Sumners have prepared an amendment to an appropriation measure to be submitted to the Committee, paying the heirs of Thomas, etc., \$8,000.  
Representative Crawford and Mr. Eugene Waugh, of Surry, saw the President Wednesday. Mr. Cleveland said he was delighted with his North Carolina fishing frolic, and proposed to go again. He expressed a lively interest in the speckled trout of the mountain streams.

Representative Bunn called at the White House in the interest of Walter E. Henry, Wednesday, but as the President had gone to Fredericksburg, did not see him. Mr. Bunn also called at the Postoffice and War Departments.

Representative Henderson and Postmaster Sherman are trying to induce the department to change the site of the Concord office to Gibson's drug store.

Representative Grady called up, and the public building Committee authorized him to report favorably. Representative Bower's Winston building bill for \$75,000.

Representative Alexander appeared before the Senate Committee on the diagram and description of the Chesapeake and Potomac estuary, and urged action on his bill to lease a portion for park purposes. As the Committee had not heard from the Treasury Department the matter was postponed.

Representative Branch was at the War Department and learned from the chief of staff engineers that as soon as the engineer's final report on the Ocroakee Inlet was received that important improvement, contracted for by the last Congress, would begin. The danger is in cross currents.

Representative Woodard has secured the appointment of A. T. Hill, of Lenoir county, to a place in the Treasury Department.  
Marion Butler is here attending the meeting of the National Alliance. He appeared before the Postoffice Committee of which Mr. Henderson is Chairman and gave his opinion of the Government ownership of the telegraph.

The new scheme for saving the people's money, by cutting off useless employees some of the departments has not yet been formally incorporated. It will, however, go into effect in a few weeks in the War Department. In the Treasury there is to be under the Dockery Commission, a comprehensive consolidation of work so as to make the service more effective at smaller cost. That great deflator has never received under any Secretary's control, when Mr. Carlisle seems disposed to initiate reform, that entire overhauling of methods and elimination of barnacles, which is so essential occasionally for every department of Government. Some of Secretary Carlisle's reforms are not praised by civil service reformers, although I do not know of any violation of the civil service law.

In all the departments and independent bureaus there is room for radical administrative reform—not only in the number and pay of the employees, but in the assignment, order and quality of their work. At the Capitol, this reform ought to be introduced also. There are at least one hundred useless men employed by the Senate and the House, some of whom have told me what a tiresome business it was to have to "hold a chair down" for hours at a time with booting to do. These useless Major Graham does in Washington for North Carolina, looking up Carolina colonial and revolutionary history. He spends most of his time among the treasures of the State Department. Some years ago he authorized this research into the State's history and Major Davis is conducting the Washington end. As all others find who have once started delving in to the mines of the State Department, he discovers that he does not like to stop, although his work is nearly rounded out. He has secured a large quantity of original material and will fill in several gaps in the history of revolutionary times. At present he is engaged in the story of General William Davidson and the defeat at Cowan's Ford by Cornwallis.

Mr. Hoffman was yesterday ap-

pointed postmaster at Hickory, N. C.

The Tariff debate in the Senate is dragging along.  
Coxy and his army have been ordered out of Washington by the Health Officer. They will camp in Maryland if the citizens of that State will permit it. One soldier died yesterday. Typhoid fever developed in the camp several days ago.

The President and his Cabinet with other distinguished guests went to Fredericksburg, Wednesday to assist at the unveiling of the monument to the mother of George Washington. Mr. Caldwell, of the "Observer" in my opinion, one of the foremost editors in the South, spent several days in this city, last week. He spent a delightful evening at the home of Vice President Adlai E. Stevenson, of whom he is a warm admirer. He is for Adlai for President.

Tired, Weak, Nervous,  
Means impure blood, and overwork or too much strain on brain and body. The only way to cure is to feed the nerves on pure blood. Thousands of people testify that the best blood purifier, the best nerve tonic and strength builder is Hood's Sarsaparilla. What it has done for others it will also do for you. Hood's Cures. Nervousness, loss of sleep, loss of appetite and general debility all disappear when Hood's Sarsaparilla is persistently taken, and strong nerves, sweet sleep, strong body, sharp appetite, and in a word, health and happiness follow the use of Hood's Sarsaparilla. The strong point about Hood's Sarsaparilla is that they are permanent, because they start from the solid foundation of purified, vitalized and enriched blood.

**STATE ITEMS.**

Mr. Geo. N. Ives received a telegram yesterday stating that members of the United States Fish Commission would be down to-night with 400,000 young shad to put in Neuse river.—New Bern Journal.

Superior Court Clerk Wilkes has received a list of lands in Texas that belong to old soldiers or their heirs. Some of these lands are now very valuable and those interested would do well to see him.... An eight year old boy by the name of Tucker, while fishing Monday on a raft near Short's mill, with two other boys, fell in the river and was drowned. One of the boys was almost drowned in attempting to save him.—Wash Gazette.

A private letter received here announces the death of Mr. Rufus Apicor, which had occurred at his home at Greenville, Miss. last Friday after a brief illness.... Pursuant to adjournment of a meeting of the citizens of the county will be held at Halifax, Monday the 4th of June, and every white voter in the county is most earnestly requested to be present. Matters of importance will be discussed, and every one should attend whether in favor of or against the meeting.—Weldon News.

Postoffice Inspector, Mr. Wm. Concord, has caused the arrest of Ezekiah Cook, better known as Rev. Ezekiah Cook, the postmaster at Oberlin, near this city, on the charge of paying for merchandise in postage stamps, contrary to the statutes of the United States, and for making false returns of cancellations to the Postoffice Department. Cook was yesterday bound over to court in the sum of \$300 and committed to jail in default of bond.—N. O. Chronicle.

We hear reports from Stantonburg township, that great swarms of locusts have appeared in that section. This is a pest that our country has heretofore been pretty well clear of and it is to be hoped that Mr. Cleveland will take some prompt action looking to their immediate extermination.... On the 17th of May the Wilson Stock Association will hold a show on the grounds, just outside of town.... Sten Allen, colored, employed at the Planter's warehouse, had his foot badly mashed last Friday.—Wilson Mirror.

**Billed Pass Excellent.**  
An ancient story, tells of two unfortunate who were condemned to make a long pilgrimage with poles in their shoes. The feet of one of them at the end of the journey were terribly sore and swollen. His companions were not hurt in the least. Being asked the reason he replied, "I boiled my peas." Wise men will should men and women and children make the pilgrimages of life with poles and soles troubling them, not only in their feet, but all over, when a simply remedy will effect a cure. Dr. Pierce's Golden Medical Discovery is potent to cure dyspepsia, "liver complaint," sea sickness and kindred troubles arising from the same source.

Alex. Ross, the Allegheny county lyncher, who has been confined in the Forsyth county prison for several months past, has been set at liberty. It will be remembered that he recently turned State's evidence and his bond has just been approved by Solicitor Barber. Notice of his liberation was received Sunday morning by James Ziglar.... The Populists of Forsyth, are opposed to fusion with the Republicans. Several who were here Monday were questioned on the subject. Without exception they spoke adversely to joining hands with the Republican or any other party.—Winston Sentinel.

CONTAGIOUS BLOOD POISON is in all its stages completely eradicated by Dr. S. S. Swift's Swift Specific, which restores the system to its normal condition. A reliable remedy for the cure of all blood poisons. SWIFT SPECIFIC CO. Atlanta, Ga.

The House Committee on Labor has made a favorable report on Chairman McGann's resolution for the appointment of a select committee to be composed of four Representatives and three Senators, to investigate the industrial depression and make a report to Congress within 30 days, if possible giving the cause and suggesting a legislative remedy.

**Best in World**  
The Judgement on Hood's Pronounced by Squire Fogg.

"The use of 'Castoria' is so universal and its merits so well known that it needs no word of advertisement to endorse it. Few are the intelligent families who do not keep Castoria within easy reach."  
"For several years I have recommended 'Castoria,' and shall always continue to do so as it has invariably produced beneficial results."  
EDWIN F. FARRER, M. D., 12th Street and 7th Ave., New York City.

The following testimonial comes from T. M. Fogg, Esq., who is well-known throughout Kentucky as a stout justice and justice of the peace for both counties. His words should invoke the confidence of all who read his letter:  
"G. I. Hood & Co., Lowell, Mass.  
"I will say for Hood's Sarsaparilla, I believe it to be the best medicine in the world. In the winter of '91 I had a bad case of the grip which left my system in very bad shape. I tried everything I could find and got no relief. In the fall of the same year I tried a bottle of Hood's Sarsaparilla. The first dose I took made a decided change for the better. When I began taking the first bottle my weight was 127 pounds, the lightest since I was married. By the time I had finished the second bottle my weight was 135 pounds. I own all this to Hood's Sarsaparilla and I gladly recommend it to all sufferers." T. M. Fogg, Justice of the Peace, Sharpburg, Kentucky.

Hood's Cures  
Hood's Pills cure liver bile, constipation, biliousness, jaundice, sick headache, indigestion.

I desire to say to the public and the ladies especially that I now have my Hair Preparation so that I can arrest the falling out of the hair within 12 to 15 days, and this will readily see if you will give it a trial. Hair also thickens from its use. It has no unpleasant odor and leaves no danger of contracting neuralgia, colds, etc. It cures itching scalp and makes the hair grow again. Young men will please make a note of this. Nothing asked to show the truthfulness of the above except a fair trial of CULLEY'S BALD HEAD PREPARATION. Good references given to show that the hair is thick if not thicker than ever.

Young men will please make a note of this. Nothing asked to show the truthfulness of the above except a fair trial of CULLEY'S BALD HEAD PREPARATION. Good references given to show that the hair is thick if not thicker than ever.

**FOR FALLING HAIR, -USE CULLEY'S- Bald Head Preparation**

I desire to say to the public and the ladies especially that I now have my Hair Preparation so that I can arrest the falling out of the hair within 12 to 15 days, and this will readily see if you will give it a trial. Hair also thickens from its use. It has no unpleasant odor and leaves no danger of contracting neuralgia, colds, etc. It cures itching scalp and makes the hair grow again. Young men
