The Queen is Now Within the Walls of Windsor.

London, June 23. - (By Cable,)-This day has been one of the most fatiguing of the week for the Queen, the official programme demanding the reception of several distinguished bodies and official personages; the inspection of the body guard and yeoman of the

guard, a garden party and the reception addresses at Windsor.

The chief event of the day, one of the most interesting of the entire week, was the presentation to the Queen of the congratulatory addresses by both houses of Parliament which occurred at Buckingham palace this morning.

Nearly half a century has passed sincthe House of Commons visited the Sovereign in a body, the last occasion being the presentation of the address acknowledging the reception of the Queen's addrsss announcing the declaration of war against Russia; and not since the early forties when addresses the failure of the attempts of assassina-tion, has she received the two houses

And Courthouse and Fired Guns --One White Man Killed and Another Beaten Into Insensibility.

A special from Key West, Fla., to the Charlotte Observer of the 25th, Great changes before the adjournment of congress are hardly to be expected, but removal of uncertainty is with reason expected to bring into operation buying forces which have been restricted for months. The main factor at this time is the steadily brightening prospects of crops. Harvesting of wheat in some winter wheat States has already begun, with surprisingly good results in the central region and California, so that 800,000 tens is now called the minimum from the latter State, and statisticians of repute calculate on 60,000,000 bushels winter wheat beyond the government estimates. Spring wheat is doing remarkably well with a practically unknown increase of acreage. The says: For five hours the city has been the negroes, openly threatening to burn the city and kill the white inhabitants, surrounded the county jail and the ar-mory, and began to discharge fire arms with a decrasse of 1,200,000 bushels in western receipts and Atlantic exports of 1,445,947 bushels, flour included, against 1,718,961 last year, but it is just the season when figures have no value except as proving how erroneous were estimates of the crop of 1896. Cotton was lifted an eighth without reason, and has fallen back as much because everyoutbreaks have occurred to-day. The militia took their guns from the armory this morning, and to night are at the city hall, while 200 citizens sworn in as deputy sheriffs, and the soldiers at the United States barracks are ready to assist the militia.

Tallahassa, Fla., June 25. - Upon receipt of a telegram from Key West, Adjutant General Houston immediately wired to the Key West militia company to report at once to Sheriff Knight for duty, and Governor Bloxham telegraph-ed to President McKinley as follows: "The sheriff at Key West wires me

as follows: " 'A negro prisoner is in jail charged with rape on a white woman. An at-tempt was made to lynch him. The negroes are greatly enraged and threaten; to burn the city and kill the whites. I request you to order the Key West militia company to our assistance, but am afraid that one company will be powerless before a mob of infuriated blacks, and ask that you request the President of the United tates to ask the commanding officer of the United States here to assist the authorities if necessary to preserve life and property. No State troops can reach Key West sooner than Sunday

"Similar requests were wired by the county judge, circuit clerk, immigration inspector and two justices of the peace. CORN, COTTON AND WHEAT.

The Weather Bureau's Report of the Crop Condition the Past Week. The Weather Bureau in its report of crop conditions of the week ended July 21st, says: Except over the central nia, where it is unseasonably cool, the

week ending June 21st has been generally very favorable for the growth and cultivation of crops. Portions of Missouri, Arkansas, southern Texas and Florida, however, need rain. Corn has had a good growth, all reports from the central valley indicating a marked improvement. In the Dakotas, however, the crop continues backward, with uneven stands, and in portions of the Southern States, where the

early planting is nearing maturity, rain is needed. Corn is being laid by as far North as the southern portions of Kansas and Missouri. Cotton has made good growth during the week gonerally throughout the cot-ton belt, the interior of Florida and Southern Texas being the only sections in which the crop has not made satisfactory progress. The reports indicate a marked improvement over the central portion of the cotton belt and in north-

Southward of the Northern boundary f Tennessee, the bulk of the winter wheat crop has been harvested, and some threshing has been done in North Carolina and Texas. Harvest ing in Kansas is nearly completed and will begin this week in Indiana, Ohio, West Virginia and Maryland. In Tennessee the finest crop for many years is now in shock. The weather conditions of the past week have been very favor-

able to the crop. MAC CARTNEY GOES FREE. Chapman the Only Guilty Sugar
