Flush Frequently.

Before the new wells were connected with the pumps, the utmost difficulty was experienced in supplying the town with water. The pumps were run day and night, now they have to run only 9 or 10 hours a day. The fuel cost has been reduced nearly, if not quite 16 per cent. These new well's seem 'o demonstrate the fact, that Tarboro from driven wells can have an adequate supply for very many years, even if its growth continues at its present rate.

Now that an adequate supply is assured, the board of public works should have the "dead cods" flushed daily if necessary. This will do away with the unsatisfactory water will greatly increase the numher of mers, producing a revenue
