A FACT ABOUT THE "BLUES"

What is known as the "Blues" is seldom occasioned by actual existing conditions, but in the great majority of cases by a disordered liver.

THIS IS A FACT which may be demonstrated by trying a course of

Tait's Pills

They control and regulate the LIVER. They bring hope and buoyancy to the mind. They bring health and elasticity to the body.

OF THE RIGHT KING.

The resolutions that we publish which the negroes of this town and vicinity adopted are rather verbose, but the speeches or talks made in approving them were of the right ring.

The meeting was well attended and by negroes who would do credit to the race anywhere. There was no attempt to mince matters. Each speaker showed by his earnestness that he was opposed to lawlessness and when it came to the revivification he was one with the best of whites.

The meeting was not prepared affair, there were no set speeches. Nathan Williams and a few other good citizens of his race called the meeting and there was a court room full of them. Those who heard the brief talks that were made had no doubt of their sincerity and good faith.

The Southern has frequently asserted that we had negro citizens that would compare with the best. The meeting gave ample evidence of this. But have we enough? We hope so, for we believe that there is enough leaven in the two hundred who unanimously adopted these resolutions in no perfunctory manner which with continued efforts will leaven almost the entire loaf.

That meeting started the ball in motion, we hope that its rolling for the uplifting and betterment of the race will not be permitted to stop.

Virtues of Perfumery.

As a stimulant of the senses, perfume has its use. If it be of the pure and unadulterated kind made from flowers, it is a wholesome aid to well being and good health. Its antiseptic qualities make the old-fashioned plan of sprinkling it upon the handkerchief a sensible one, because the handkerchief is so often guilty of carrying infection. But it is by means of a spray that the perfumes recommend so much to be conveyed to the person, and by pouring a little into the palm of the hand.

Another fashion that has lately arisen is that of scenting the hair. Women wear perfumed caps at night, undergo the dry shampoo at the hands of their maids with orris powder, and have their hair brushed with perfumed oils, after which it is brushed with the palm of the hand and a silk handkerchief pad. Scent bags are sewed into the hats that are worn, to intensify the perfume used on the head. These help to distribute the odor far and wide.

Rose perfume is a favorite at present, and hearts of Persian roses, little pinkish petals dried almost brown, are strewn wholesale in cardboard boxes and in the handbag. Russian leather is another odor that is popular, in liquid and in actual strips of aromatic skin. Eau de Cologne is still acknowledged as a most splendid vitalizer—but is only healthy when it is pure—and English lavender water still has its votaries.—London Mail.

The Cuban Patriot.

The Washington Post has never had an exalted opinion of the Cuban patriot. While the Post in its inimitable style speaks with seeming levity yet there are chunks of truth in what it says and between the lines:

"We await with genuine anxiety the outcome of Secretary Taft's effort to disarm the Cuban revolutionists. It has been tried before and has never yet succeeded. Even in 1899—or was it 1900?—when President McKinley sent his friend, Robert K. Porter, to the island with \$3,000,000 in gold cash not to disarm the beres of Gomez and Maceo, but to purchase their weapons at \$75 each, the result was visible only in a collection of ancient blunderbusses and other archaic weapons, absolutely useless and interesting chiefly as relics of the sixteenth century. They took the money all right. Old Gomez emerged from the chapparal, for the first time in three years, and all the generals, colonels, majors, &c., stepped up to the office and got their money. But the United States received nothing more valuable than a lot of junk and scrap iron which would have been wastefully expensive at 2 cents a pound. Arguing from the past to the present, what reason have we to suppose that the Cuban bushwhackers will surrender for civilization's sake that which they refused to surrender a few years ago for real money?"

"But of course Mr. Taft does not actually expect to get those guns. He is far too wise and too experienced. The proposition is part of the appointment of committees, and all that sort of thing; the commissioning of numerous gentlemen who haven't held an office or won a salary for ever so long; the launching of solemn and picturesque confabulations, which the typical Cuban loves much better than he does his life. What the typical Cuban yearns for above all other happiness in this squalid sphere, is the lively of consequence, the opportunity to cap in the limelight, the warrant for display and pageantry. And all these blessings Secretary Taft now showers on him with a fat and friendly hand. In effect, he says to them: 'Be good and show devotion to the country of your birth and love. You are all burning to sacrifice personal ambition on the altar of Cuba's glory and renown. I know it by the smoke which so gracefully curls Ta-tal-I depend upon you.' But he knows at the same time, that the United States army will do the rest and he will sail away from Havana, across the semi-tropic sea, understanding perfectly well that it makes not the slightest difference whether the champions of liberty disgorge or not."

China has large undeveloped resources, and a mobile army, even though small, is a most efficient instrument for raising taxes. The court, too, has had two experiences which have dissipated many of its lurking fears. It used to dread Russia, exceedingly; and it has seen the Russian armies driven back by Mongols like lion-skin subjects, men, indeed, whom it has been taught by tradition to regard as the inferiors of Chinese. At the same time, it has found that its own ability to fly is a formidable instrument of defense. It saw quite as clearly as the European statesmen that a march on Stigman from the coast was a more dangerous enterprise than Europe would consent to undertake.

Within a few years, therefore, the army of China may be increased to 500,000 men, and an invasion of the country will be as nearly impossible as ever since the retreat of 1812, the invasion of Russia has been held to be by all serious soldiers. With that force the court will feel safe, and every grandee of a foreign ambassador will be reduced to a kind of glorified disputant on international law.—Spectator.

The Greatest Passage.

Success says that the most justly celebrated passage of English prose literature is one from Carlyle's "Sartor Resartus." Here it is: "Like some wild flaming, wild thundering train of Heaven's Artillery, does this mysterious Man-kind thunder and flame, in long drawn, quick succeeding grandeur, through the unknown Deep. Like a God created, fire-breathing Spirit; but, we emerge from the Inane; baste stormfully across the astonished Earth; then plunge again into the Inane. Earth's mountains are leveled, and her seas filled up, in our passage; on the Earth, which is but dead and a vision, resist spirits which have reality and are alive! On the hard adamant some footprint of us is stamped in; the last hear of the host will read traces of the Ecclesiastical Van. But whence? O Heaven, without! Some knows not; Faith knows no; only that it is through Mystery to Mystery, from God to God."

Died

Good Government Club Formed.

The court room last evening was comfortably filled with our leading citizens called together because of the recent attempt at dastardly outrage. Rev. R. C. Craven was called to the chair and Frank Powell made secretary. Mr. Craven said that he need not dwell on the crime that brought forth such an assemblage. The meeting as he understood it was to consider what under the circumstances would best serve and promote the peace, good order and quiet of the community, but as Capt. W. H. Powell, he believed was one of the leaders in bringing about the meeting he would ask him for an expression of his views:

Capt. Powell said that in his opinion much of the lawlessness was due to idleness and he favored turning the meeting into a good government club and appointing a committee of 25 of our best citizens to act with a similar number of negroes, for he believed that they were seriously in earnest in their declaration, to stop loafing. That to put an end to idleness, there must be no temporizing but the strong hand must be used firmly, discreetly and justly.

This proposition was received with applause and reading of the proceedings of the negroes was called for and had.

Rev. Mr. John was called for. He said that he had lived with us too brief a time to be acquainted with local conditions, but he realized the necessity of doing something and he was with us heart and soul.

Capt. R. A. Watson said that he agreed with Capt. Powell.

Col. J. W. Cotton did also and urged that the town and county keep their blood hounds, a suggestion that was promptly approved.

S. S. Nash spoke on the evils of idleness and its effect not only in conducting to crime but demoralizing all servants so that the domestic servant problem was pressing for solution.

Dr. James Phillips said that since his return here he had found a decided change for the worse with servants, who were not only trifling but often insulting. He favored a positive action.

H. A. Gilliam favored having the colored people cooperate; that such cooperation could be made most effective, and he had no doubt of the good faith of the negroes who had met the evening before.

Capt. Jas. B. Lloyd believed idleness to be the root of much lawlessness; that should be stopped and the one who would not work should be made to walk.

F. S. Wilkinson said much of the crime committed by the negroes was due to taking government from the stranger in 1866.

This had made too many of the race disregardful of the Southern white. Education was the sure remedy, but that took time and he would not go into that subject, but merely say that a lion and a lamb could be taught to lie down together.

He favored prompt action to stop idleness and loafers.

The motion to appoint a committee of 25 to cooperate with committee of like number of negroes was carried unanimously. The chairman who will appoint these gentlemen was added to the committee.

Capt. Lloyd suggested that the joint committee as soon as practicable issue an address to the citizens, pointing out what was expected of the citizens. This was approved and with some pertinent remarks by the chairman, the meeting adjourned.

Mr. Rockefeller says limit opportunity and you stop national growth. Quite right, Rockie, old boy and that's why we dislike the Standard Oil.

County Canvass to Begin.

Elsewhere it will be seen that the Democrats will in a few days begin their canvass. It is Chairman Allbrook's idea to have the canvass short and strenuous, taking as little of the time of the voters as is consistent with presenting the issues.

As there will be only one speaking in a locality, there should be a large turnout on that day. All of us can give one day to hearing the speeches which will be good ones. There are no deceptions on the Democratic ticket, each and every one sincerely believes in the cause and principles of the party that has nominated him.

Turn out and hear them.

Wild West Show.

Pawnee Bill's Great Wild West Show arrived here during the early hours Fri. morning and pitched their tents in the Commons. There was a hustle and bustle and strenuous activity for awhile such as would have highly delighted President Roosevelt, had he witnessed the unloading, and preparation for the parade. The small boys, and some large ones too, were up before the glorious sun had

walked over your high Eastern hills."

To see the great aggregation as they disembarked at the railroad siding. The day has been ideal for outdoor performances and there was quite a crowd of people on the streets—old, young, white and black—to witness the grand parade which was indeed a very creditable and unique affair.

The show opened in the afternoon and those who attended it no doubt thoroughly enjoyed the entertaining performance.

The arena represents as far as possible the plains of the Far West in pioneer days and gives an exact reproduction of life in the West at that period of our country's history, with Indians, Buffalo, Bronchos and ponies. "Pawnee Bill has an exhibition of the Far East also. In his unique aggregation are representatives of the Far Eastern countries, there being Turks, Hindoos, South African Kaffirs, Filipinos, Russians and Japs. The show in all respects compares favorably with Buffalo Bill's.

The parade was nearly two miles in length, being the longest ever seen here. There are three hundred and fifty people with the show and they have three hundred and eighty seven horses, besides elephants, camels, burros, and buffalo.

Horsemanship, of a high and skillful order, was a strong and entertaining feature of the performance, and the military evolutions were rendered skillfully, giving a splendid idea of what Uncle Sam's boys can do on the field of battle.

Pawnee Bill's show is free from all skin games, tricks and schemes of deception—in fact there is nothing but cleanliness and decency about this great show.

DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable. Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmor's Swamp-Root.

It is the great medical triumph of the nineteenth century; the discovery after years of scientific research by Dr. Kilmor, the eminent kidney and bladder specialist, who is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmor's Swamp-Root is the most recommended for every thing that troubles the kidney, liver or bladder. It will be found just the remedy you need. It has been tried in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmor, 2100 Broadway, New York.

The regular 50-cent and one-dollar size bottles are sold everywhere by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmor's Swamp-Root, and the address, Birmingham, N. Y., on every bottle.

If they trouble you, see me and have the defects corrected. If your head aches you may, as a rule, attribute the cause to defective vision. Fitted Spectacles, with treatment in some cases, you will find to be the cure. See me as follows: Each day in the week except Saturday, from 4 o'clock to 6, at Coates, Sept. 15 and 22, at Coates, Sept. 29, at Tarboro, Hotel Farrar.
