heap as any, and give wrink to excess again."

grousness which follows, restore enoughests and remove gloomy feel-legantly sugar coated.

us taking notes, speaks of our use of child energy as "the weakest spot in America's fine front of national well-being." And he writes with abhorrence of nocturnal child employment. "Just think of it! he cries with pained astonishment. "The richest, greatest country the world bas ever seen has over one million seven hundred thousand childred under fifteen years of age toiling in fields, factories, mines, and workstops." He points out that there are not less than eighty thousand children, most of whom are girls, at present employed in the textile mills of the country. In the south he affirms, there are now six times as many children at work as there were twenty years ago. Mr, Raymond Patterson has

A National Shame.

tlanta Journal says:

Under the above heading the

H. G. Wells, the interesting

gation of child labor, visiting them as they toil in the hideous heat of the glass blowing furnace rooms; in the damp darkness of to make room for another, and the coal mines; the slime and reek of the stockyards; the dull monotony of the tenements, under ground and otherwise, where the weat-shop sewing is done. The tale he has to tell is a terrible one after it. accomplished-nothing .made thrice terrible by the fact that in not a few cases a family is partly or entirely dependent on the labor of some child, who, realizing this, carries consciously his burden of respensibility. He tells of one boy who, being fearfully injured, was taken to the hospital, and when he saw his mother's tears, fancied them shed because the family would be kept out of his pitiful weekly wage.
