That is why it is successful. The human stom ach today has become degenerate, and is the cause for most ill health. In the horse, the dog, and the wild ani-mais generally, you see no nerve er-haustion, no chronic debility. They are not shut up day after day with practically no exercise, and they are not able to stuff themselves with foot when their bodies have not had enough work to justify it. The human race has been doing this for years, and look at the result—half the people are complaining of poor healt, not really inces—just a half-sick, tired, droopy feeling. They don't really know what is the real reason for the demand for my preparation." Mr. Monroe Brown of 8 Hancok Street, Winchester, Mass. #### NO CAPACITY FOR GOVERNING.

News comes from the republic of Liberia, in Africa, a country inhabited, owned and governed by negroes, that affairs are in such- a shape that some of the powers of the world (presumably some of the white powers) will have to take charge of the country in its own interest and that of the world at large. Every experiment tried so far has shown conclusively that the negro left to himself is incapable of self government. The only negro governments that have stood
