Pain in the head—pain anywhere, has its cause. Pain iscongestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a fittle pink tablet. That tablet—called Dr. Shoop's Headache Tablet— coaxes blood pressure away from pain centers. Its officitischarming, pleasingly delightful. Gently though safely, it surely equalizes the blood circu-hation.

If you have a headache, it's blood pressure
If you have a headache, it's blood pressure
If it's painful periods with women, same cause.
If you are sleepless, restless, nerveus, it's blood congestion-blood pressure. That surely it a certainty, for Dr. Shoop's Headache Tablets stop it no minutes, and the tablets simply distribute munatural blood pressure.
Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's consistion, blood pressure. You'll find it where pain you? So you have been and the tablets are supported by the pressure.
