The Secret of Youth

Do you ever wonder how you can remain young, or why other women older than you, look younger than you do?

The secret can be put in a few words: "Preserve your health, and you will preserve your youth."

By "health" we mean not alone physical health, but nerve health, as, sometimes, magnificently strong-looking

But whether you are weak physically or nervously, you need a tonic, and the best tonic for you is Cardui.

It builds strength for the physical and nervous systems.

The Woman's Tonic

"My mother," writes Mrs. Z. L. Adcock, of Smith-ville, Tenn., "is 44 years old and is passing through the change of life.

"She was irregular and bloated and suffered terribly. My father stepped over to the store and got her a bottle of Cardui, which she took according to directions and now she is up, able to do her housework and says she feels like a new woman." Try Cardui in your own case.

Write fo: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Trentment for Women," sent free.
