CERTIFICATE OF DISSOLUTION. To All Whom These Presents May Come:—Greetings:

Whereas, it appears to my satisfaction that by duly authenticated record of the proceedings for the voluntary dissolution thereof by the unanimous consent of all the stockholders, deposited in my office, that the Peters Implement Company a corporation of this State, whose principal office is situated in the town of Tarboro in County of Edgecombe State of North Carolina, R. B. Peters being the agent therein and in charge thereof, upon whom process may be served, has complied with the requirements of Chapter 21, Revised of 1905, entitled "Corporations," preliminary to the issuing of this Certificate of Dissolution.

Now, Therefore, I, J. Bryan Grimes, Secretary of State of the State of North Carolina, do hereby certify that the said corporation did, on the 31st day of December, 1909, file in my office a duly executed and attested consent in writing to the dissolution of said corporation executed by all the stockholders, thereof which said consent and the record of the proceedings aforesaid are now on file in my said office as provided by law.

In Testimony Whereof, I have hereunto set my hand and affixed my official seal, at Raleigh, this 27th day of December, A. D. 1909. J. BRYAN GRIMES, Secretary of State.

The Simple Word. It may be glorious to write, thoughts that shall glad the two or three. High souls, like those far stars that come in sight. Once in a century!— But better far it is to speak One simple word which now and then Shall waken their free nature in the weak. And friendless sons of men; To write some earnest verse or line. Which, seeking not the praise of art, Shall make a clear faith and manhood shine. In the untortured heart. James Russell Lowell.

Don't trifle with Kidney and bladder trouble. Take DeWitt's Kidney and Bladder Pills as directed and you will at once notice satisfactory results. DeWitt's Kidney and Bladder Pills are antiseptic, healing and soothing. Be sure to get DeWitt's Kidney and Bladder Pills when you see them. Refuse substitutes and imitations. Boys' Corn Clubs. Editor Southerner: As has already been announced, the Board of Agriculture at its December meeting appropriated \$500 for premiums on Boys' Corn Club contestants. The contestants are to be between the ages of 12 and 17 years. Any boy becoming 12 years of age first will be eligible, and any boy who is now 17 but will be 18 not later than August first will be eligible to enter the contest. The rules governing the contest will be about as they were last year, except that any boy will be permitted to get any person to break his land for him. I do this because the younger boys are not heavy enough to handle a large two-horse plow in heavy land, but after the land is broken, each boy must do the remainder of the work himself. It is known that any boy permits another person to do the work or to help in the work after the land is broken until all cultivation is finished, he will be ruled out of the contest. Only \$10 worth of commercial fertilizers may be used on each acre. The plot of land must be a full acre. Less than an acre will not be considered. The plot of land must not be less than a half acre in width. Square plots are preferred. Only boys living on the farm on a complete for these prizes. The plot of land must be a part of some regular field in the farm, and not a garden spot, a town lot, or a plot belonging to some city or other corporation. The contestant may use all the home raised manure he can get. Cotton seed, cotton-seed meal, city garbage, fish or fish scrap, will be considered as commercial fertilizers.

The State has been divided into ten districts, as per below, and prizes aggregating \$50 will be given to the winners in each district. First prize, \$25; second prize, \$15; third prize, \$10. I shall ask the County Superintendents of Public Instruction to co-operate with me in this work, so as to get the most boys possible to enter the contest. The average yield made by the boys in this State last year was 57 bushels per acre. With a record like that every enterprising citizen should encourage the movement. The boy who succeeds in growing a large crop of corn stands a good show of developing into a man who will also enter the contest. Application blanks and other literature will be ready in a few weeks, but the boys can begin work now and send in their applications later. Blanks, etc., will be sent to the Superintendent of Public Instruction in each county, on direct to boys apply for them. Mr. I. O. Schaub, of the A. & M. College, is co-operating with me in the Boys' Corn Clubs and between us, we will visit quite a number of counties in hope to visit Boys' Corn Club meet the State. Letters of inquiry or for application blanks should be addressed to the undersigned.

Died, Tuesday, January 18th, at the home of his daughter, Mrs. George Robbins, of Rocky Mount, John White. For many years he lived here and was born in this county and is most pleasantly remembered. He was a Confederate veteran, member of the Sixth North Carolina. His wife was Miss Fannie Battle, daughter of J. C. Battle, popularly known as Jim "Crack" Battle. Two children, W. E. White and Mrs. Robbins survive him. All who can remember the store of the late David Pender, will recall the obliging and ever accommodating head salesman, John White was the man.

WEALTHY HAVE ADVANTAGE.

Remedy Uniformity in State Laws. Washington, January 17.—President Taft and Clifford Pinchot today spoke from the same platform in addressing the National Civil Federation, now in session here to discuss problems of uniform State legislation. Representatives of almost every branch of human activity met today at the conference to talk over ways and means for bringing about uniformity of laws relating to child labor, marriage and divorce, pure food and pure drugs, conservation of natural resources and laws relating to negotiable instruments, bills of lading and other matters affecting the business and social life of the nation. Serious attention was accorded the President throughout his speech which was a careful presentation of the needs of uniformity upon the part of the States in looking to an amelioration of existing conditions. In discussing the movements started by the Civic Federation for uniformity in State laws, President Taft said that it was the growth of a demand on the part of the good citizens to bring about better conditions in the social fabric.

The President said that there should be uniformity in judicial procedure and he declared with emphasis that if anything in the system proved to be a hindrance to the progress of the States in looking to an amelioration of existing conditions, he advocated some changes in the form of Federal Court procedure, which could be taken as an example by the States. He wanted court procedure amplified along the lines of English practice both in equity and criminal law. Mr. Taft told of the movement for a uniform law relating to child labor and cited the utterances of the Governor of Massachusetts in behalf of a Federal law regulating child labor because the power of the Federal Government was greater than the power of the State, speaking on subject of conservation. The President said that he thought there is more to be done by the States in the conservation of resources even than by the Federal Government.

Speaking of trust, President Taft said: "I am inclined to think that it will be found wise after a time to recognize those greater organizations, concentrations of wealth and plant and spirit that do a country's business going into every State whose business is almost wholly interstate, to recognize them as instrumentalities of interstate commerce and to incorporate them in order that we may get them more directly under the control of the national government."

"I admit there is ground for dispute and I have only recommended this as a means of saving to the public which is valuable; and there is a great deal that is valuable in these trusts, and eliminating permits to the public policy. But you are not Congress, and I did not come here to convince you on that subject. I only mention it in passing." Pinchot Also Delivers Address. Clifford Pinchot, former Chief Forester said that subjects such as forest preservation had been advocated by Americans for more than a hundred years, but that the control of water power monopoly in the common interest was younger than the present century.

"All of them today," he said, "are in the vanguard of decision. We have come at last to the point of action. And we must either go forward or fall back."

"You'll feel better after taking DeWitt's Little Early Risers, the safe, sure, pleasant little pills. If you would be sure of good results insist on DeWitt's Carbolized Witch Hazel Salve, the original. It is good for big cuts or little ones, small scratches or bruises or big ones, but is especially good for piles. Sold by all druggists."

A few days ago one our citizens cut into a pound of butter which he had purchased at a grocery whose proprietor does not advertise, and found therein a small tin box, which contained a small piece of paper bearing the following, written in a neat, feminine hand: "I am a girl or sixteen, good looking, and an excellent housekeeper, should be found by some unmarried Christian gentleman, will be pleased to write to the following address," etc. The finder being a bachelor, decided to unravel the affair, and succeeded only to destroy the romance. The girl who had written the note had died many years ago, leaving an aged husband and a grownup family.

LAST OF THE GOLDEN EAGLES.

Big Bird, Once Numerous in South Dakota Believed to be Extinct. When the pioneers entered the Black Hills thirty-five years ago, golden eagles were as common as are English sparrows at present, but with the death of Old Sentinel, that occurred a few days ago, it is believed that the birds have become extinct. Unke eagles of other sections of the country, the golden eagle, warrior of flight and of a different color. The feathers and plumage of the bird were almost yellow, hence the name. In the early days of the Hills, the birds were so numerous that they were considered of a menace would swoop down into the ranch lots, pick up a lamb or a small pig and fly away to some crag, where they would devour the catch or carry it to their young. Many stories are told of golden eagles having attacked small children. Old Sentinel had been one of the pioneer landmarks for more than a quarter of a century, and during all of his time he occupied the crest of one of the highest of the peaks of the Ragged Top Range. There, upon a shelf of rock, 4,000 feet above the valley below, Old Sentinel and his mate made their home until several years ago, when the latter died and the mate bird became a wanderer. After the death of his mate Old Sentinel would make trips to the southern and western hills, staying some times, for weeks. Many times he was shot at, but he seemed to bear a charmed life, for the bullet was never cast that was to end his career.

Recently E. N. Norman, of the United States Land Office at Rapid City, went to Deadwood, S. D., determined, if possible, to capture the golden eagle alive. He raised that Old Sentinel was the last one of his race in the Hills, and that in his capture he would secure a prize well worth effort. Going out to the Ragged Top Range with a small party of friends, he was told that a dead Sentinel had been seen for more than a month.

Mr. Norman concluded that a trip to the lofty home of the eagle was worth the trouble, and climbed to the top of the mountain. There, covering a space of more than twenty feet square, were the animals lying about in heaps. Not far away was the skull of an infant, whitened and polished by the storms of years. Bones that were taken for those of the legs and arms were also found, indicating that perhaps the series of Old Sentinel and his mate carrying away children was not wholly untrue. Down in the crevice of the rocks some twenty feet below, was the body of the eagle. It was put around one of the men and he was lowered and pulled back, bringing with him the prize not a live, but a dead eagle. Making an examination, Mr. Norman became convinced that the eagle must have been fully 100 years of age and that his death was due to old age. The body was taken down and brought to Deadwood, where the skin will be mounted and probably become the property of the Historical Society of South Dakota.

The measurements of Old Sentinel prove that he was one of the largest of the birds of America.—Duluth News-Tribune.

To Cut Expenses.

There was an informal meeting of the town commissioners last evening, to consider the town's financial condition. Nothing official was done, but it was agreed to cut expenses.

One employee at the light plant will be dispensed with. The office of sanitary inspector will be abolished, and the duties of this office imposed upon one of the regular policemen. There will also be a reduction in the state force. Two males which the town had been renting will be retained. It was believed that retrenchment to the extent of nearly \$15 per month, could be effected.

It was shown that \$5,000, properly chargeable to the bonds had been spent, about half for extending the lights over the annexed districts and the other for water pipes. The taxes due the town approximate \$17,000; this with \$6,000 cash in bank will enable the town to meet the debt for which the bonds have been placed as collateral security. When this is done, the bonds will then be sold and the proceeds applied as was intended and promised.

GROWING SOME.

Postoffice Receipts Indicate Steady, Healthy Growth. This time next year the town would have free postoffice delivery, for the receipts will exceed the required amount of \$10,000. The receipts here for 1907, 1908 and 1909, evidence a steady, healthy growth, even if not as rapid as many wish, viz. \$3,869.96; \$4,569.60 and \$10,000.00, or slightly in excess each year of five per cent. When it is remembered that the last three years have not been fat years locally, this is not a poor showing, but would have been much better, if we all could work together for making the town larger and richer.

Thousands Have Kidney Trouble and Never Suspect It.

How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours; a brick dust sediment, or settling, or stringy or milky appearance often indicates an unhealthy condition of the kidneys; too frequent desire to pass it or pain in the kidneys and bladder are out of order and need attention. What To Do. There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy, cures almost every ailment in correcting rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. Corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and immediate effect of Swamp-Root is soon realized. It stands the highest because of its remarkable health restoring properties. If you need a medicine you should have the best. Sold by druggists in fifty-cent and one-dollar sizes. How to Buy. You may have a sample bottle sent free by mail. Address Dr. Kilmer & Co., Ringhamton, N. Y. Mention this paper and remember the name, Dr. Kilmer's Swamp-Root, and the address, Ringhamton, N. Y., on every bottle.

GENUINE OLD PERUVIAN GUANO

IF YOU have never used PERUVIAN GUANO you have never realized the greatest possible yield from your soil.

Peruvian Guano is the natural excrement of the millions upon millions of fish eating birds that inhabit the mountain cliffs on the coast of Peru and adjacent islands. It is really digested fish—the richest of all fertilizers. Chemists have never been able to put the elements into commercial fertilizer in the forms in which they exist in this product of nature. We have an army of workmen digging out this fertilizer. It is then loaded upon vessels and shipped to the United States. Peruvian Guano has been used as far back as the fourteenth century. Those who try it become enthusiastic about it, and the demand has always been greater than the supply.

The Secret of Youth

Do you ever wonder how you can remain young, or why other women older than you, look younger than you do? The secret can be put in a few words: "Preserve your health, and you will preserve your youth." By "health" we mean not alone physical health, but nerve health, as, sometimes, magnificently strong-looking women are nervous wrecks. But whether you are weak physically or nervously, you need a tonic, and the best tonic for you is Cardui. It builds strength for the physical and nervous systems. It helps put flesh on your bones and vitality into your veins.

Take CARDUI

The Woman's Tonic "My mother," writes Mrs. Z. L. Adcock, of Smithville, Tenn., "is 44 years old and is passing through the change of life. She was irregular and bloated and suffered terribly. My father stepped over to the store and got her a bottle of Cardui, which she took according to directions and now she is up, able to do her housework and says she feels like a new woman." Try Cardui in your own case. Write to: Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent free.
