Gaines Arrest Attracting Attention of Large Papers

Arrest of Paul Gaines at request of his father for shooting at Roy Gaines a few days ago was known by the Bulletin a few hours after it happened, but nothing was said about it because this paper tries to avoid the sensational as much as possible. Paul Gaines was charged with killing his wife and the fact that he was allowed to walk the streets under bond amazed even some of the Chicago people. A parent's love is always considered. Mr. Gaines action in sending his son back to jail is commended. He should stay there until the trial. All the city papers are carrying stories of this arrest.
