The Babson Check

So many people do not understand the Babson check plan inspite of the fact that it has been in the papers for several days. The purpose of the check is to pay up as many debts as possible. It is a well known fact that most people owe somebody who in turn owes somebody else. A few days ago the Bulletin owed somebody ten dollars; that somebody owed somebody who owed the Bulletin. When we found it out, one bill paid up thirty dollars worth of debts.

The Babson check works on the same principle. Someone will deposit \$10 at the bank and receive a check signed by the cashier guaranteeing payment when a certain number of endorsements are written on the back. It is then a certified check but can't be cashed until the required number of people have used it in paying their debts in town.

Negro Killed Last Night

Will Mills shot Napoleon Cheek last night. Cheek it is said went to a dance at Mills house, but was refused admittance because he wore hunting clothes. Argument. Cheek was ordered to leave and after he had turned to go away Mills shot him in the head from the back.

Mills surrendered to the sheriff. Is now in Columbus jail. Coroner Grady's court met today and found him guilty. Blanche Simms, a colored girl was the only witness.
