Tax Complaints in July

Not today, nor tomorrow, as previously stated, but on Second Monday in July, you may raise a kick about how your property has been assessed. The Tax assessors board postponed its hearings for today and Tuesday until the Second Monday in July. All complaints must be made in writing. So it would be a good idea to go to the Courthouse now and ask who ever has the books to let you see how much your taxes are listed at. If you have any objections, then write them down and present them to the Board at their meeting on Second Monday in July.
