World Problems Discussed

The Kiwanis club today discussed moratorium, debts, Germany, France, finance, trade balance, tariff, war. President John Landrum called a halt in the discussion and stated that these important problems would be settled at the next meeting which will be held at night, 7:30 at Mimosa followed by a directors meeting. A number of the members agree with Senator Borah. They want to know first what Germany intends to do with the money we would lend her.
