### El Taarn in House Beautiful

Nine photographic views of the studio-home of Mr. Homer Ellertson & an article describing the place, are published in the November House Beautiful magazine. Very interesting. Brings nice publicity to Tryon. Another article by Mr. Ellertson will appear next month in the same magazine.

### Nugget Found in Polk

Fiddling John Weaver of Green Creek was in Tryon today showing a 11 pennyweight gold nugget which he and J. D. Blackwell found in Green Creek several weeks ago. This is said to be the largest gold nugget found in that section. Mr. Weaver says he has a lot of gold on his farm but that he can't afford to tear up good cotton land to get the gold, He gave the editor a specimen of gold and a sack of potatoes on subscription.
