News Gleanings

A nose for news must be delicate. A curtain rod in Avant's show window was touched with my hand without any trouble but when the tip of my nose touched it I suffered the pulling of wild hairs and the tears flowed. Electricity. Ask Red. Mr. Upton corrects us. The S.S. Manhattan is the largest ship built in America and not of the world as stated yesterday. Dr. Fuldner has received his blue ribbon for having the best pear exhibit at the State Fair. The judges must have tasted them. They're good.

Kiwanis Thursday

A joint meeting of the Tryon, Rutherfordton and Hendersonville Kiwanis club will be held Thursday night at Mimosa Inn.

Mr. Lindsey Buried
