To The Democratic Voters

I take this final opportunity of appealing to the Democratic voters of the County to support me in my candidacy for the State Legislature. My only object in seeking this position is to serve all the people of my County. Having served in the Legislature in 1925, and having been closely connected with the Legislature for 15 years, and holding a close personal friendship with the Democratic leaders of the State, and knowing as I do by personal contact all the needs of the County, I feel that I am qualified to serve our people in this capacity. I stand for general re-valuation of property now, tax reduction, and economy in fiscal affairs of County and State. I will make every effort to this end.
