Reports are coming in that a movement is on foot for a government postoffice building in Tryon. Some local people think that if the government is going to spend billions in construction for relief purposes that there is a chance of getting a government building for Tryon. Some dissatisfaction has been expressed over the unclean condition of the present quarters. The air is foul in the lobby from lack of ventilation and the walls dirty with ink spots. The Kiwanis club recently passed a resolution to ask the Postoffice department for an extra clerk in order to get better service.
