Woman Flies Mexico to N. J.

Newark, N. J., May 8.—Amelia Earhart, tired but happy, brought her red monoplane across the 2,100 miles between Mexico, D. F., and Newark airport today, making the first non-stop flight from the Mexican capital to the Greater New York area.

Her face and hands were dirty, but she grinned as she brought her ship to ground at 9:28:50 p. m. (E. S. T.), 14 hours, 22 minutes and 50 seconds after her perilous takeoff from a three-mile runway.

She landed as one of the greatest crowds ever assembled at Newark airport shouted and screamed their cheers and struggled against an inadequate force of thirty policemen, assigned to the field for the emergency.

So great was the crush, so mad was the enthusiasm of the men and women to catch a glimpse of the woman, who has conquered two oceans by air and made numerous cross-country flights, that minutes passed before the police could get her safely to a national guard hanger.—Asheville Citizen.
