RURAL ELECTRIFICATION

Communities which have not already had a survey made for an electric line should send a representative to the county agent's office to get blanks on which to make a preliminary survey, if electricity is wanted. This should be done at once.

At some time in the near future the Rural Electrification authority will send men to make a final survey for your project.

It should be kept in mind that these lines are expensive and for that reason it will take the co-operation of all people in your community to justify the building of a line.

DOG GONE !

When a man likes a dog, even an ordinary hound dog without a registered pedigree, he hates to part with him. F. G. Skipper of Campobello lost a solid red hound four weeks ago in the mountains near Mill Spring. He has driven many miles and asked hundreds of people in an effort to find the one dog that is lost, even though he has other dogs at home. The mate of this dog was lost once and Mr. Skipper drove 250 miles to find him.
