An Air Conditioning System at the Bank

The Tryon Bank & Trust Co. has put in an air conditioning system which cools and freshens the air in the bank giving the desired temperature all the time. The system was installed by the Avant Electric Co. of Tryon. The customers and bankers can keep cool now when anyone gets hot about notes overdrafts, etc. Any way the affairs will be properly aired. This is another forward step in improving the service of the local institution which has made such a splendid record.
