Spot Cotton	12.59; down .01	

PARKING SPARKS

The same woman who held up traffic a few days ago by parking her automobile in the middle of the street while she went shopping did the same thing again according to reports. Another woman who is a member of the Garden club and of the D. A. R. and who takes much stock in culture and so forth, stopped her car in the middle of the street right behind a man's truck that was properly parked, and he couldn't get out and go on with his work until this woman went in the post office and got her mail and chatted with friends. The state has the number of the woman's car, but the victims feel that they have the woman's number. We would suggest at the next commissioners meeting somebody help pass a resolution to have all the parking lines marked in continuous lines parallel with the street so that people can park their cars properly no matter where they stop. It is a little inconvenient for a few people to park the right way, so let's change the custom. No, that would not work people who are not considerate of the convenience of others might park their cars crosswise the street, and then we would be in a jam.

ROTARY CLUB RIDAY

The Tryon Rotary club will meet on Friday at 1 p. m. at the Lake Lanier Inn with Vice-president J. T. Arledge in charge of the program.

HOT IN TEXAS

A wired news service reported to the Bulletin today that the temperature in Texas is averaging 120 degrees in most places in the lone star state.
