*Reddy Kilowatt Says—*

## I DO SO MUCH WORK FOR SO LITTLE PAY

Reddy Kilowatt is a tried and proven servant who "gobbles up" the work for only a few pennies a day. Magician like, he has turned the old wash tub into a rapid efficient Electric Washer — the sad iron into a smoothly gliding, thermostatically controlled Electric Iron — the smoking lamp into incandescent Mazda lamps — the old stove into an accurate and automatically controlled Electric Range — the window box, the spring house, and cellar - cold room into a modern, Electric Refrigerator — the broom and feather duster into an Electric Vacuum Cleaner . . . and he is ready for any and every household duty twenty - four hours of the day — and his pay is only a few pennies a day.
