An Improvement for Tryon Theatre Fans

The new Mirrorphonic equipment which makes moving pictures more natural both to the eye and the ear, will be installed in the Carolinas first at the Tryon Theatre within the next few days, according to Manager C. W. Nessmith.

This is a distinct achievement for Tryon and Mr. Nessmith. As soon as the equipment is installed a preview of an important picture will be held to which theatre officials all over the two Carolinas will be invited. The reason Tryon was chosen for the preview is because it is one of the few independent theatres using Westinghouse Sound equipment and is the first with its contract expiring with the privilege of getting the improvements.
