School Election Here Tomorrow

The citizens of Tryon Township who registered for the special school election will have an opportunity to vote on Tuesday in favor of a nine months school term. The nine months term is important if parents want their children to have as good an opportunity to get an education and be as well prepared as children in other similiar communities. It is important if they want new citizens to come here to help build the community; for many people go to a community because of good schools. Nine months is the shortest time in which it is possible to do a standard year of school work for average students. Textbooks, college entrance requirements and teacher training are all based upon nine months term. A shorter period hurts the school pupil. The polls will be open Tuesday morning at sunrise and close at sunset.

Tryon Scouts Will Meet On Wednesday

Scoutmaster W. A. Schilletter announces that the Tryon Boy Scout Troop, No. 1, will meet on Wednesday night at 7:30, and all boys planning to attend camp next week are urged to be present for a final check-up.

Airliner lost since December 15th found in Utah. Two searching parties locate wreckage at same time. Several bodies dug from snow.

Scout Counselors Are Announced

Dr. C. Arthur Lincoln, chairman of the Polk County Boy Scout Court of Honor has announced the appointment of counselors to give advice and encouragement to Boy Scouts seeking advancement in the various branches of useful knowledge offered to boys in Scouting. Other counselors will be named as soon as interested men are found who can spare a few moments of their time in assisting the boys. Volunteers are needed all over the county for Scoutmasters and assistants. Anyone interested, please write the district vice-president, Seth M. Vining, Tryon, N. C. The Tryon Scouts are greatly indebted to Mrs. Walter Jones and to Mrs. Harold Doubleday and to teachers and mothers for their assistance in helping the boys in the past, but an effort is being made to keep Scouting as a man's job. And any man interested in boys will do himself and his community a lot of good by uniting with the Scout movement now. The counselors so far are listed as follows:

Agriculture—J. A. Wilson.
Angling—H. L. Arledge.
Animal Industry — James Andrews.
Archery—M. B. Caldwell.
Architecture—John Ferguson.
Art—L. Mazzanovich.
Astronomy—R. C. Erskine.
Athletics—W. A. Schilletter.
Automobiling—C. A. Martin.
Aviation—Lewis Moore.
Basketry—George A. Cathey.
Beekeeping—L. Louradour.
Beet Production—W. S. Green.
