

## MARCONI DEAD!

Noted Italian inventor of wireless radio passed away Monday night.

### MARCONI

What name should be on every tongue

When silver bugle calls are flung  
With magic, o'er the seas—

When kings can greet their realms afar

As one might call from star to star—

And words soar on the breeze?

M A R C O N I !

Who lured the pathways from the sky

o earth, to catch all melody,  
And wing our words along?

Who bent the star-path to his will,

That they might glow and sing  
and thrill

Our earthly ears with song?

M A R C O N I !

Who, with his magic, blessed mankind?

Who won this realm with God-like mind,

And heaven's tongue to earth inclined?

M A R C O N I !

(Hilda von Siller).

## SCOUTS TONIGHT

Scoutmaster W. A. Schilleter stated today that the Tryon Boy Scout Troop No. 1 will meet tonight at 7:30 at the gymnasium. This will be the first meeting since the National Jamboree in Washington.

Mr. and Mrs. H. C. Metcalf are visiting in Chicago and Boston.

Mrs. J. B. Freeman and daughter, Joan, and Mrs. W. H. Bowman of Washington, D. C., are visiting Mrs. Walter Jones.

Nelson Jackson, Jr., has returned from a business trip in the North.

Many Tryonites and visitors are enjoying swimming at Lake Lanier Inn dock.

In England, particularly, during the 18th century the history of furniture is the history of great designers. Men like Sheraton, Chippendale, Hepplewhite and the Brothers Adams.

In France the story is different. Here furniture designers were influenced by the personality of the ruling monarchs.

Such designers as Boulle distinguished themselves, but furniture created by these masters was influenced by the preferences of the King. The outstanding example was Louis XIV under whom the Golden Age of French furniture began. He surrounded himself with the greatest artists and craftsmen whose efforts to glorify his Majesty became almost a fetish.

It is remarkable that these great designers, who created so much that was beautiful, never gave more thought to comfort.

It was not until the last fifty years that the proper thought was given to mattresses and springs. Since that time the development has been rapid. With the felted inner spring mattresses, that are beautiful in themselves, one may find more comfort than a monarch, at prices as low as sixteen dollars and fifty cents and up.
