Frank Arthur to Teach Woodcarving

Frank Arthur has consented to take over the woodcarving class of the Boys club. Miss Bland, who has had the work in charge, has accepted a full time position in her own profession as nurse. The club and the boys' parents will be very happy in knowing that Mr. Arthur will be the instructor. Mr. Arthur's ability is too well known to need comment. The club thanks Miss Bland, who is a pupil of Mr. Arthur's and extends a hearty welcome to one of Tryon's outstanding woodcarvers.—Club Reporter.

At Kiwanis

Louis A. Avant was in charge of the Kiwanis program today at hotel Tryon and the chief speaker was M. R. McCown, who gave an interesting account of his recent visit to the TVA development on the Hiawasse river near Murphy, N. C., and over in Georgia. He also told of a visit to a big tale mine which will be covered by the lake unless provision is made for a big wall to be built around it. A village is springing up at the Hiawasse dam similiar to one at Norris. Model houses are being built and will be heated with electricity. J. F. Gilman, guest of C. M. Howes, and a delegate from Spokane, Wash., to the Knights Templar convention at Miami, Fla., gave an interesting account of his trip there and to Havana, Cuba.

Well, all Gaul was divided into three parts. It takes a lot of gall to run anybody's country . . . When one goes to Montreat for the first time he gets the impression of entering a foreign country. You have to pass through a big gate in a
