TWISTS OFF... SNAPS BACK ON

THE new way we have just adopted of sealing our bottles is the most convenient thing you ever saw. The patented SEAL-KAP comes off with an easy twist. No need for gouging with knife-point or ice pick. Then, when you have poured what you want, you snap it right back on and the milk

remaining in the bottle is sealed as safely from odors, contamination and leaks as ever before.

Try our good milk in this more convenient bottle for one week. It costs no more.

Stop one of our route men or phone.
