*"everybody is talking about better living"*

"Everywhere you go you hear conversation about "Better Living". People are traveling more, taking vacations, having more time for recreation and endeavoring in every way to get more out of living.

"Those who are living 'best' and most comfortably and healthfully are those who use my services most. I have made household drudgery a thing of ancient history. I am bringing happy moments and more leisure to the mothers and housewives of today.

"And my wages are so low that my employers all agree that my service is the cheapest thing they buy."

Your friend and servant,

*Reddy Kilowatt.*
