"CURB" REPORTER

It is an ancient custom that gives a man the privilege of marking a bee tree that he has found on another's property, and with it the right to cut down the tree and rob the bees of the honey. Now, Claud Smith of the Tryon Motor Company has discovered a bee gum in the walls of Dr. Green's house next to the Chevrolet place. Yesterday afternoon the little bees were busy going in and out in a hole between two shingles. Just how much honey is in the wall is not known. He sells a product that is advertised in many different ways all over the world, but he wouldn't let us use his name or his product in connection with the donation.
