Tryon Federal Savings And Loan Association Makes Splendid Record

In a page advertisement in today's issue of the Bulletin is a statement of assets and liabilities of the Tryon Federal Savings & Loan Association of which F. P. Bacon is president and M. R. McCown, secretary-treasurer. The statement shows that the local organization has \$106,106.65 loaned out to people building homes. It is money that is constantly at work. As it is repaid to the organization in monthly payments it is loaned again to others to build homes, thereby furnishing employment to workers and builders' supply dealers. At the same time it pays a four per cent dividend to investors. This dividend is free from taxes and does not have to be listed on the income tax report. Officials state that the local association offers a means for the small investor to save his earnings and draw a larger rate of interest with government protection than is possible in other methods of investment. The small salaried man can invest \$5, \$10, \$25 and \$100 or more with government insurance up to \$5,000. The local directors are F. P. Bacon, W. S. Green, M. R. McCown, Julian B. Hester, and John G. Landrum. There are 14 cities in North Carolina with these Federal associations. During the past ten months their assets rose from \$5,878,261 to \$8,168,232. A lot of people have been saving over \$3,000,000 the past few months and local people have this opportunity thru the Tryon Federal Savings & Loan Association.
