## Greenville Men Shot To Death

Landrum, June 19. — Violence flared in the Gowansville section of Greenville county near the Spartanburg county line, late today and two white men, both farmers, were shot to death.

The dead were William P. Center, about 50, and his nephew, Harrison Fricks, 21. Both were killed almost instantly.

The shooting took place at a barn of the residence of Center, with whom Fricks made his home.

In Greenville, sheriff's deputies ascribed the tragedy to domestic trouble, and reported that a white youth, Carlos Plumley, 16, was being held in connection with their investigation.

The youth, Greenville officers said, is being held for the slaying of Center after the elder man allegedly had shot his nephew.

The bodies were removed to the Petty funeral home here, where attaches quoted Coroner George McCoy, of Greenville, as saying that an inquest would be held later.—Spartanburg Herald.
