Out-of-State _____ \$2.00

To Correct Absentee Evils

Public spirited citizens all over the state and the State Board of Elections are preparing a campaign to correct some of the absentee vote evils. Many of these citizens want to eliminate the absentee ballot entirely. We hope this will be accomplished. There is really no place for the absentee ballot. In the meantime the voters of Polk County can keep talking up a re-registration of all voters in order to eliminate the names of people who have died or moved away. A better way, and one more economical, would be for the election board to publish in the newspaper the official list of all voters. Then upon proper notification remove the names of those illegally listed, and publish the names of those removed and give the reason for it. The only people who should object to this method would be the ones whose names do not belong on it, or politicians who want to use the names for illegal voting. All legitimate voters should be proud of any list of names that designates them as citizens of Polk County, citizens who are willing to assume their share of responsibility in better government.

The Jeff L. Nelson Masonic Lodge, No. 605, will meet on Monday night at the lodge hall in Tryon. This is the night before the Oxford Orphanage concert and all Masons are requested to attend to make final plans for their entertainment.

THE BULLETIN \$1.50 A year.

Special FURNITURE SALE

Through July

You Can Save On Your
Furniture Needs:
