

## Pirate Puppets Thrill Two Tryon Audiences

The puppet-show wizardry of Tony Sarg again charmed two Tryon audiences when the original New York company of marionettes put on a full dramatization of "Treasure Island" at the Parish House on Friday afternoon and evening. This was a return engagement of the marionettes who a year ago played "Robinson Crusoe" and scenes from "The Mikado" to delighted Tryon audiences.

The stage settings for the puppet version of Robert Louis Stevenson's immortal adventure classic were particularly pleasing, and the acting of the marionettes under the direction of David Pritchard measured up fully to the usual Sarg standard.

For a time the Parish House was literally filled with pirates, but when, in the end, young Jim Hawkins had outwitted them all and saved the day for his honest friends, the pirates were all dead, save one—Long John Silver—and he was a mightily chastened pirate.

The annual coming of Tony Sarg's marionettes is a cultural feature of the Tryon season that everybody feels should be continued from year to year. St. Agnes Guild, which sponsored the show last year and this, and Miss Ferdinanda Poppe, who conducted all arrangements, are to be congratulated, with the hope that they will bring the marionettes back again next year.—G.
