AUTOS ROCKED

It may seem strange that the Supreme Service Station would want to rock their customers cars, but such is the case according to Manager Dick Burnett, who states that they have just installed the most modern lubricating system, which rocks automobiles about the same as when they are being driven on the road. While this rocking is going on their equipment lubricates every working part of the cars and eliminates the squeeks, insuring smoother driving and longer life for the car.

MISS CONNER NAMES VEGETABLE LIST

Several days ago the Ballenger Co. advertised that they would give \$1 worth of green vegetables to the person naming the greatest number of vegetables not listed in their ad in the Bulletin that day. The store had 31 vegetables advertised on that particular day, but Miss Conner named 32 other vegetables not listed in the advertisement. A large number of other housekeepers listed from 25 to 31 vegetables. The Ballenger Co. has Vegetaire display counter and a frozen food machine which enables the store to furnish nearly every kind of green vegetable obtainable.
